The Australian (illicit) drug policy timeline provides a list of key events, policy and legislative changes that have occurred in Australia between 1985 and 15 December 2016. Events are listed by jurisdiction, at the federal and state/territory level. The first table includes events at the federal level. Events in the state and territories are split into two parts. The second table includes events from the Australian Capital Territory, Queensland, New South Wales and the Northern Territory. Events from South Australia, Tasmania, Victoria and Western Australia are listed in the third table. All events added in the last six months are highlighted in blue. DPMP will continue to update the timeline every June and December. Please feel free to email through any comments or suggested inclusions.

<td>2016</td>
<td>The Office of Drug Control (ODC) established in the Commonwealth Department of Health to regulate and provide advice on the import, export and manufacture of controlled drugs as well as the domestic cultivation of medicinal cannabis. Key roles: to administer the Narcotic Drugs Act 1967 and parts of the Customs (Prohibited Imports) Regulations 1956 and the Customs (Prohibited Exports) Regulations 1958 that relate to drugs (Feb 15). The Federal Parliament of Australia passed landmark legislation, Narcotic Drugs Amendment Act 2016, to allow the controlled cultivation of cannabis in Australia for medicinal and related scientific purposes via a national licensing scheme. The act came into effect on 30 Oct 2016, with a detailed regulatory framework enabling applications for licenses and permits for the cultivation, production and manufacture of medicinal cannabis products. Key rules included that first set of cultivation or manufacture licenses would be issued for one year only and that licensees must be judged as ‘fit and proper person’ including having previous business experience, no convictions for a serious offence in the last 5 years against Cth/State/Territory law and being a person of good repute (Feb 24). New research by Hughes et al released: &quot;Estimating the number of regular and dependent methamphetamine users in Australia, 2002-2014&quot;. This estimated that in 2012-13 there were a total of 268 000 regular methamphetamine users and 160 000 dependent users aged 15-54 years in Australia and that this number had increased substantially over the last 12 years (Mar). TGA rescheduling of naloxone commenced enabling purchase of naloxone over-the-counter in pharmacies (S3) (Feb 1). Petroleum Drug Summit held in Canberra, co-hosted by Senator Richard Di Natale (Greens), Sharman Stone MP (LNP) and Melissa Parke MP (ALP). Summit brought together International and Australian representatives with expertise in health, NGO, justice, personal addiction and academia to share experiences and recommendations around harm minimisation and drug law reform. The call to avoid for putting law and health and safety first in illicit drug policy; to remove criminal sanctions for personal drug use; to expand investment in drug treatment and to pursue an open debate on more effective policies (Mar 2). Australian country statement at the United Nations 59th Commission on Narcotic Drugs reiterated that “Australia opposes the use of the death penalty in all circumstances, including in relation to drug-related crimes” and that Australia would “continue to press for a global ban on the death penalty and actively engage in promoting a public health approach to illicit drug use which considers a proportional response to minor or non-violent drug related crimes” (Mar). Australian country statement at the United Nations General Assembly (UNGASS) reiterated that “Australia will continue to press for a global ban on the death penalty in all circumstances, including in relation to drug-related crimes” (Apr). Australian Criminal Intelligence Commission was established following the merge of the Australian Crime Commission (ACC) and CrimTrac (Jul 1). Data from the Kirby Institute revealed record numbers of Australians treated for Hepatitis C since listing of new generation treatments on the Pharmaceutical Benefits Schemes. For example, 22,470 Australians had commenced Hepatitis C treatment since PBS listing in May 2015, compared to 2,000-3,000 people treated annually prior to the listing (Jul). New research by Hughes et al released: “Tráfico internacional de drogas: Exponiendo Australia’s polio-drug and pol-criminal networks.” This provided the first analysis of the scale, trends and harms of Australian polio-drug traffickers (traffickers that trade in multiple illicit drugs), showing that compared to traffickers that trade in one drug (mono-drug traffickers), poly-drug traffickers import larger quantities of drugs, are more involved in other forms of organized crime and are more resilient to police (Aug). Illicit Drug Data Report 2014-15 released. This showed that the number of border detections increased for most drug types. Of note the number and weight of heroin, cocaine and MDMA...</td>

2015 New research by Degenhardt et al. “Experience of adjunctive cannabis use for chronic non-cancer pain” found 13% of their sample of 1500 chronic pain patients were using cannabis in addition to prescribed opioids and that many of those reported they got more pain relief from cannabis than conventional medicines (Jan).

The Senate passed a motion led by Greens Leader Richard Di Natale calling on the Federal Government to address the rising rates of harm associated with drug use by implementing and appropriately resourcing evidence-based harm reduction policies, including: (i) greater access to needle and syringe programs across the country with an urgent roll-out of trials inside prisons, (ii) promoting awareness of the life-saving opioid reversal drug Naloxone, and highlighting its availability over the counter in pharmacies, and (iv) working with state and territory governments to cease the use of drug sniffer dogs at festivals and urgently introduce trials of pill testing for the upcoming festivals season. The motion passed the Senate without objection from Labor or Liberal Senators (Aug).

2015 Ecstasy and Related Drugs Reporting System (EDRS) reported a resurgence in the Australian ecstasy market as well as a shift towards higher purity crystal forms of the drug. Regular stimulant users reported increased availability and purity of crystal and non-crystal forms of ecstasy in Australia. They also reported a shift in forms of use with increased use of crystal and capsules. Of note, prevalence of crystal ecstasy increased from 39% in 2013 to 57% in 2016 (Sep).

The Greens Party unveiled a new drugs policy that ended opposition to legalisation of illicit drugs. The new drugs policy included three principles: 1) the current punitive approach to drug use has failed to stop illicit drugs use; 2) the legal framework for drugs and other substances used for non-medical purposes should be informed by evidence of the extent and nature of the harm likely to be caused; and 3) education is a vital tool in reducing both harm from and demand for drugs, including legal drugs such as alcohol and tobacco. The policy also calls for a new independent national regulatory authority to assess and reduce the harm of illicit drugs (Dec).

New research by Degenhardt et al. “Experience of adjunctive cannabis use for chronic non-cancer pain” found 13% of their sample of 1500 chronic pain patients were using cannabis in addition to prescribed opioids and that many of those reported they got more pain relief from cannabis than conventional medicines (Jan).

Indonesian President Joko Widodo denied the final appeal for Bali Nine offenders, Andrew Chan and Myuran Sukumaran, to avoid the death penalty (Jan).

ANZ Ministerial Forum on Food Regulation met to consider ANZ Food Standards approval A1039 for the use of low THC hemp products in food. The application was rejected on the basis of ongoing law enforcement concern about the impact on drug driving enforcement and the use of the cannabis leaf design normalizing and trivializing the use of cannabis (Jan).

Silkroad website founder Ross Ulbricht found guilty on seven counts including drug trafficking and money laundering (Feb). The Centre of Excellence Research in Mental Health and Substance released the first interactive drug education game for teenagers: “Pure Rush.” The program aims to inform adolescents about the potential harms of cannabis, methamphetamine, hallucinogens and pills through a game format (Feb).

Senate Legal and Constitutional Affairs Legislation Committee commenced an Inquiry into the Regulator of Medicinal Cannabis Bill 2014 with a call for public submissions (Feb). The Crimes Legislation Amendment (Psychoactive Substances and Other Measures) Bill 2014 was adopted. The bill amends the Criminal Code Act 1995 (the Code) to ban the importation of all substances that have a psychoactive effect that are not otherwise regulated or banned. It was intended to fill the regulatory gap before new psychoactive substances can be controlled under the other parts of the Criminal Code or the Customs (Prohibited Imports) Regulations. The maximum penalty for an offence will be imprisonment for five years, 300 penalty units (currently equivalent to $51,000) or both. The measures will enter into force when it is proclaimed or six months after Royal Assent (Feb 23).

Federal Parliamentary Joint Committee on Law Enforcement initiated an inquiry into crystal methamphetamine (ice). Terms of reference included to examine 1) the role of Commonwealth law enforcement agencies in responding to the importation, manufacture, distribution and use of methamphetamine and its chemical precursors; 2) the adequacy of Commonwealth law enforcement resources; 3) the involvement of organised crime in methamphetamine related criminal activities; and 4) the nature, prevalence and culture of methamphetamine use in Australia (Mar).

National Ice Taskforce launched by Prime Minister Tony Abbott. The taskforce was led by Ken Lay APM, former Chief Commissioner of Victoria Police, and tasked with establishing a National Ice Action Strategy to tackle ice (crystal methamphetamine). The taskforce called for public submissions until 20 May 2015 (Apr).

Bali Nine offenders, Andrew Chan and Myuran Sukumaran, were executed in Indonesia (Apr).

National Ice Action Strategy to tackle ice (crystal methamphetamine). The taskforce called for public submissions until 20 May 2015 (Apr).

Australian Crime Commission Illicit Drug Data Report 2013-14 released. Noted that the number of illicit drug seizures and arrests were the highest on record. Of particular concern the number and weight of ATS end-product (excluding MDMA) detections at the Australian border were the highest and second highest on record and the number of national ATS seizures and arrests were the highest on record. That said, trends in the number of ATS clan lab detections had decreased for the second year (May).

Law Crime and Community Safety Council (LCCSC – the peak ministerial law enforcement body in Australia) agreed to work towards more nationally consistent controls over precursor chemicals and equipment and that they would arrange public consultation on a range of possible options (May).

A range of new hepatitis C treatments were added to the Pharmaceutical Benefits Scheme (PBS), including Viekira Pak® with a cure rate of more than 90%. Treatments became available May 1 2016 (Mar).

New research by Ritter et al. released: “Health expenditure on alcohol and other drug treatment in Australia (2012/2013).” This found that alcohol and other drug treatment spending in Australia amounted to $1.2 billion in 2012/2013: just under one per cent of health care spending in Australia. States/territories accounted for 51% of all expenditure (Aug).

The Therapeutic Goods Administration (TGA) announced its decision to place “naloxone when used for the treatment of opioid overdose” on Schedule 3, commencing 1 Feb 2016, thereby allowing over-the-counter (OTC) purchase. This made Australia the second country, after Italy (in 1995), to have naloxone formally available OTC. Key reasons for the decision were: 1) naloxone is a well-tolerated life-saving medicine with minimal side effects; 2) international experience and the outcomes of a trial conducted in the Australian Capital Territory supported the view that easier availability of naloxone is likely to decrease the proportion of opioid overdoses which result in death in Australia; and 3) that there are few inherent risks with use of naloxone (Nov 4).

Final Report of the National Ice Taskforce, chaired by Ken Lay, released following face-to-face consultations across the country and over 1,300 written submissions. Report concluded that...
Ice use was causing significant harms across Australia, but that in spite of the best efforts of Australian law enforcement that the ice market remained high and very resilient to law enforcement (due to the capacity to both import and domestically manufacture supplies). The taskforce thus concluded that the war on drugs is "not something we can simply arrest our way out of" and recommended that governments focus action on reducing the demand for ice and reducing the harm it causes: via expanded prevention and treatment responses. Made 38 recommendations including; to increase investment in alcohol and other drug specialist treatment services; develop a comprehensive, evidence-based two-year prevention communication plan focusing on ice; review diversionary programmes to determine best practice approaches, and consider options for improving and expanding existing arrangements; prioritise building a national cooperative scheme on unexplained wealth; piloting a Swift and Certain Sanctions programme for ice offenders on probation, drawing on lessons learned from US HOPE models; introduce a simplified governance model to support greater cohesion and coordination of law enforcement, health, education and other responses to drug misuse in Australia; to establish a national wastewater analysis capability; and to establish an illicit drug monitoring clearinghouse for national data (Dec).

Compared to 31% from the Commonwealth (Apr).

New DPMP research released: "Australian threshold quantities for drug trafficking." Provided the first evaluation of threshold designs throughout Australian states. Showed a number of changes to the law enforcement framework; several of which were significant, including dropping criminal charges for simple possession and moving to a "deemed supply" and sanction of up to 15 years prison. Recommended increasing a number of quantities (Mar).

New DPMP research released by Alison Ritter et al, "Review working paper 7: Australian alcohol and other drug treatment spending". This provided the first estimate of total spending on alcohol and other drug treatment in Australia; approximately $13.1 billion per annum. It also established that the largest contributor to the spending were the states/territories (49%), compared to 31% from the Commonwealth (Apr).

ANCDC statement issued: "Funding principles for non-government organisations providing alcohol and other drug treatment." Key principles included 1) Recognise the important role of AOD NGOs and the benefits they bring to the wider AOD sector; 2) Recognise that NGOs provide more resources to service provision than governments fund; 3) The basis for government decisions surrounding funding models for the AOD sector and funding decisions must be transparent; and 4) Levels of funding provided to AOD NGOs must be adequate to enable provision of quality services that meet demand, and all the costs associated with its delivery (Apr).

The Prime Minister Tony Abbott stated on Radio 3AW that the war on drugs is "not a war we will ever finally win" (Apr).

ANCDC position paper "Mandatory Treatment" opposed mandatory drug treatment except under exceptional circumstances (Apr).

Australian Customs and Border Protection Service and other leaders of customs administrations from the Asia-Pacific, including Hong Kong and China, endorsed a new Asia-Pacific Anti-Drug Strategy, to provide for additional information and personnel exchanges, and a framework for regional and trans-national joint anti-drugs operations across the region (May).

NIDAC released report "Alcohol and other drug treatment for Aboriginal and Torres Strait Islander peoples." This provided information on interventions that were evidence-based and

2014

Joint Task Force (Task Force Eligio), that was established to focus on high-threat money laundering, seized $550 million in drugs, $30 million worth of assets, $26 million in cash and arrested 105 people. The taskforce was led by the Australian Crime Commission and involved the Australian Federal Police and the Australian Transaction and Reporting Centre (AUSTRAC), in partnership with State and Territory police, Australian Customs and Border Protection Service, Commonwealth regulatory and law enforcement partners and international agencies including the United States Drug Enforcement Administration (Jan).

2014 Government Services Report showed perception of illegal drugs as a problem in Australia decreased from 45% to 37% (2011-12 to 2012-13) (Feb).

New DPMP research released: "Australian threshold quantities for drug trafficking." Provided the first evaluation of threshold designs throughout Australian states. Showed a number of problems in threshold designs, including that of users of drugs, particularly MDMA, consume or purchase for their personal use alone more than the current threshold quantity that triggers a charge of "deemed supply" and sanction of up to 15 years prison. Recommended increasing a number of quantities (Mar).

New NDARC research showed growth in number of Australian retailers on the 'dark web' even after the closure of Silk Road 1.0 in Oct 2013 and a shift in nature of demand: reduction in a charge of "deemed supply" and sanction of up to 15 years prison. Recommended increasing a number of quantities (Mar).

The Australian Crime Commission warned that crystal methamphetamine was emerging in Australia as a 'pandemic' (Apr).

New DPMP research released by Alison Ritter et al, "Review working paper 7: Australian alcohol and other drug treatment spending". This provided the first estimate of total spending on alcohol and other drug treatment in Australia: approximately $1.3 billion per annum. It also showed that the largest contributor to the spending were the states/territories (49%), compared to 31% from the Commonwealth (Apr).

ANCD statement issued: "Funding principles for non-government organisations providing alcohol and other drug treatment." Key principles included 1) Recognise the important role of AOD NGOs and the benefits they bring to the wider AOD sector; 2) Recognise that NGOs provide more resources to service provision than governments fund; 3) The basis for government decisions surrounding funding models for the AOD sector and funding decisions must be transparent; and 4) Levels of funding provided to AOD NGOs must be adequate to enable provision of quality services that meet demand, and all the costs associated with its delivery (Apr).

The Prime Minister Tony Abbott stated on Radio 3AW that the war on drugs is "not a war we will ever finally win" (Apr).

ANCDC position paper "Mandatory Treatment" opposed mandatory drug treatment except under exceptional circumstances (Apr).

Australian Customs and Border Protection Service and other leaders of customs administrations from the Asia-Pacific, including Hong Kong and China, endorsed a new Asia-Pacific Anti-Drug Strategy, to provide for additional information and personnel exchanges, and a framework for regional and trans-national joint anti-drugs operations across the region (May).

NIDAC released report "Alcohol and other drug treatment for Aboriginal and Torres Strait Islander peoples." This provided information on interventions that were evidence-based and

Caitlin Hughes, Drug Policy Modelling Program – Last updated 15 December 2016. For comments email: caitlin.hughes@unsw.edu.au
directly related to addressing AOD use among Aboriginal and Torres Strait Islander peoples (Jun).

New framework for a national response to New Psychoactive Substances in Australia released. The framework was developed by the Inter-Governmental Committee on Drugs (IGCD) with input from health, law enforcement and non-government experts. Key inclusions in the framework included: 1) the need for consistency in terminology, and henceforth the use of the term “new psychoactive substances” in all official correspondence and messaging; 2) the need to establish a solid evidence base, such as through improved monitoring of NPS trends, comprehensive harms assessments (health and social) of NPS and sharing of information across states/territories; and 3) consideration of optimal legal responses (Jul).

New strategies adopted: Seventh National HIV Strategy; Fourth National Hepatitis C Strategy; and Second National Hepatitis B Strategy (Jul).

The Pharmaceutical Benefits Advisory Committee (PBAC) rejected the application to add sofosbuvir (Sovaldi) an antiviral medication for Hepatitis C with a treatment time of just 12 weeks to the Pharmaceutical Benefits Scheme (PBS), arguing it was too expensive (Aug).

Commonwealth Government states that it would not oppose state or territory moves to decriminalise cannabis for medicinal purposes (Aug).

ANCD report released: “Young people’s opinions on alcohol and other drugs issues.” The report, which resulted from Australia’s largest survey of youth opinions on AOD policy (n=2335), concluded that Australian youth showed strong support for harm reduction measures, including needle and syringe programs, regulated injecting facilities, and the availability of pill testing, and for drug law reform but were opposed to tighter alcohol regulations. They also expressed a desire for more reliable or relevant drug information and education (Aug).

ANCD report on “Medication treatment options foramphetamine-type stimulant users” released. Used a systematic review covering withdrawal and pharmacotherapy options to identify whether there were any treatment options with promise. Concluded that the evidence was not yet strong enough to recommend routine use of any option. For example outcomes conflicted and most studies were poor quality e.g. small sample sizes, variable participant retention and often lacking testing for specific ATS patterns in Australia. That said, it noted a number of treatments that showed promise e.g. Dexamphetamine, Bupropion and Modafinil and recommended further research in local conditions (Aug).

ANCD report released: “From policy to implementation: child and family sensitive practice in the alcohol and other drugs sector.” The report, undertaken by NCETA, concluded that there was increasing attention being directed to the risks children are exposed to, but also that responsibility for the children of those attending AOD services currently remains ambiguous and that this impedes constructive and consistent responses across and within sectors (Aug).

Prime Minister Tony Abbot backs legalisation of medical cannabis and states that “no further testing should be needed on the drug if it is legal in similar jurisdictions” (Sep).

Public Health Association of Australia (PHAA) launch position statement strongly supportive of medical cannabis (Sep).

The Australian Treatment Outcome Study (ATOS), a 11 year prospective cohort study of heroin dependent people, found that 11 years post the initial treatment episode the cohort had received a median of 1,465 treatment days and shown significant reductions in 1) daily heroin use from 80% at baseline to 4% at year 11; 2) involvement in crime from 55% at baseline to 22% at year 11; and 3) as a main source of income from 24% at baseline to 2% at year 11 (Sep).

New Alcohol and Other Drugs (AOD) Peaks Networks formed. The network comprised all state and territory AOD peaks and provided a conduit for immediate access to AOD services in all Australian jurisdictions (including treatment & harm reduction services) and means to support information exchange, collaboration, sector development, and quality improvement (Sep).

New NDARC research released: “Young adult sequelae of adolescent cannabis use: an integrative analysis.” The study pooled data from four large Australasian longitudinal studies and showed that frequent cannabis use in adolescence was linked with reduced odds of high-school completion and degree attainment and substantially increased odds of later cannabis dependence, use of other illicit drugs and suicide attempt (Sep).

COAG meeting led to a national agreement to support a trial of medical cannabis in NSW (Oct).

ABC Four Corners issue a new documentary on methamphetamine: “Ice Rush.” Eight years on from their 2006 documentary “The Ice Age” it reported on a new ice epidemic “ravaging Australia.” (Oct).

IGCD Stakeholder Forum held to discuss the development of the new National Drug Strategy. Key feedback was the need for more meaningful stakeholder engagement, a broader concept of enforcement beyond police, including liquor licensing authorities, local government, health authorities and food law and increased attention to the social determinants of health, including the role of education, employment and housing (Oct).

4

2014 Ecstasy and Related Drugs Reporting System (EDRS) reported that amongst regular stimulant users there had been a stabilization in the use of new psychoactive substances (NPS) (37% in 2014, compared to 36% in 2013) and a drop in use of synthetic cannabis (7% in 2014 compared to 16% in 2013) (Oct).

2014 Illicit Drug Reporting System (IDRS) reported that amongst people who inject drugs there had been a stabilization in the overall use of methamphetamine, but an increase in the use of crystal methamphetamine or ‘ice’ from 55% in 2013 to 61% in 2014 (Oct).

New NDLERF report released: “Supply reduction policy and drug-related harm.” The report conducted by BoCSAR employed a) time-series analysis of the relationship between high-level seizures and supplier arrests of cocaine, heroin and amphetamine-type substances (ATS) on emergency department (ED) admissions and use/possession arrests between July 2001 and June 2011 and b) analysis of the impacts of three specific large scale police operations targeting cocaine supply. It found that increased seizures of cocaine, heroin and ATS did not result in any reduction in overdoses or arrests for use and possession of these drugs, but that the large scale operations were associated with a reduction in use and possession arrests (Nov).

New AIC report released: “Counting the costs of crime in Australia: A 2011 estimate”. The report concluded that the three most costly crimes to the Australian community were fraud, drugs and assault, with drugs accounted for an estimated $3.161 million each year (Nov).

The 2013 National Drug Strategy Household Survey (NDSHS) was released. This showed recent use of any illicit drug (excluding pharmaceuticals) remained stable between 2010 and 2013 (at 12%). However, there was a significant decrease in recent use of ecstasy (from 3.0% to 2.5%) and while recent use of methamphetamine remained stable (at 21%), the...
A joint operation by the Australian Federal Police, NSW Police, Australian Customs and Border Protection Service, NSW Crime Commission and the Australian Commission led to the seizure of 2 tonnes of MDMA and 800kgs of methamphetamine, worth an estimated $1.5 billion, that had been shipped from Germany to Sydney. Six men were also arrested (Nov).

Regulator of Medicinal Cannabis Bill 2014 introduced by Senator’s Di Natale, Macdonald, Leyonhjelm and Urquhart. Proposed to establish an Australian Regulator of Medicinal Cannabis to be responsible for formulating rules and monitoring compliance with those rules for licensing the production, manufacture, supply, use, experimental use and import and export of medicinal cannabis; and provides for a national system to regulate the cultivation, production and use of medicinal cannabis products, and related activities such as research (Nov).

The Australian National Council on Drugs (ANCD) was restructured as the Australian National Advisory Council on Alcohol and Drug (ANACAD), led by Kay Hull MP, with the first priority being to look at the harmful effects of methamphetamine or ‘ice’. The new council reported directly to the Assistant Minister for Health, Senator Nash (Dec).

The National Indigenous Drug and Alcohol Committee (NIDAC) abolished (Dec).

House of Representatives Standing Committee on Health announced an inquiry into treatment, testing, prevention and cost of Hepatitis C Vaccination in Australia. The terms of reference included 1) prevalence rates of Hepatitis C in Australia; 2) early testing and treatment options; 3) costs associated with short and long-term treatment; 4) methods to improve prevention and to reduce the stigma associated with a positive diagnosis (Dec).

Migration Amendment (Character and General Visa Cancellation) Act 2014 adopted. Led to changes to Migration Act 1958 to expand powers to revoke visas and deport convicted/suspected offenders including:

- inserting a new mandatory ground for the cancellation without notice of a visa under section 501 of the Act for anyone serving a full-time sentence of imprisonment in a custodial institution for an offence against the law of the Commonwealth, a State or a Territory where the Minister is satisfied that the person does not pass the character test because the person has a substantial criminal record (meaning they have been sentenced to a term of imprisonment of 12 months or more);
- strengthening the powers to refuse to grant, or to cancel, a visa on character grounds by inserting additional grounds on which a person will not pass the character test, including where the Minister reasonably suspects that the person has been or is a member of a group or organisation, or has had or has an association with a group, organisation or person that has been or is involved in criminal conduct, whether or not the person, or another person, has been convicted of an offence constituted by the conduct.

Research by McKetin et al. ‘Dose-related psychotic symptoms in chronic methamphetamine users’ Evidence from a prospective longitudinal study’ provided the first comprehensive evidence that methamphetamine use is linked to psychosis, as shown by a large dose-dependent increase in the occurrence of psychotic symptoms during periods of methamphetamine use (Jan).

New report released by the National Local Government Drug and Alcohol Advisory Committee: “The Australian Night Time Economy A First Analysis 2009 to 2011.” Showed night time economy was valued at $92 billion in 2011; 3.3% of the total Australian economy (Feb).

An Australian, Paul Leslie Howard, became the first person in the world to be convicted and sentenced for a Silk Road-related crime of importation and trafficking illicit drugs (MDMA, amphetamine, marijuana and cocaine). He was sentenced to three years and six months imprisonment, with a minimum of 21 months (Feb).

New report released: “Australian secondary school students’ use of tobacco, alcohol, and over-the-counter and illicit substances in 2011.” Showed significant declines (from 2005 to 2011) in lifetime and recent use of most illicit substances e.g. amphetamines, cocaine and ecstasy. Lifetime use of cannabis increased in 2011 relative to 2008 (14.8% compared to 13.6%) but remained significantly lower than in 2005 (17.8%) (Feb).

Higher education in Australia; 2) early testing and treatment options; 3) costs associated with short and long-term treatment; 4) methods to improve prevention and to reduce the stigma associated with a positive diagnosis (Dec).

Australian Crime Commission released a new report: “Organised crime and drugs in sport.” Highlighted growing PEID use, but also concluded that 1) that illicit drug use by professional athletes is more prevalent than is reflected in official sports drug testing program statistics; (2) some professional athletes are exploiting loopholes in illicit drug testing programs; and (3) that such drug use leaves players vulnerable to exploitation e.g. for match fixing and attracting organised crime (Feb).

Renewed criticism of the AFL’s illicit drugs policy and its’ three strikes approach (Feb).

Minister for Health Tanya Plibersek announced that two new treatments for chronic hepatitis C will be listed on the Pharmaceutical Benefits Scheme (PBS). The two medications [boceprevir (Victrelis®) and telaprevir (Incivo®)] will benefit an estimated 130,000 patients (Feb).

Government response to the Parliamentary Joint Committee on Law Enforcement’s Inquiry into Commonwealth Unexplained Wealth Legislation tabled. 15 of 18 recommendations were agreed to in whole, including that the government look into expanding use of Australian Crime Commission coercive powers to provide evidence in support of unexplained wealth (Feb).

Two new Australian Customs and Border Protection Service officers from Sydney International Airport were arrested for alleged offences involving importation of pseudoephedrine, betaine of 2 tonnes and other serious offences. This linked to the 2012 investigations and arrests (Feb).

New report released by ANCD’s National Indigenous Drug and Alcohol Committee (NIDAC): “An economic analysis for Aboriginal and Torres Strait Islander offenders: Prison vs. Residential Treatment”. This report analysed the costs and benefits of addressing Indigenous offenders convicted of non-violent crime related to drug and alcohol use using residential rehabilitation treatment, as compared to prison. This showed that residential rehabilitation cost $18,385 per person, compared to $114,832 for prison. Moreover, once additional benefits of treatment were factored in, treatment could save $111 458 per offender (Feb).

New anti-corruption measures came into force for Australian Customs and Border Protection Service. The measures included legal, mandatory requirement for all workers to report any suspected serious misconduct, corrupt conduct or criminal conduct (Feb).

A joint investigation by the Australian Federal Police (AFP), the New South Wales Crime Commission, the New South Wales Police Force and the Australian Customs and Border Protection Service unveiled a suspected drug syndicate spanning the Eastern Border (NSW, Vic and Qld). It is alleged the group were attempting to import heroin and methamphetamine from China.
Australia’s largest recorded seizure of methamphetamine (585 kilograms) was detected by the Joint Organised Crime Group (JOCG) involving the Australian Federal Police (AFP), Australian Customs and Border Protection Service, NSW Police Force, the NSW Crime Commission (NSWCC) and the Australian Crime Commission (ACC). The seizure occurred in Sydney and led to the arrest of three alleged offenders (Feb).

The Commonwealth Department of Health and Ageing released two requests for tender: (1) review of the drug and alcohol prevention and treatment sector; and (2) the development of a quality framework for Australian Government funded drug and alcohol treatment services (Mar).

The 56th session of the United Nations Commission on Narcotic Drugs (CND) was held in Vienna. A resolution by Australia, New Zealand, UK and Japan, titled “Enhancing international cooperation in the identification and reporting of new psychoactive substances” was approved. This will foster a global early warning system about emerging psychoactive substances (Mar).

New NDLERF report released: “Patron Offending and Intoxication in Night-Time Entertainment Districts (POINTED).” This was the largest study of AOD use in the night-time economy; interviewing almost 7000 patrons between November 2011 to June 2012 in entertainment precincts in Sydney, Melbourne, Perth, Wollongong and Geelong. Found that 16-22% admitted or tested positive to illicit drugs on the night out, with the main drugs being cannabis, methamphetamine and ecstasy (Mar).

A joint law enforcement operation involving Australian Federal Police, Australian Crime Commission, Australian Customs and Victoria Police led to the seizure of 365 litres of liquid containing methamphetamine stored in bottles of carpet stain cleaner (Apr).

Australian Crime Commission Illicit Drug Data Report 2011-12 released. The report highlighted that in 2011-12 the number and weight of amphetamine-type stimulants (ATS) and cocaine border seizures had increased to the highest in the last decade. The number of national arrests for these drugs had also increased to the highest (ATS) and second highest (cocaine) in the last decade (May).

The Criminal Code Amendment Regulation 2013 (No. 1) and the Crimes Legislation Amendment (Serious Drugs, Identity Crime and Other Measures) Act 2012 made the following amendments to Part 9.1 of the Criminal Code and the Criminal Code Regulations:

- the lists of drugs, plants and precursors were transferred to the Criminal Code Regulations 2002 to provide for quicker listing of substances. The controlled drug list and border controlled drug list were also updated to reflect current substances of concern in Australia, including new substances and analogues;
- conditions and criteria for listing controlled and border controlled substance in regulations were established;
- the emergency determination mechanism was improved by extending the listing period to allow for appropriate analysis and testing of substances; &
- the criteria that must be satisfied before an emergency determination can be made were refined (May).

Calls for a national ban on synthetic drugs following NBOMe related death of Sydney teenager Henry Kwan and NSW temporary ban on 19 substances (Jun).

The then Commonwealth Assistant Treasurer introduced an interim consumer protection ban under the Competition and Consumer Act 2010 (Cth) prohibiting the retail sale of 19 psychoactive products and substances nationally for a period of 120 days. This ban was introduced to fill a gap in coverage in some states and territories where Schedule 9 of the Poisons Standard had not been fully implemented. It followed the introduction of an interim ban that was put in place by the New South Wales Minister for Fair Trading. Interim ban was extended for another 30 days but then lapsed on 13 October 2013, when the Assistant Treasurer determined that a permanent ban was not required (Jun 19).

Review of the Australian drug and alcohol prevention and treatment sector commenced, led by Prof Alison Ritter, Drug Policy Modelling Program. This 12 month project will clarify Australian drug and alcohol treatment and prevention funding; current and future service needs; the gap between met and unmet demand; & future planning and funding processes (Jul).

First systematic analysis of Australian cannabis THC and CBD potency published by Dr Swift et al. Showed most Australian cannabis had high THC and low CBD potency. Moreover, the mean potency of Australian THC was 14.88, which is similar, if not slightly higher than in other parts of the world (e.g. US and UK) (Jul).

The Australian National Council on Drugs (ANCD) released a report: “Survey of secondary school principals on the use of alcohol and other drugs in schools”. The report stemmed from a survey which canvassed the opinions of over two hundred Australian secondary school principals regarding the use of tobacco, alcohol and other drugs in schools (Jul).

The AOD Quality Framework Project commenced led by Prof Dan Lubman, Turning Point Drug and Alcohol Centre. This 12 month project seeks to better understand and improve service quality and inform future planning through development of a quality framework for Australian Government funded AOD treatment services (Jul).

NDARC releases first findings from new internet drug monitoring program. Shows that Australian retailers on the deep web offered traditional illicit substances for prices similar to those of street dealers or friends: but that prices advertised by online international retailers were substantially cheaper (Aug).

New report released from the Drug Policy Modelling Program: “Government drug policy expenditure in Australia - 2009/10”. Found that Australian governments spent approximately $1.7 billion in 2009/10 on illicit drugs and that 64% was directed at law enforcement, compared to 22% treatment, 10% prevention and 2% harm reduction. Also showed relative expenditure on harm reduction had decreased from 2002/03: from 3.9% of expenditure to 2.2% (Aug).

A multi-agency law enforcement operation targeting criminal organisations using the South Pacific as a transit point and staging area for their activities seized approximately 750 kilograms of cocaine in Vanuatu bound for Australia. Agencies involved included the Australian Federal Police (AFP), Australian Customs and Border Protection Service (ACBPS) and United States Drug Enforcement Administration (Aug).

New research from NDARC: “Global burden of disease attributable to illicit drug use and dependence: findings from the Global Burden of Disease Study 2010.” This showed that Australia had one of the highest burdens of disease attributable to illicit drug use. Other countries included, UK and Russia (Aug).

ANCD released a series of reports on employment participation for people experiencing AOD problems including: “ANCD Employment Participation Survey: Full Report”, and "Working..."
Peter Phillip Nash was arrested in Brisbane over alleged involvement in moderating Silk Road (an online drug market) (Dec).

To better meet the needs of ATS users (Dec).

estimates of ATS use; invest in rapid assessment and response strategies to ATS; and adapt existing harm reduction services, such as drop-in centres and needle and syringe programs,

high risk behaviours such as polydrug use and injecting drug use, and 2) low health service utilisation. Recommendations included: enhance capacity to enable more precise prevalence

in the Southeast Asian region.” Identified key gaps in data on ATS rates of use, but also significant public health concern. Showed ATS users were exposed to multiple HIV risks due to 1)

A multi-agency taskforce, Operation Diamondback, seized 1.9 tonnes of a pseudoephedrine and vanilla powder mixture: a novel concealment method used to traffick precursor chemicals

Australian Crime Commission and New Zealand Customs Service signed a Memorandum of Understanding allowing both countries to share information and intelligence on the highest

Law, Crime and Community Safety Council (LCCSC) established as the new peak law enforcement body in Australia and New Zealand, bringing together Ministers from the Commonwealth, each state and territory and New Zealand with portfolio responsibility for law and justice, police and emergency management. This replaced the Standing Council on Law and Justice (SCLJ) and the Standing Council on Police and Emergency Management (SCPEM) and was given the mandate of fighting crime and promoting best practice in laws, criminal justice and community safety in Australia and New Zealand (Dec).

The ANCD’s National Indigenous Drug and Alcohol Committee (NIDAC) released a position statement: “Funding of alcohol and other drug interventions and services for Aboriginal and Torres Strait Islander people” in response to changes in government policy that were leading to an erosion of Aboriginal and Torres Strait Islander community control of AOD services for Aboriginal and Torres Strait Islander people. Community control was affirmed and supported by NIDAC (Aug).

New BOCSAR report released: Trends in property and illicit drug crime around the Medically Supervised Injecting Centre (MSIC) in Kings Cross: 2012 update. This re-affirmed that trends in property crime and illicit drug crime incidents were the same in Kings Cross LAC and the rest of Sydney after the opening of the MSIC (Sep).

Liberal Government elected, under PM Tony Abbott (Sep).

ANCD released “Needle Syringe Programs position paper” which noted with concern the closure of a number of NSPs and reduction in funds. The report put forward 12 recommendations

including that all Australian governments renew commitment to the use and expansion of NSPs and that there is an immediate introduction of a prison based NSP in all states (Oct).

ANCD Position Paper: “Drug testing” overviewed the rationale for using drug testing in treatment settings, in workplaces, in schools, among welfare beneficiaries and in homes. They conclude that there is valid medical reasons for drug testing in treatment settings, but that there is little satisfactory evidence to support the use of drug testing in schools or workplaces and no evidence that drug testing welfare beneficiaries will have any positive effects for those individuals or for society (Aug).

The ANCD’s National Indigenous Drug and Alcohol Committee (NIDAC) released a position statement: “Funding of alcohol and other drug interventions and services for Aboriginal and Torres Strait Islander people” in response to changes in government policy that were leading to an erosion of Aboriginal and Torres Strait Islander community control of AOD services for Aboriginal and Torres Strait Islander people. Community control was affirmed and supported by NIDAC (Aug).

ANCD Position Paper: “Pre-employment Criminal Record Checks” called for a rethink on use of pre-employment criminal record checks in Australia, after a 600% increase in decade (Aug).

The National Drugs Campaign partnered with the Big Day Out to encourage attendees to ‘face facts’ about ecstasy. Free branded water was provided and a National Drugs Campaign chill out van. The National Drugs Campaign subsequently partnered with urban music festival Supafest in April/May (Jan).

47.5kg of ‘black tar’ heroin (and 2.2kg of brown heroin and 25.5kg of crystal methamphetamine) were detected in Sydney in connection with an alleged Iranian drug trafficker. NSW Police and the Australian Crime Commission asserted this was indicative of the recent rise in Iranian organised crime involvement (Feb).

The Australian Customs and Border Protection Service noted an increase in attempted importations of ContacNT. ContacNT is a Chinese cold and flu medication sold over-the-counter that contains high amounts of pseudoephedrine, and Customs had identified drug trafficking syndicates were targeting International students to ARM packages (Feb).

Request to the Therapeutic Goods Administration (TGA) to exempt Kava from scheduling controls by allowing access when used in accordance with the traditional use patterns of the Pacific Island region was denied. Ruling meant kava remained a Schedule 4 drug (Feb).

TGA ruling added methylenedioxyxypyrrolavlerone (MDPV), a synthetic stimulant to Schedule 9 (prohibited substances). Ruling came into force 1 May 2012 (Feb).

TGA ruling added new group entry to Schedule 9 (prohibited substances) for ‘synthetic cannabinomimetics’. The intent was to limit the promotion of “new legal mixes” of synthetic cannabinoids that were not already listed’ and to provide a safety net “without the need for ongoing urgent scheduling action” (Feb).

New report from the Australian Institute of Criminology’s Drug Use Monitoring in Australia (DUMA) released. The 2009-2010 report on drug use among police detainees indicated a significant decrease in the use of ecstasy (MDMA) amongst police detainees: 5% in 2010 and 2011, down from 11% in 2009 (Mar).

A Tongan national male was fined $900,000 for the illegal importation of the largest seizure of kava in Australian history (almost four tonnes). The seizure had an estimated street value
of over $2.5 million (Mar).

The 55th session of the United Nations Commission on Narcotic Drugs (CND) was held in Vienna, comprising of over 1200 participants from 120 countries, observers, international organisations and NGO’s. Australia’s resolution, titled ‘Promoting international cooperation in responding to the challenges posed by new psychoactive substances’ received significant support and was adopted by the CND, following minor amendments. This meant that novel psychoactive substances had been recognised as an issue of global significance and that there was a framework for increased global cooperation for this market (Mar 12-16).

Fairfax investigation revealed high level corruption amongst Australian Customs and Border Control: Customs has suspended or sacked 15 of its officers since 2010 in connection with misconduct or corruption allegations for offences including “possession of narcotics, lack of integrity, misuse of Commonwealth resources” (Mar).

The Parliamentary Joint Committee on Law Enforcement handed down the final report on its inquiry into new Commonwealth unexplained wealth legislation (adopted Feb 2010). Noted that despite the laws having been in operation for two years, no cases have been brought before the courts. It was argued that the current unexplained wealth provisions necessitated an overly burdensome investigation upon prosecutors. The Committee made 18 recommendations for improvement including enabling the Australian Crime Commission to use its coercive powers to provide evidence in support of unexplained wealth, allowing the Australian Taxation Office to use telecommunication information collected by law enforcement agencies and developing a nationally consistent unexplained wealth regime (Mar).

The Australian National Council on Drugs (ANCD) released a position statement, ‘Naltrexone Sustained Release Preparations (Injectables and Implants)’, in response to the ongoing debate regarding the use of naltrexone implants to treat opioid dependence. The statement noted that: “the ANCD supports the increased access to, and availability of scientifically accepted evidence based treatments” but that the “ongoing use of the TGA Special Access Scheme for sustained release naltrexone preparations circumvents formal processes to ascertain quality, safety and efficacy of pharmacological treatment products and is therefore inappropriate.” The ANCD called for the “TGA and the Department of Health & Ageing to resolve the ongoing use of the Special Access Scheme for the use of naltrexone implants” (Mar).

200kg of cocaine destined for Australia was seized in New Caledonia. The seizure followed an international operation involving Australian Customs and Border Protection Services, the Australian Federal Police, New Caledonian Police and the US Drug Enforcement Administration (Mar 31).

ANEX issued a new discussion paper titled Australian Drug Policy: harm reduction and ‘new recovery’ (Apr).

The Australian Greens called for dispensing fees for methadone and buprenorphine to be covered by the Pharmaceutical Benefits Scheme, noting that the dispensing fees limit access to many drug users who could benefit from pharmacotherapy treatment (Apr).

The Crimes Legislation Amendment (Powers and Offences) Act 2012 amended the Criminal Code to ensure that substances and quantities that were temporarily prescribed in the Criminal Code Regulations 2002 (interim regulations) now remain subject to the Commonwealth serious drug offences. This included the four drugs Benzylpipеразин (BZP), Ketamine, Methcathinone, 4-Methylmethcathinone (4-MMC) and the precursor Phenylpropanolamine. In accordance with Part 9.1 of the Code the Interim Regulations [Criminal Code Amendment Regulations 2011 (No 1)] expired on 9 April 2012. The Act also amended the Customs Act to ensure powers available to Customs officers to seize illicit drugs at the border are consistent and efficient (Apr 4).

Australia 21 report released: ‘The prohibition of illicit drugs is killing us and criminalising our children and we are all letting it happen.’ Based on the high level roundtable discussions involving 24 former senior politicians, law enforcement officers and public health officials (including Former WA Premier Hon. Geoff Gallop and Former AFP Commissioner Mick Palmer) the report concluded that the international and Australian prohibition of the use of certain ‘illicit’ drugs had failed and that Australia needed to consider alternatives (Apr).

Australian Crime Commission Illicit Drug Data Report 2010-11 released. The report highlighted a record number of illicit drug seizures and arrests across Australia, and a 19% increase (from 2009-10) in the total quantity of drugs seized. Large increases in amount seized were noted for two drugs: (1) cocaine – seizure weight increased by 67.7% in 2010-11 - the third highest in the last decade, and (2) heroin – seizure weight increased by 241% in 2010-11 - the highest recorded since 2001-02 (May).

New research on Australian attitudes to drug law reform released from the Drug Policy Modelling Program: Analysis of the 2010 NDSHS showed over 72.7% and 51.9% Australians supported no or minimal penalties for possession of cannabis and ecstasy respectively (May).

Fairfax media organised a public forum on drug law reform, and devoted two weeks of media coverage and launched a ‘wikicurve’ that asked members of the public to have their say on ‘the drugs dilemma’ (May).

Report from Operation Polaris, a multi-agency investigation into crime on Sydney water-fronts, revealed the existence of extensive corruption and criminality. The report revealed that known organised criminals are targeting and exploiting workers on the waterfront and in the cargo supply chain and that this has resulted in subversion of employees and the importation of drugs and other illicit substances into Australia. It noted that Australia’s border security was exposed to 19 “critical” risks, particularly in relation to the Integrated Cargo System (ICS) which was being used to track the movement of illicit substances to determine whether law enforcement authorities were interested in the cargo. The report also highlighted an entrenched culture to take no action when confronted with “unusual, improper illegal activity” and concluded that this was reinforced by an “insular and nepotistic workforce” and an “anti-law enforcement” attitudes (May).

The Federal Government unveiled responses to Taskforce Polaris. Responses included: (1) Introduce legislation to criminalise the provision of information from the Integrated Cargo System to aid a criminal organisation; (2) Limit access to specific cargo information to those in the private sector who have reported a direct and legitimate interest in the movement and clearance of specific consignments; and (3) Expand the list of offences for which an Maritime Security Identification Card or Aviation Security Identification Card can be refused. The Federal Government also announced that new taskforces would be established to investigate organised crime on the waterfront in Melbourne and Brisbane. Melbourne’s Task Force (Operation Trident) will begin on 1 July 2012 (May 25).

The Federal Government announced that from 1 July 2012 it would return all money from its Confiscated Assets Account (an estimated $58.3 million over four years) to consolidated revenue. Since 2002 proceeds of crime has been a key source of funding crime prevention initiatives, drug treatment provision, illicit drug diversion programs and law enforcement
projects such as DUMA & the development of an Enhanced National Intelligence Picture on Illicit Drugs (May).

The ANCD's Asia-Pacific Drug Issues Committee prepared a summary paper of the influential 2nd Australian Needle and Syringe Program Return on Investment Study in English, Burmese, Khmer, Mandarin, Russian and Vietnamese. Translations into other languages are expected to follow. It is expected that this will assist in the expansion and further development of needle and syringe programs in the region (May).

The Australian Injecting & Illicit Drug Users League (AIUL) issued a new policy statement on 'New recovery', harm reduction and drug use. Arguments included: (1) that false distinctions between 'active users' and 'people in recovery' are unhelpful and may promote continued social exclusion and discrimination against current drug users; (2) that principles for recovery, such as self-empowerment, social inclusion, fulfillment and happiness, are easy to support in principle but are likely to be difficult and costly to attain in practice; and (3) that people on opioid pharmacotherapy maintenance potentially stand to lose the most from any shift towards a 'new recovery' approach – increasing risks of losing the employment, housing and stability accumulated while on long-term pharmacotherapy (Jun).

Australian Institute of Criminology report released: ‘Measuring drug use patterns in Queensland through wastewater analysis’. Report outlined daily estimates of per capita consumption of methamphetamine, MDMA and cocaine produced by chemical analysis of sewerage water from a Qld municipality in Nov 2009 and Nov 2010. This suggested that the per capita consumption of methamphetamine was greater than for MDMA and cocaine, particularly in 2010. The report concluded that wastewater analysis could supplement traditional surveys of drug use, such as the NSDSH, and provide estimates of drug use patterns that are not reliant upon self-report (Jun).

The Australian National Council on Drugs (ANCD) released a report from its 1st Recovery Roundtable that sought to explore the meaning of recovery in the AOD sector. Key findings included: (1) the National Drug Strategy, which was developed after extensive consultation and input from the AOD sector, and which has been agreed to by all governments already, has as an objective to support people to recover from alcohol and drug dependence and assist their reconnect with the community; that recovery does not mean that abstinence must be the goal for all people with alcohol and other drug problems; and That recovery, regardless of definition, should not be the sole basis for a national drug strategy, particularly as it would tragically undermine the gains available from both harm and demand reduction” (Jun).

2011 National Opioid Pharmacotherapy Statistics Annual Data (NOPSAD) collection report released: Indicated that the proportion of clients aged 30 years and over increased from 72% in 2006 to 85% in 2011, with the median age of clients in 2011 being 38 years. Buprenorphine-naloxone was used more by younger clients, but methadone was more used among clients aged over 40 years (Jun).

The Second National Indigenous Drug and Alcohol Conference was held: “Beyond 2012: Leading The Way To Action.” The conference run by the National Indigenous Drug and Alcohol Committee, ANCD brought together over 400 experts and practitioners to discuss and share information specifically on addressing the harmful use of alcohol and other drugs amongst Indigenous Australians. 22 resolutions were made including the need for (1) all national health campaigns to include an Indigenous specific focus; (2) governments to support the development of Indigenous AOD worker skills; and (3) substantial increase in Indigenous diversion programs and investment in through-care programs in correctional and juvenile detention (Jun).

Liberal MP Mal Washer, Greens senator Richard Di Natale and independent Rob Oakeshott called on the Federal Government to ask the Productivity Commission to investigate the current adequacy of Australian drug laws, including “the economic cost of law enforcement around illicit drugs” (Jun).

Minister for Home Affairs Jason Claire announced that the Australian Customs and Border Protection Service had commenced trailing the use of body scanning technology to detect internal drug concealments. The trial commenced at one Australian airport: Melbourne (Jul).

Australia’s first national e-mental health online portal launched: mindhealthconnect as a gateway to information, support and services on mental health (Jul).

The Australian Federal Police (AFP) and Australian Customs and Border Protection Service issue a warning to persons engaging in illegal activity through online marketplaces such as Silk Road. The warning followed the arrest of a Melbourne man who allegedly imported narcotics into Australia via Silk Road. The man was charged with 10 offences relating to the importation, trafficking and possession of narcotics and prohibited weapons (Jul).

New research by Bruno et al. ‘Emerging psychoactive substance (EPS) use among regular ecstasy users in Australia’ estimated the extent of EPS use and found that 28% of the 2012 EDRS sample had used an EPS. They revealed significant differences in the profiles of those who used EPS, with psychedelic EPS users but not stimulant EPS users engaging in higher levels of poly-drug use and reporting more social, health and legal problems (Jul).

Large poly-drug seizure undertaken by the Australian Customs and Border Protection Services and Australian Federal Police: 306 kg of crystal methamphetamine (ice) and 252 kg of heroin. The drugs were hidden in a shipment of terracotta pots and constituted the largest and third-largest seizure of ice and heroin in AFP history. Seven people were also arrested (31 Jul).

The ANCD released a report: “Supply, demand and harm reduction strategies in Australian prisons: An update”. The report, prepared by NDARC, found that Australia’s prisons tend to focus on supply reduction strategies, and there is a need to expand strategies to reduce demand and harm. In addition the report highlighted the need for greater levels of transparency and accountability within the correctional system (Aug).

Regulation 4H of the Customs (Prohibited Imports) Regulations 1956 (the Regulations), prohibiting the importation of ice pipes, republished as Regulation 41 (Aug).

New report released: “Social Inclusion in Australia - How Australia is faring”. Showed that while Australia is doing well in terms of life expectancy, health, employment and education, Australia’s level of income inequality has increased. It has particularly increased relative to the OECD average with Australia now having the ninth highest level of income inequality in the OECD (out of 26). Moreover, approximately 640,000 Australians experience multiple and complex disadvantage (Aug).

The Minister for Mental Health and Ageing Mark Butler announced that up to $549.8M would be made available through the Partners in Recovery (PIR) Flexible Funding rounds, to improve collaboration at a system level to people with multiple complex needs including mental health (Aug).

An alcohol and substance management plan Toolkit and Training Package were completed for the Department of Families, Housing, Community Services and Indigenous Affairs...
The Minister for Mental Health and Ageing, Mark Butler, announced that 8 targeted mental health programs worth $113.2 million will be rolled out beginning January 1st. The programs as a way of reducing the harm of illicit drugs, particularly compared to street-based drug marketplaces (Dec).

New research by Barrett et al. 'Internet content regulation, public drug websites and the growth in hidden Internet service' found that sites such as Silk Road are seen by drug consumers

Home Affairs Minister Jason Clare announced a new Customs Reform Board would be established. Key members include Justice Wood (who oversaw the royal commission into Police Quarantine and Inspection Service, and two suspected drug couriers, with further arrests likely. It is alleged that at least 10kg of pseudoephedrine was imported into Australia, operating out of Sydney Airport. As of Dec 2012 eight people had been arrested, including two Australian Customs and Border Protection Service officers, an officer of the Australian A two year joint investigation by Customs and Border Protection, Australian Commission for Law Enforcement Integrity and the Australian Federal Police unveiled a suspected drug ring hepatitis B and HIV, Sexually Transmitted Infections (STIs) and Safe Sex practices among young people.

Australian Injecting and Illicit Drug Users League (AIVL) launched a new section on its website which aims to raise awareness of Blood Borne Viruses (BBVs), such as hepatitis C, hepatitis B and HIV, Sexually Transmitted Infections (STIs) and Safe Sex practices among young people.

A two year joint investigation by Customs and Border Protection, Australian Commission for Law Enforcement Integrity and the Australian Federal Police unveiled a suspected drug ring operating out of Sydney Airport. As of Dec 2012 eight people had been arrested, including two Australian Customs and Border Protection Service officers, an officer of the Australian Quarantine and Inspection Service, and two suspected drug couriers, with further arrests likely. It is alleged that at least 10kg of pseudoephedrine was imported into Australia, in

The ABC 7:30 Report did a feature on naltrexone implants, titled “Drug addiction treatment divides opinion” (Oct).

The Australian Drug Foundation launched a “get the effects by txt!” drug SMS information service, to which people can text a drug name and receive a health and safety message (Nov).

The Crimes Legislation Amendment (serious drugs, identity crime and other measures) Bill 2012 adopted. Amended the Criminal Code Act 1998 to transfer the lists of illicit substances from the Criminal Code to the regulations and allow for future listing of drugs, plants and precursors as prohibited substances to be done by regulation. It also repealed existing mechanisms for listing additional prohibited substances: providing a single emergency determination mechanism and increasing the length of the determination from 56 days to 12-18 months. The stated goal was to ensure the Commonwealth drug laws were up to date and allowed for flexible, quick responses to new and emerging drug threats (Nov).

Centre for Research Excellence in Mental Health and Substance Use established, headed by Professor Maree Teesson (Nov).

An alleged drug manufacturer has been charged with manslaughter after his friend was killed after a clan lab explosion. It has been argued he should have foreseen the possibility of an explosion. This will be the first such case in Australia (Nov).

Naloxone was listed on the Pharmaceutical Benefits Scheme (PBS) (Nov).

The Crimes Legislation Amendment (Organised Crime and Other Measures) Bill introduced to strengthen the Commonwealth’s unexplained wealth regime (Dec).

Federal Council of the Australian Medical Association (AMA) agreed that all Australian governments should implement and evaluate naloxone distribution pilot programs to reduce the incidence of fatal opioid overdoses (Dec).

Australian Injecting and Illicit Drug Users League (AIVL) launched a new section on its website which aims to raise awareness of Blood Borne Viruses (BBVs), such as hepatitis C, hepatitis B and HIV, Sexually Transmitted Infections (STIs) and Safe Sex practices among young people.

A two year joint investigation by Customs and Border Protection, Australian Commission for Law Enforcement Integrity and the Australian Federal Police unveiled a suspected drug ring operating out of Sydney Airport. As of Dec 2012 eight people had been arrested, including two Australian Customs and Border Protection Service officers, an officer of the Australian Quarantine and Inspection Service, and two suspected drug couriers, with further arrests likely. It is alleged that at least 10kg of pseudoephedrine was imported into Australia, in June 2009 and May 2010 (Dec).

Home Affairs Minister Jason Clare announced a new Customs Reform Board would be established. Key members include Justice Wood (who oversaw the royal commission into Police Corruption in NSW), Ken Moroney (former NSW Police Commissioner) and David Mortimer (former CEO of TNT Limited, former deputy chairman of Ansett and former chairman of Australia Post and Leighton Holdings) (Dec).

New research by Barrett et al. ‘Internet content regulation, public drug websites and the growth in hidden Internet service’ found that sites such as Silk Road are seen by drug consumers as a way of reducing the harm of illicit drugs, particularly compared to street-based drug marketplaces (Dec).

2011

New report released: “Australian secondary school students’ use of tobacco, alcohol, and over-the-counter and illicit substances in 2008.” The report indicated declines in most illicit substances in 2008 relative to 2002 and/or 2005. The main exception was ecstasy (Jan).

The Minister for Mental Health and Ageing, Mark Butler, announced that 8 targeted mental health programs worth $113.2 million will be rolled out beginning January 1st. The programs include targeted mental health training to help community workers better identify and respond to those at risk of suicide, online mental health and counseling services, and current successful programs will be boosted to provide additional services (Jan).
A major reform of the ministerial council system by the Council of Australian Governments (COAG) led to the closure of the Ministerial Council on Drug Strategy (MCDS). The MCDS met for the last time on 25 February 2011 and agreed that the IGCD would take the lead role in coordinating Commonwealth, State and Territory efforts to implement the National Drug Strategy, and that relevant Ministers would meet on occasions when Ministerial-level policy decisions and direction were required (Feb).

Minister for Justice, the Hon Brendan O’Connor MP, sought public comment on whether the model schemes and the quantities of drugs, plants and precursors recommended by the Working Party in 2007, and endorsed by the Ministerial Council on Drug Strategy should be implemented in the Criminal Code, and if so how this ought be achieved (Mar).

WA Liberals Mal Washer and Judi Moylan and Victorian Liberal Russell Broadbent called for a rethink on the way the Federal and State governments dealt with drugs, saying the “zero tolerance” approach was wasting billions of dollars and causing more crime (Mar).

National Drug Strategy 2010-2015 adopted. Strategy maintained the balanced approach between demand reduction, supply reduction and harm reduction, increased acknowledgement of the roles of sectors beyond health and law enforcement, and included for the first time performance measures for assessing progress (Mar).

2010 Australian Crime Commission’s Organised Crime in Australia, the unclassified version of the Organised Crime Threat Assessment (OCTA) released. Identified that organised crime cost the Australian community between $10–15 billion every year and that illicit drug markets are the principle source of profit for organised crime in Australia (Apr).

Multi-agency Criminal Asset Confiscation Taskforce, led by the Australian Federal Police, launched to identify and pursue proceeds of crime where there is a link to a Commonwealth offence. Taskforce uses resources of the Australian Crime Commission (ACC), the Australian Taxation Office (ATO) and the Commonwealth Director of Public Prosecutions to confiscate assets, recover debt etc. All confiscated money and derived funds will be returned to the Commonwealth and placed into a Confiscated Assets Account; with the approval of the Minister for Home Affairs and Justice used to fund drug treatment, drug diversion programs etc (Mar).

Australian National Council on Drugs report ‘Injecting drug use and associated harms among Aboriginal Australians’ conducted by Anex and the National Aboriginal Community Controlled Health Organisation (NACCHO) Inc identified a gap in knowledge on Aboriginal people who inject drugs, fuelled by a lack of accurate and representative data on patterns and prevalence of Aboriginal injecting drug use. They also identified structural impediments to appropriate service provision (Apr).

The Commonwealth Attorney-General's Department listed five additional substances to be subject to the serious drug offences contained in Part 9.1 of the Commonwealth Criminal Code Act 1995 (the Code), via interim regulations [Criminal Code Amendment Regulations 2011 (No 1)]: Benzylpiperazine (BZP); 4 – Methylmethcathinone (4-MMC, mephedrone, ‘Meow-Meow’); Methcathinone; Ketamine; and Phenylpropanolamine. This is the first time the interim regulations have been utilised (Apr).

IGCD noted the emergence of new and existing synthetic analogue drugs (analogues) that mimic the effects of illegal drugs, particularly substances in herbal blends which mimic the effects of cannabis. Noted the reported wide use of these substances, particularly in the mining industry and raised concerns over health and safety, particularly for employees operating machinery and the risk to public health and safety (May).

New Drug Use in Monitoring in Australia (DUMA) report released that assessed police detainee knowledge of newly emerging or less common drug types. Interviews with 824 police detainees revealed that in 2010 only 27% knew of Mephedrone, compared to 41%, 53% and 59% for Ketamine, GHB and Rohypnol respectively (May).

Australian Federal Police made the largest recorded seizure of methamphetamine: 239 kilograms. Most of the methamphetamine was found in a van at an apartment block at Clovelly in Sydney’s east, the alleged site from which the national network was run. Four men were also arrested from Sydney and Perth (May).

The 2011-12 Budget outlined new flexible funding arrangements for all Department of Health and Ageing (DOHA) funded programs. This was in response to the Federal Government’s strategic review of DOHA funding which highlighted high levels of inefficiencies and red tape e.g. that DOHA administered funds to 159 small programs involving 2,200 direct funding recipients (often with multiple funding agreements and different reporting requirements). Accordingly, from 1 July 2011 a total of 159 predominantly grant programs will be consolidated into 18 new or expanded flexible Funds. Two funds relate to substance misuse:

- the Substance Misuse Prevention and Service Improvement Grants Fund (SMPSIGF) – for national activities under the National Drug Strategy, including the national research centres, peak national bodies such as ADCA, IGCD support and health promotion;
- the Substance Misuse Service Delivery Grants fund – for services that treat substance misuse.

The budget statement noted this would save the department an estimated $53.5 million over four years and enable reinvestment in new health policy areas (May).

Parliamentary Joint Committee on Law Enforcement report released: “Inquiry into the adequacy of aviation and maritime security measures to combat serious and organised crime.” Concluded that there was significant evidence of infiltration of the aviation and maritime sectors by serious and organised criminal networks (SOCN) and that this was a natural consequence of the strong incentives that exist for profit-seeking, particularly from drug trafficking. Committee recommended that joint maritime taskforces be established in every state and the Northern Territory (Jun).

Australian Institute of Health and Welfare report released: ‘National Opioid Pharmacotherapy Statistics Annual Data collection: 2010 report.’ Key finding was that there had been an shift towards older clients receiving treatment, with the proportion of clients aged 30 years and over rising between 2006 and 2010 from 72% to 82% (Jun).

First National Drugs Campaign iPhone app developed. App contained facts on drugs and consequences of use and referral numbers for youth and families (Jun).

A report on stigma and discrimination towards the injecting drug user community. Key recommendations included: that the Australian Government identify, review and, as appropriate, repeal federal laws and policies that contribute to the continuing criminalisation and marginalisation of people who inject illicit drugs; that federal parliamentarians receive education about the health and human rights of people who inject drugs and how current approaches to drug control adversely affect the health and wellbeing of people who inject drugs on a daily basis; and that the Australian Communications and Media
The Therapeutic Goods Authority scheduled eight synthetic cannabinoids: JWH-018, JWH-073, JWH-122, JWH-200, JWH-250, CP47,497, AM-694 & cannabicyclohexanol. The synthetic hallucinogens, commonly referred to as ‘Kronic’, ‘Spice’ and ‘Voodoo’ etc, were placed on schedule 9 (prohibited substances), thereby banning from 8 July their use for therapeutic purposes (Jul).

The Australian Standard Classification of Drugs of Concern (ASCDC), second edition, was released by the Australian Bureau of Statistics. The ASCDC is the Australian statistical standard for classifying data relating to drugs which are considered to be of concern in Australian society. The first edition, produced in 2000, was reviewed in consultation with relevant Commonwealth and State government departments, academics and other experts. One key change was the removal of ‘cannabinoids’ from the broad group of ‘stimulants and hallucinogens’ to its own broad group: ‘Cannabinoids and Related Drugs Broad Group’. The new broad group encompasses both synthetic and plant based forms of cannabinoids. Six new narrow groups were also added including: GHB Type Drugs and Analogues; Cathinones; and Piperazines (Jul).

2010 National Drug Strategy Household Survey report released. Key findings were slight increases, relative to 2007, in the proportion of the population aged 14 and over who reported recent illicit drug use (from 13.4% to 14.7%). From 2007 to 2010 the major area of reported increase was cocaine (1.6% to 2.1%) and cannabis (9.1% to 10.3%, albeit remaining lower than during 1995-2004). Reported recent use of ecstasy decreased (from 3.5% to 3.0%) countering upward trend since 1995 (Jul).

New AVIL discussion paper released: “Double jeopardy: Older injecting opioid users in Australia.” Paper estimated that there were as 30,000 regular opioid users in Australia aged 40 years and over, and up to 80,000 infrequent or non-dependent opioid users. Paper also noted that the older cohort were not commonly served well by services and that they appeared to receive and/or experience a greater degree of discrimination (Jul).

National Patient Pathways project commenced funded by the Commonwealth Department of Health and Ageing. Research sought to (1) describe the current alcohol and other drug systems in each state and territory; (2) link data from AOD, ED, and hospitals to examine AOD client experiences with health services and systems; and (3) interview clients that are new to an AOD service, to explore their journey into, through, and following treatment (Jul).

New research released: “Counting the number of deaths among recently released prisoners in Australia.” The study, led by Dr Stuart Kinner of the Burnet Institute, revealed that among adults released from prison in Australia in 2007/08, almost 140 died from drug-related causes within a year of release and that the number of drug-related deaths in recently released prisoners is three times higher than the total number of deaths in prison. The study called for the establishment of a national system for routine monitoring of deaths in ex-prisoners and evidence-based interventions, such as easier access to naloxone, to reduce these deaths (Jul).

The IGCD held its first Annual Stakeholder Forum under the National Drug Strategy 2010 – 2015. Stakeholders from the drug and alcohol sector included service providers, local government, law enforcement, peak bodies and research organisations. Key themes emerging included the importance of ongoing and appropriate stakeholder communication and engagement, strengthening the focus on consumer outcomes and social inclusion, and enhancing data collection to build a stronger evidence base (Aug).

IGCD members participated in a one and a half day planning workshop. A mission statement for the IGCD was agreed to and three goals adopted:1. Develop, implement and monitor the National Drug Strategy; 2. Provide evidence-informed advice to relevant Ministers; 3. Identify and respond to emerging issues. Planning for seven national sub-strategies was undertaken relating to: Tobacco; Alcohol; Pharmaceutical Drug Misuse; Illicit Drugs; Aboriginal and Torres Strait Islander Peoples Drug Strategy; Research and Data; and Workforce Development (Aug).

New National Drug Law Enforcement Research Fund report released: ‘Opioid Substitution treatment in prison and post-release: effects on criminal recidivism and mortality.’ The study of heroin-dependent prisoners in NSW found 84% were back behind bars within two years of release, compared to the average return rate for all prisoners of 45%. However, the numbers dropped by one fifth if they left jail on opioid substitutes such as methadone and continued treatment in the community (Aug).

Australian Customs and Border Protection Service and the Australian Federal Police detected 271kg cocaine in a shipment of lawnmowers from Brazil (the fifth-largest cocaine seizure in Australian history) (Sep).

High Court ruling: MOMCLOVIC v THE QUEEN & ORS [2011] HCA 34. High court, by majority, upheld the right of the Victorian Court of Appeal to rule that s 5 of the Victorian Drugs Act, which stated that an occupier of premises in which drugs was found was deemed to be in possession of those drugs unless he/she ‘satisfies the court to the contrary’, was inconsistent with the Victorian Human Rights Charter. The ruling pertained to the case of an alleged trafficker, Ms Vera Momcilovic, section 5 of the Drugs Act and the Victorian Court of Appeal ruling that by reversing the onus of proof (placing a legal burden on the defendant to prove the absence of possession), section 5 could not be interpreted consistently with the presumption of innocence under s 25(1)” of the Charter. The High Court noted “declarations of Inconsistent Interpretation under the Charter play an important role in calling the attention of parliament and the people to laws that may be inconsistent with human rights”. It further noted that while such declarations do not affect the validity of legislation, they act as a trigger for parliament to consider whether a particular law should be amended to better protect human rights. The High Court also concluded that the jury had been mis-directed about the interpretation of s 5 and quashed the conviction of Momcilovic and ordered a re-trial (Sep).

Largest seizure of pure saffrole in Australian history: approximately 288 litres, enough to make approximately 2.3 million ecstasy tablets. The saffrole was detected by Australian Federal Police and the Australian Customs and Border Protection Service concealed in liquid hair and cleaning products imported from China. Three Sydney men were also arrested (Sep).

Seizure of synthetic drugs, including MDPV and BZP, destined from Vietnam to South Australia. Operation led to the arrest of 5 South Australian men and seizure of 880 grams of methylenedioxypropvalerone (MDPV), 10 kilograms of phenylpiperazine and benzylpiperazine (BZP) and 1kg of 5-ido-aminoindane. Involved AFP, SA Police, the Australian Crime Commission (ACC), Australian Customs and Border Protection Service and Vietnamese Police (Sep).

Australian Injecting & Illicit Drug Users League (AIVL) launched an Online Vein Care Guide. It seeks to reduce the risk of Blood Borne Viruses (BBV) particularly Hepatitis C that comes...
from poor vein care: abscesses, scaring etc. It outlines the risks, addresses popular myths, and contains animations on safer injecting practices (Oct).

Operation Avalon, directed at an international trafficking unit suspected of money laundering and planning a substantial importation of cocaine into Australia, led to arrest of four Spanish nationals, 300 kg in cocaine concealed in a yacht in Bundaberg, Queensland and seizure of $3 million in cash. The operation involved Australian Federal Police, the Australian Customs and Border Protection Service and Queensland Police Service and Vanuatu enforcement authorities (Nov).

New report from the Australian Institute of Criminology’s Drug Use Monitoring in Australia (DUMA) program showed a significant increase in the use of methamphetamine among police detainees: 21% of police detainees in 2011 tested positive to methamphetamine—up from 16% in 2010 and 13% in 2009 (Nov).

Guidelines for DOHA funding in 2012-13 released and applications opened for the first set of Federal Government’s flexible funds (Nov 14).

Australian Customs and Border Protection Service and the Australian Federal Police seized 216 kilograms of illicit drugs and precursors that were hidden in cartons on raisins from Iran: 97.7kg of heroin and 118.4kg of pseudoephedrine (Nov 29).

Regulation 4H of the Customs (Prohibited Imports) Regulations 1956 (the Regulations) came into effect. This prohibited the importation of ice pipes unless permission from the Minister for Home Affairs or his authorised officer has been granted. Under new Regulation 4H, an ice pipe is defined as ‘a device capable of being used for administering methamphetamine, or any other drug mentioned in Schedule 4’ and ‘that is used to draw or inhale smoke or fumes resulting from heating the drug in the device, in a crystal, powder, oil or base form’ (Dec 10).

2010

Updated “Guidelines on the management of co-occurring alcohol and other drug and mental health conditions in alcohol and other drug treatment settings” produced for the Commonwealth Government. The guidelines were accompanied by a training package to facilitate their implementation into the workplace (Jan).

Two Serious and Organised Crimes Acts adopted: Crimes Legislation Amendment (Serious and Organised Crime) Acts (No. 1 and No. 2). Acts strengthened criminal asset confiscation and anti-money laundering regimes, and required individuals suspected of unexplained wealth to demonstrate that it was legally acquired. Acts also strengthened law enforcement powers to investigate organised crime by providing protection for undercover law enforcement officers who infiltrate criminal organizations, implementing model laws for controlled operations, assumed identities and witness identity protection, enhancing search and seizure powers including access to electronic data, and facilitating greater access to telecommunications interception for criminal organisation offences (Feb).

Australian Federal Police’s Australian Illicit Drug Data Centre (AIDDC) opened enabling drug profiling/chemical signature identification for off-shore and on-shore illicit drug seizures. The centre specifically aimed to collate and disseminate information to all state and territory law enforcement agencies and increase knowledge about drug distribution routes within Australia. The centre also aimed to work with health and education professionals in reducing demand for and harm from illicit drugs (Feb).

Joint operation between Australian Federal Police and Cambodian National Authority on Combating Drugs (NACD) resulted in the detection and burning of 15 tonnes of Safrole oil in Cambodia. The AFP estimated that once converted to ecstasy this would have had a street value of $6 million (Feb).

Stage one completed of AIVL National Anti-Discrimination Project. The project sought to identify key issues that would need to be addressed in a National Anti-Discrimination Campaign against injecting drug users (IDU), with stage one examining the level and drivers of stigma in the general population. Interviews revealed strongly entrenched views of IDU as selfish, dishonest, violent, unpredictable and not capable of either getting or holding down a job. Discrimination was indeed deemed necessary by many to reinforce that IDU was unacceptable. A number of suggested reasons were put forward for the stigma including that the general public has very limited direct exposure to IDUs and high exposure to “inaccurate” media and government policy on IDU (Feb).

Regulation 4G of the Customs (Prohibited Imports) Regulations 1956 came into effect, prohibiting the importation of tablet presses without the approval from the Minister for Home Affairs or an authorised person (1 Mar).

Public submissions for “Australia’s National Drug Strategy beyond 2009” concluded with a total of 96 submissions from groups including Royal Australasian College of Physicians, Civil Liberties Australia, Mission Australia, Cancer Council, Women’s Health Victoria, Life Education Australia, Australian Institute of Health and Welfare, Inspire and drug and alcohol research centres (Mar).

6th National HIV Strategy 2010-2013, 3rd National Hepatitis C Virus (HCV) Strategy and 3rd National Aboriginal and Torres Strait Islander Blood Borne Viruses and Sexually Transmissible Infections Strategy released. All identified people who inject drugs and people in custodial settings were priority groups in the next period. They recommended that needle and syringe programs be trialed in Australian prisons (28 Mar).

National Drug Law Enforcement Research Fund report released: “An environmental scan on alcohol and other drug issues facing drug law enforcement in Australia.” Key challenges include the continued switch from naturally produced drugs to synthetic products, the amateurisation of illicit drug manufacture and production, the rapid uptake of new technology e.g. emails and file encryption and jurisdictional differences in precursor chemical controls. The main illicit drug identified for future concern was ecstasy due to supply factors – not being dependent upon access to one chemical – and demand factors - no evidence that demand had peaked & limited negative feedback loops. Pharmaceutical misuse was also singled out as of concern (Mar).

Report released: “Situational Analysis of drug and alcohol issues and responses in the Pacific 2008-09” by the Australian National Council on Drugs followed on from an earlier report and provided a more in depth analysis, including both licit and illicit drug use. Report concluded that challenges for responding to substance use in the Pacific region had changed little in the last decade and that efforts to improve health and law enforcement outcomes were hampered by a lack of resources, commitment and local capacity (Mar).

The National Cannabis Prevention and Information Centre launched an Indigenous community project “Cannabis: It’s not our culture.” The project utilised stories and artwork depicting how cannabis impacts on their communities and potential solutions to cannabis-related issues (Mar).

Australian National Council on Drugs Report released into levels of Indigenous specific funding. The report “Indigenous specific alcohol and other drug interventions: Continuities, changes and areas of greatest need” found that between 1999–2000 and 2006–2007 operational expenditure on Indigenous specific alcohol and other drug projects increased from $42.6 to
$89.4 million (110%), but there were large reductions in service provision and funding by Indigenous community-controlled organisations and a 50% turnover in projects and organisations. Key recommendations included more capacity building, increasing non-recurrent funding and that all levels of government re-commit to the principle of Indigenous community control of service provision (Apr).

Minister for Indigenous Health and Rural and Regional Health, Warren Snowdon announced funding of $13 million to establish a 45 bed residential rehabilitation service near Cooktown that will be accessible to people across the Cape York region. The site was chosen to complement the existing detoxification centre in Cooktown (Apr).

A strategic review of the Department of Health and Ageing portfolio administrative arrangements commenced. The review was commissioned by the Federal Government, and sought to examine the alignment of resources within the portfolio to ensure it was best placed to implement and manage the government’s key health and ageing priorities and programs, including the National Health Reform agenda, as well as position the portfolio to respond to emerging health and ageing challenges over the medium and longer term (Jun).

Task Force Polaris was established to investigate organised crime on the waterfront in Sydney. It comprised 49 criminal investigators & intelligence analysts from the Australian Federal Police, the Australian Customs and Border Protection Service, Australian Crime Commission, NSW Police & NSW Crime Commission (Jun).

Australian Crime Commission Illicit Drug Data Report 2008-09. Report noted that the total number (but not weight) of national drug seizures had increased 70% between 1999-2000 and 2008-09 and that trends in relation to cocaine and Amphetamine-Type Stimulants (ATS) remained a concern. In particular, the report noted the threat posed by ATS remains high due to the record number of related national seizures, arrests and clandestine laboratory detections in 2008-09 (Jun).

Attorney-General, Robert McClelland and Minister for Home Affairs, Brendan O’Connor announced the Government would invest an additional $38.5 million to combat organised crime through the establishment of a Criminal Intelligence Fusion Centre within the Australian Crime Commission and new analytical technologies to assist the Australian Transaction Reports and Analysis Centre (AUSTRAC) (Jun).

The Australian Needle and Syringe Program Survey 2009 indicated a significant decline in the prevalence of HCV antibody: from 61-62% during the period 2005-2008, to 50% in 2009. The decline in HCV antibody prevalence was observed in all states and territories with the exception of South Australia (Jun).

The Inaugural National Indigenous Drug & Alcohol Conference was held in Adelaide. It was hosted and organized by NIDAC and attracted over 550 participants (Jun).

The first national report on prisoner health in Australia released. Key findings include that 70% had used illicit drugs and over half had consumed alcohol at risky levels during the 12 months prior to entering prison. The report was carried out by the Australian Institute of Health and Welfare (AIHW) and used data from a number of sources including the AIHW census of public and private prisons (Jun).

Launch of Criminal Intelligence Fusion Centre. The centre seeks to share data and bring together analysts from Commonwealth agencies including the Australian Federal Police, Department of Immigration and Citizenship, the Australian Transaction Reports and Analysis Centre, the Australian Taxation Office, Centrelink, Customs and Border Protection and State and Territory law enforcement authorities so as to track and analyse money flows, identify high risk cash flows, patterns of crime and the individuals, businesses and corporate structures that may be involved in criminal enterprises including drug trafficking in Australia and overseas (Jul).

Launch of the Australian Crime Commission’s Criminal Intelligence Fusion Centre. The centre seeks to share data and bring together analysts from Commonwealth agencies including the Australian Crime Commission, Australian Federal Police, Department of Immigration and Citizenship, the Australian Transaction Reports and Analysis Centre, the Australian Taxation Office, Centrelink, Customs and Border Protection, the Department of Defence, the Department of Prime Minister and Cabinet, the Attorney-General’s Department, the Australian Securities and Investment Commission and State and Territory law enforcement authorities so as to track and analyse money flows, identify high risk cash flows, patterns of crime and the individuals, businesses and corporate structures that may be involved in criminal enterprises including drug trafficking in Australia and overseas (Jul).

The Australian Federal Police in collaboration with NSW Police and Customs seized 240 kilograms of cocaine, the fifth largest cocaine seizure in Australia. The cocaine, with an estimated street of $84 million was found in a shipment of pavers from Mexico (Jul).

Former AFL player Ben Cousins’ documentary “Such is Life” aired on public television. The documentary, which attracted more than 2 million viewers, provided a controversial insight into his battle with illicit drug use (Aug).

A joint Four Corners/The Age investigation – “Crime Incorporated” – screened on national television. The show interviewed high ranking police experts including Australian Crime Commission (ACC) CEO John Lawler, former operations manager for the ACC, Michael Purchas, former Victorian detective inspector, Jim O’Brien, and Chief Commissioner of Victoria Police, Simon Overland about Australia’s fight against drug trafficking and organized crime. The show revealed how Operation Hoffman, a two year multi-agency investigation led by the ACC, exposed an international drug importation syndicate with links to the Comancheros outlaw bikie gang, Chinese triads, waterfront workers and corrupt Australian officials. Mr O’Brien asserted that Australia is only making a small dint into organised crime, due to the sophistication of international drug importation syndicates, a lack of resources and political will (Aug).

The Australian Greens Party formally adopted Justice Reinvestment as part of its justice policy (Aug).

Minority Labor Government formed with support of Greens HAdam BandtH and independents HAndrew WilkieH, HRob OakeshottH and HTony WindsorH. Julia Gillard sworn in as Prime Minister (Sep).

Research by the Drug Policy Modelling Program found that Australian news media could influence youth attitudes to illicit drug use. The study involved 2,296 young Australians aged 16-24 indicated that news media is more likely to deter young people from using illicit drugs than encourage its use, but news media messages were most likely to affect youth (users & non-users) if they reported on social and health consequences of use (Sep).

The 2010 Ecstasy and related Drug Reporting System (EDRS), a sentinel survey of regular ecstasy and related drug users, reported a decline in use of ecstasy and an increase in use of cocaine and synthetic chemicals such as mephedrone. Reported prevalence of cocaine use was the highest since reporting had begun (23% in 2003 vs 48% in 2010) (Oct).

Australian Customs and Australian Federal Police made the third-largest seizure of cocaine. A total of 464 kilograms of cocaine was detected on a yacht moored in a Brisbane marina.
Cambodia, China, Indonesia, Laos, Malaysia, Myanmar, Thailand, Vietnam

The ANCD’s Asia-Pacific Drug Issues Committee and the UNODC commenced a series of discussions on Compulsory Centres for Drug Users (CCDUs) in the Southeast Asian nations of Cambodia, China, Indonesia, Laos, Malaysia, Myanmar, Thailand, Vietnam and the Philippines. A series of three invitation-only Roundtables and follow-up working groups were employed.

Ketamine moved from Schedule 8 to Schedule 4 of the Poisons Standard (Oct).

Launch of two ANEX position papers: “With conviction: the case for controlled needle and syringe programs in Australian prisons” and “Lifesavers: a position paper on access to Naloxone Hydrochloride for potential opioid overdose witnesses” (Oct).

A joint Australian Federal Police and Australian Customs and Border Protection Service operation made the fifth largest heroin seizure. 168 kilograms, believed to be worth approximately $60 million, were found in a container of wooden doors shipped from Malaysia. Three people were arrested (Nov).

The Australian Federal Police targeted drug importations via the postal system on a national day of action timed to precede Schoolies Week and the holiday season. In total, 38kg of drugs were captured (Nov).

High Court decision: State of South Australia v Totani & Anor [2010] HCA 39. The High Court, by 6-1 majority, held s 14(1) of the Serious and Organised Crime (Control) Act 2008 (SA) to be constitutionally invalid. By requiring courts to place control orders on members of ‘criminal enterprises’ without rights to review whether they had ever engaged in criminal conduct or were likely to do so, executive powers were deemed to impinge upon normal judicial procedures (Nov).

A bill approving an Australian National Preventive Health Agency was passed. The agency will lead Australia’s fight against preventable diseases through campaigns targeting obesity, along with alcohol, tobacco and other substance abuse (Nov).

The HIV, viral hepatitis and sexually transmissible infections in Australia Annual Surveillance Report 2010 by National Centre in HIV Epidemiology and Clinical Research found that HIV prevalence amongst injecting drug users remained low, with 1.2% of those attending needle syringe programs (NSPs) in 2009 testing positive to HIV antibodies. Hepatitis C prevalence remained much higher, but amongst those attending NSPs prevalence decreased between 2008 and 2009 from 62% to 50% (Nov).

Operation Unification, a joint initiative of Crime Stoppers, Police and the ANZPAA Crime Forum, urged the community to 'dob in a drug lab.' The community was told to report if they saw telltale signs including unusual chemical odours coming from a premises, chemical drums, frequent visitors and premises with blacked out windows (Nov).

The Commonwealth Government, led by the Commonwealth Attorney General’s Department, released the first commonwealth Organised Crime Response Plan (OCRP 2010–11). The response plan sets out an approach by which commonwealth agencies including ACC, AFP and AUSTRAC will respond to threats identified in the Australian Crime Commission’s classified Organised Crime Threat Assessment (OCTA), including Amphetamine-Type Stimulants, one of three priority risks (Nov).

Ethan Nadelman completed a national speaking tour, advocating for heroin prescribing, prison NSPs and more ready access to naloxone for use by bystanders in cases of opioid overdoses (Nov-Dec).

The Australian and Pakistan joined forces signing a Memorandum of Understanding: Combating Narcotics Drugs and Developing Narcotics Control Cooperation at the AFP Headquarters. A ‘Letter of Intent’ to establish a Pakistan Transnational Team on Drugs and Crime, was also signed (Dec).

The Federal Government requested that the Minister for Mental Health and Ageing establish an Expert Advisory Group on Mental Health to provide advice to the Federal Government on mental health reforms (Dec).

The Federal Government announced that their latest phase of the National Drugs Campaign will use “In the Mix” website to target festival-goers with an increasing focus on information and education (Dec).

A new report, “Alcohol and other drug treatment services in Australia 2008–09: Report on the National Minimum Data Set” found that treatment episodes for alcohol continued to increase (making up over half of treatment episodes in 2008-09), but treatment for most illicit drugs declined or stabilised. The biggest decline was in heroin, with 1,349 less treatment episodes in 2008-09, and a 8,420 decline between 2002-03 and 2008-09 (Dec).

14 new substances added to Schedule 4 of the Customs (Prohibited Imports) Regulations 1956: Acetylcodone; Acetylmorphine; Alkoxymethamphetamine; Alkoxyphenylethylamine; Alkoxyamphetamine; Aminetamine; 5-(2-aminopropyl)-2,3-dihydro-1H-indene; Benzylpiperazine (BZP); 1-(8-Bromobenzo[1,2-b:4,5-b]difuran-4-yl)-2-aminopropane (Bromo- Dragonfly); Codeine-N-oxide; Dimethylamphetamine; Oripavine; 4-methylmethacathione (4-MMC); and Trifluoromethylphenylpiperazine (TFMPP). Their inclusion increased alignment with existing legislation (e.g. the Poisons Standard or the Criminal Code Act 1995) and addressed an increased market demand for alternative synthetic drugs and drugs marketed as party pills (14 Dec).

Ketamine moved from Schedule 8 to Schedule 4 of the Customs (Prohibited Imports) Regulations 1956 (14 Dec).

The Commonwealth Attorney General’s Department, in close collaboration with state and territory jurisdictions, released a National Organised Crime Response Plan 2010–13. This complements the Commonwealth Organised Crime Response Plan and aims to strengthen multi-jurisdictional collaboration. Under the plan the Commonwealth, state and territory governments have agreed to improve consistency of legislation to fight organised crime; remove impediments to effective sharing of information and intelligence; and target the priority organised crime risks identified in the Organised Crime Threat Assessment (Dec).

The 2010 Australasian Chemical Diversion Congress was held in Perth. Hosted by Western Australia Police, the Congress drew together precursor chemical diversion experts from national and international law enforcement agencies, forensic and health services, industry and the legal profession (Dec).

First national framework for NSPs released: National Needle and Syringe Programs Strategic Framework 2010-2014. Framework was designed to strengthen the links between services and across states and territories. Seven priorities were identified including: national minimum standards; nationally accredited core training for staff; improved data collection and reporting; and increased availability of injecting equipment (Dec).

The ANCD’s Asia-Pacific Drug Issues Committee and the UNODC commenced a series of discussions on Compulsory Centres for Drug Users (CCDUs) in the Southeast Asian nations of Cambodia, China, Indonesia, Laos, Malaysia, Myanmar, Thailand, Vietnam and the Philippines. A series of three invitation-only Roundtables and follow-up working groups were employed.
2009

National Amphetamine Type Stimulant Training Program, funded by the Australian Government Department of Health and Ageing, commenced. The training is provided by ANEX in the aim of increasing the capacity of service providers to meet the needs of people who use ATS, providing earlier intervention and increasing referrals to support services (Mar).

New Ministerial Advisory Committee formed on Blood Borne Viruses and Sexually Transmitted Infections (Mar).

“Meth website” launched in the aim of helping methamphetamine users self-manage some of the most common meth-related issues. Run by Turning Point Alcohol and Drug Centre the site provides a self-assessment tool, and research-based, practical advice on self-management for methamphetamine users and options for specialist treatment (Mar).

Report by the Australian Institute of Criminology released on “Women, drug use and crime: Findings from the Drug Use Monitoring in Australia program.” Report found female police detainees had higher rates of illicit drug use (except for cannabis and ecstasy), were more likely to have injected drugs and had higher rates of dependency. They were also more likely to attribute their crime to illicit drug use, with use tending to precede criminal activity (Apr).

Release of report on 2007 Australian Survey of Social Attitudes (AuSSA) on crime and justice showed 10% Australians viewed drugs as the first or second most important issue facing Australia. Public fear on drug trafficking remained higher in rural/remote areas than in capital cities and public support for the removal of criminal penalties for cannabis use continued to decline (May).

New report funded by the Australian National Council on Drugs “Non-government organisations in the alcohol and other drugs sector: issues and options for sustainability” identified NGOs were over-burdened with red tape and had to spend over 474 hours per year reporting to funding bodies. Additional problems included limited workforce capacity, insufficient funds and reduced independence of the NGO sector due in part to increased use of government tied grants (May).

Australasian Crime Commission Illicit Drug Data Report 2007-08 reported that the Australian heroin market was stable but that trends in relation to cocaine indicated “a possible expansion of the domestic cocaine market.” Primary indicators were that the number and weight of border cocaine seizures increased from 2006-07 to 2007-08 and the number of domestic cocaine seizures was the highest on record (Jun).

The Parliamentary Joint Committee on the Australian Crime Commission (PIC-ACC) initiated an inquiry into the adequacy of aviation and maritime security measures to combat serious and organised crime, including the methods used by criminal groups to infiltrate Australia’s airports and ports, and the extent of infiltration (Sep 14).

Second Needle Syringe Program (NSP) return on investment study in Australia released. The research conducted by the National Centre in HIV Epidemiology and Clinical Research estimated that NSP investment over the period 2000-09 resulted in an estimated 32,050 HIV infections and 96,667 HCV infections averted as well as substantial healthcare cost savings to government, and gains in disability-adjusted life years. It concluded that even over the short term, every $1 invested in NSPs returned $4 in healthcare cost-savings (Oct).

Commonwealth government announced provision of $9 million (over 3 years) to enable extra support for parents who have drug or alcohol problems. The funding was intended to assist in the provision of in-home parenting help and aftercare support for parents who have left rehabilitation services (Oct).

Fifth evaluation of the National Drug Strategy released by Siggins Miller. The evaluators noted that the NDS had continued to serve Australia well by driving partnerships and an emphasis upon pragmatic and evidence-informed policy. Yet they identified a number of areas of concern including: a lack of stakeholder support for the term harm minimisation, a lack of knowledge over what constitutes the optimal allocation of resources, either between licit and illicit drugs or between the strategy goals (supply reduction, demand reduction and harm reduction), gaps in the monitoring of drug trends and evaluation of program implementation and poor community engagement in policy development. These problems were deemed to have reduced the capacity of the national drug strategy to drive policy commitment, to allocate resources efficiently and ensure evidence-informed and publicly supported policy decisions. They put forward 15 recommendations including that the NDS goal "harm minimisation" be replaced by a new term "that encompasses both the causes of problematic drug use and responding to drug related harms," that the "imbalance of investment" among drug types and intervention sectors be rectified and that broader stakeholder engagement be encouraged in all stages of the policy process (Nov).

The Ministerial Council on Drug Strategy issued a document for public consultation: “Australia’s National Drug Strategy beyond 2009: Consultation” which provided 2 months for public feedback. The document asked for advice on a number of specific questions such as how to better engage other sectors in the advisory structures, how to complement the social inclusion agenda and how to build the capacity of the drug and alcohol sector? It also asked for advice on what constituted the top priorities for Australian drug policy for the ensuing 5 years and how emerging issues such as performance and image enhancing drugs may affect Australian drug trends (Nov).

The Ministerial Council on Drug Strategy endorsed the National Drug and Alcohol Clinical Care and Prevention (DA-CCP) Modelling Project. This project sought: (1) to develop the first...
national population-based planning model for drug and alcohol service planning; (2) to estimate the need and demand for drug and alcohol services across Australia; and (3) to calculate the resources needed (Nov).

2009 Mission Australia youth survey identified that drugs were the number one issue of concern for the survey of 46,000 11-24 year olds. 11-14 year olds were particularly concerned about illicit drugs, leading Mission Australia to conclude they were in need of less fear campaigns and more information on drug issues (Nov).

Commonwealth Organised Crime Strategic Framework released by the Attorney-General, the Hon Robert McClelland MP, and the Minister for Home Affairs, the Hon Brendan O’Connor MP. The Framework sought to ensure Commonwealth agencies worked together to prevent, disrupt, investigate and prosecute organised crime. Key elements included: a classified Organised Crime Threat Assessment (OCTA) that will be produced by the Australian Crime Commission and identify biannually the most significant threats and harms for Australia; and an Organised Crime Response Plan (OCRP) that will align Commonwealth efforts to respond (25 Nov).

Health Minister announced $4 million in funding for illicit drugs. Key measures included $750,000 to support national web-based counseling, $360,000 for peak bodies including the Alcohol and Drugs Council of Australia and Australian Therapeutic Communities Association, $948,000 for data collection and $1.1 million for drug law enforcement research (Dec).

A confidential Australian Federal Police report argued that Australia has become the world’s most profitable market for cocaine cartels due to unprecedented demand and prices. Between 2003 and 2006/7, cocaine accounted for about 5 per cent of drugs seized in Australia. By 2007/08 this had risen to 10 per cent. In 2008/09 it was 25 per cent. The report argued that the market was likely to remain highly lucrative in Australia due to a “generational shift” to cocaine (Dec).

Amendments to the Customs (Prohibited Imports) Regulations 1956 were passed. This prohibited the importation of tablet presses without the permission of the Minister for Home Affairs or an authorised person (Dec).

Following on the advice received from the Australian Medical Council, the Minister for Health and Ageing, The Hon Nicola Roxon MP, announced that she had decided to recognise addiction medicine as a medical specialty for the purpose of inclusion in the AMC List of Australian Recognised Medical Specialties (Dec).

“Drug use: in the Australian workforce,” a report by the National Centre for Education and Training on Addiction, found that based on re-analysis of the 2004 National Drug Strategy Household Survey 10.4% of those in the paid workforce had used an illicit drug in the last month and 46.8% had ever used an illicit drug. Only 1% of the workforce reported drug-related absenteeism and 2.5% reported attending work while under the influence of drugs, but rates were higher amongst young male workers and for some professions, especially the retail and hospitality sector (Dec).

Between 2003 and 2006/7, cocaine accounted for about 5 per cent of drugs seized in Australia. By 2007/08 this had risen to 10 per cent. In 2008/09 it was 25 per cent. The report argued that the market was likely to remain highly lucrative in Australia due to a “generational shift” to cocaine (Dec).

Amendments to the Customs (Prohibited Imports) Regulations 1956 were passed. This prohibited the importation of tablet presses without the permission of the Minister for Home Affairs or an authorised person (Dec).

Following on the advice received from the Australian Medical Council, the Minister for Health and Ageing, The Hon Nicola Roxon MP, announced that she had decided to recognise addiction medicine as a medical specialty for the purpose of inclusion in the AMC List of Australian Recognised Medical Specialties (Dec).

“Drug use: in the Australian workforce,” a report by the National Centre for Education and Training on Addiction, found that based on re-analysis of the 2004 National Drug Strategy Household Survey 10.4% of those in the paid workforce had used an illicit drug in the last month and 46.8% had ever used an illicit drug. Only 1% of the workforce reported drug-related absenteeism and 2.5% reported attending work while under the influence of drugs, but rates were higher amongst young male workers and for some professions, especially the retail and hospitality sector (Dec).

2008

Report on “Supporting the families of young people with problematic drug use: investigating support options” by the Australian National Council on Drugs addressed the support needs of families who have, as a family member, a young person who is misusing substances (Feb).

Report on “Drug Testing in Schools – evidence, impacts and alternatives” by the Australian National Council on Drugs recommended against drug testing in schools. The report by the National Centre for Education and Training on Addiction raised concerns about the accuracy of available testing technology, the potential of testing regimes to undermine child-school and parent-child relations and the significant cost (an annual cost of at least $302 million for urine tests or $355 million for saliva tests) (Mar).

Media reports that heroin shortage had ended, with increased availability, increased purity and decreased price of white heroin in the Sydney area. Also evident was a rise in heroin overdoses (Mar).

Media reports that Afghan brown heroin was emerging in Sydney. Ingrid Van Beek, director of the Medically Supervised Injecting Centre, reported use of brown heroin had increased over the last 9 months and that 30% of injectors at the centre were currently using brown heroin (Mar).

On the eve of the Bucharest NATO-plus summit, Prime Minister Kevin Rudd strongly advocated for opium eradication programs in Afghanistan. Media reports highlighted arguments against such interventions (Apr).

Collins and Lapsley released a new report on “The cost of tobacco, alcohol and illicit drug abuse to Australian society in 2004-05.” This reported that the net social costs to Australian society had increased from $34 billion in 1998-99 to $55 billion in 2004-05. Of this, the costs associated with alcohol had increased from 22% to 27%, while costs associated with illicit drugs had decreased from 17% to 14% (Apr).

Media attention resumed on Naltrexone implants in light of editorials and new research findings on the harms associated with their use e.g. severe withdrawal, vomiting, diarrhoea, episodes of delirium, infections and kidney impairment (Apr).

Netherlands-based Synthetic Drug Unit reported that Australia had become a major destination for supplying Dutch MDMA, aided by the Italian Mafia. Led to the permanent appointment of a Dutch police officer in the Australian Federal Police (Apr).

2020 Summit held in Canberra. Summit brought together experts from around Australia to develop new ideas/policy directions for Australia by year 2020 (Apr).

At an Extraordinary General meeting, ADCA adopted a new constitution that radically altered its governance arrangements, one aspect of which was that the State and Territory NGO peaks were given a direct role in the organisation (Apr).

Evaluation of the third phase of the National Drugs Campaign released. The results showed that 78% of 13-24 year olds felt the campaign had influenced them to some extent e.g. thinking about the consequences of using drugs (32%) or avoiding the use of drugs (20%) and significant increases in the number of young people who discussed illegal drugs with their parents and significant reductions in perceptions that drugs were fun and increased perceptions that the use of drugs could lead to mental health problems (Apr).

Research by the National Centre for Education and Training on Addiction into use of methamphetamine by Australians in paid employment found 4% of workforce and 11% of those aged 18-29 had used methamphetamine. Authors found use was contributing to growing levels of workplace absenteeism and/or lost productivity with 13% employed methyl users reporting they had failed to attend work because of illicit drug use and 33% reporting going to work while under the influence (May).

National rollout of Clandestine Laboratory Database a secure national repository for information derived from clandestine laboratory seizures. The database includes information on lab locations, persons engaged in the illicit manufacture, safety, types of laboratory reactions being used, methodology, exhibit details, on-site reports and photographs. The rollout was funded by the National Precursor Strategy (May).

Report on "Responding to substance abuse and offending in Indigenous communities: review of diversion programs" found that eligibility criteria were a major barrier to Indigenous involvement in drug diversion programs. Two principle reasons were the exclusion of offenders with prior criminal histories and/or violent offences and requirement for illicit drug problems. Report recommended expanding eligibility criteria e.g. enabling diversion for alcohol and inhalant misuse (Jun).

Australian Crime Commission Illicit Drug Data Report 2006-07 reported a significant increase in cocaine seizures and arrests, including a 635% increase in the quantity of border seizures, a 1278% increase in the quantity of domestic seizures and a 76% increase in cocaine arrests (Jun).

New book "Drug Use and Mental Health: Effective Responses to Co-Occurring Drug and Mental Health Problems" edited by Professor Steve Allsop showed that people with serious co-occurring drug and mental health problems tended to access health services more frequently than individuals affected by either problem in isolation, but that they were more impaired, experienced more disability and had poorer treatment outcomes. This was attributed partly to a lack of service integration for people with co-occurring drug and mental health problems (Sep).

AFP Police Commissioner Mick Keelty conceded that in spite of the massive MDMA busts, local demand would keep the trade thriving. He therefore argued that we needed to treat demand as much as we deal with supply (Aug).

The Australian Industrial Relations Commissions made a landmark ruling on "Implementation of random drug testing: use of oral fluids or urine as specimen for testing." The AIRC was asked to rule on whether it was just to use urine testing instead of oral testing, given the former's wide window of detection and increased potential to detect actions undertaken by employees that may have no consequential impact on employees' actions at work. The AIRC concluded that given no Australian laboratory has been accredited for urine testing “…the implementation of a urine based random drug testing regime … would be unjust and unreasonable ….” But once accreditation is obtained urine testing could be introduced instead of oral testing (Aug).

The AFL (Australian Football League) announced 98.9% of players tested in 2007 were drug free. But it also widened its illicit drug testing regime by introducing hair testing to test players in the off season and testing for a wider range of illicit substances. The new regime enters into force in Jan 2009 (Aug).

The High Court made a landmark ruling when all six judges ruled that the NSW Crime Commission acted improperly when it allowed 6kg of cocaine to be sold on the streets in an undercover drugs operation. The High Court said that such conduct risked endangering the lives of drug users and hence was irreconcilable with state and federal prohibitions on supply (Sep).

New book "Drug Use and Mental Health: Effective Responses to Co-Occurring Drug and Mental Health Problems" edited by Professor Steve Allsop showed that people with serious co-occurring drug and mental health problems tended to access health services more frequently than individuals affected by either problem in isolation, but that they were more impaired, experienced more disability and had poorer treatment outcomes. This was attributed partly to a lack of service integration for people with co-occurring drug and mental health problems (Sep).

2007 DUMA report released. Report found that in 2007 66% police detainees tested positive for any illicit drug (cannabis, cocaine, heroin, meth or benzodiazepines), a rate that was stable since 2006. Detected use of cannabis and methamphetamine had decreased as had levels of dependency on illicit drugs (Sep).

The Australian Crime Commission estimated that $4-$12 billion in illicit drug money was being sent offshore annually. The unpublished estimates suggested that authorities were significantly underestimating the quantity of drugs that were undetected at Australia's borders (Sep).

Report released by the Australian Institute for Family Studies into "Improving outcomes for children living in families with parental substance misuse: What do we know and what should we do." Report concluded that children raised in parents misusing substances do not fare well due to issues such as impaired responsiveness and ability to prepare meals. However it also noted these are often related to a broader range of factors, not just substance use/misuse. The report noted that childhood outcomes can be improved by treatment interventions, but that holistic responses are more effective than use of solely behavioural based responses (Sep).

Report on "Police drug diversion: a study of criminal offending outcomes" released by the Australian Institute of Criminology. The report demonstrated that that majority of offenders did not reoffend following diversion. Moreover in spite of marked differences in offending between jurisdictions the proportionate decrease in offending after diversion was relatively consistent across all jurisdictions, with 69-86% offenders without records and 31-54% offenders with records not reoffending within 18 months (Oct).

TGA ordered that Naltrexone implant pioneer George O'Neil cease production of Naltrexone implants because despite eight years of use he had failed to meet the regulatory standards (Oct).

AFP Police Commissioner Mick Keelty remarked on the high level of drug seizures in recent years and the need to stop measuring drug law enforcement success in terms of the size of seizures. He also advocated the need to devise better policy approaches that combine supply reduction with demand and harm reduction (Oct).

The ANC launched a new website to support homelessness services help clients with drug and alcohol problems and called for a much bigger investment and focus on the levels of drug and alcohol issues amongst homeless populations and the identification of optimum service responses (Oct).

Report on National Prison Entrants’ Bloodborne Virus and Risk Behaviour Survey 2007 released. Report showed 55% of prisoners had histories of injecting drug use (IDU). Prisoners who were IDU had much higher rates of HCV and Hepatitis B with e.g. 58% male IDU and 78% female IDU were HCV positive compared to 9% and 2% for non-IDU. IDUs also had much higher rates of prior prison experience (83% compared to 48%), particularly repeat prior experiences (Oct).

Caitlin Hughes, Drug Policy Modelling Program – Last updated 15 December 2016. For comments email: caitlin.hughes@unsw.edu.au
2007

Mission Australia survey of young people aged 11-24 showed between 2007 and 2008 concern for drugs had risen from 20.1% to 26.0% making drugs one of the top three issues of concern to young people. And in four jurisdictions drugs had become the primary issue of concern: ACT, NT, SA and Vic (Nov).
The AFL (Australian Football League) Commission lifted its 12 month ban on former West Coast Eagles player Ben Cousins following his suspension for “bringing the game into disrepute” over a number of methamphetamine related incidents. The AFL Commission said he could play football again provided he met strict drug testing rules including submitting to up to three urine tests per week and up to four hair tests per year. A positive drug test could lead to his immediate suspension (Nov).

National Strategy to Prevent the Diversion of Precursor Chemicals into Illicit Drug Manufacture (National Precursor Strategy) received recurrent funding of $1.068m.

Report from the National Institute of Forensic Science identified a gap in the national intelligence picture on illicit drugs. Drugs seized at the borders were being analysed, but there was very limited information on those seized on the streets.

Victoria Police, in partnership with the Federal Attorney General’s Department, produced a DVD to educate law enforcement and the judiciary across Australia about the dangers and associated risks in the manufacture of ATS and clandestine laboratories.

2007 - "Where’s your head at"? & “Talking with your kids about drugs.”

Report from the Inquiry into the manufacture, importation and use of amphetamines and other synthetic drugs in Australia. Recommended standardisation of analysis and data collection, continuation of Project STOP, national constancy in legislative approaches and greater attention to harm reduction and prevention strategies (Feb).

From "GO to WHOA" a new training package on psycho-stimulants was commissioned by the Commonwealth Department of Health and Ageing to increase skills and educate health professionals e.g. GPS and nurses on dealing with psycho-stimulants. The training package devised by Turning Point Drug and Alcohol Centre included face to face sessions and an online portal on psycho-stimulants, pharmacological effects, risks associated with use and ways of responding to psycho-stimulant use (Feb).

Launch of the Australian National Alcohol and Other Drugs Charter by the Australian National Council on Drugs. The Charter was developed for the drug and alcohol sector and outlines guiding principles, expectations and goals with regard to drugs as well as rights and responsibilities with regard to drug use and the development and implementation of policies and programs, at all community levels and for different settings and sectors (Feb).

National Amphetamine Type Stimulants (ATS) Strategy Consultation Paper released (Mar).

Ben Cousins, Australian Football League Brownlow medallist and former captain of the West Coast Eagles, was suspended from the club for personal reasons involving drug use. He was subsequently admitted for rehabilitation in Los Angeles, United States and was ordered by the AFL Head to "get his life in order" (Mar).

The AFL (Australian Football League) widened its illicit drug testing regime in response to the controversy involving West Coast Eagles players. The new scheme included illicit drug testing on weekends and a three strikes policy involving a maximum of a 12 match suspension for a third offence (Mar).

National roll out of Project STOP – tracking sales of pseudoephedrine (Apr).

Federal Government committed $150 million in new funding for drug and alcohol issues (for 2007-08 to 2010-11) as part of the 2007-2008 budget. This included $79.5 million to enable a third round of funding through the Non-Government Organisation Treatment Grants Program (NGOTGP), $22.9 million for Amphetamine-Type Stimulants Grants Program, $9.2 million to add to the national drugs campaign & $37.9 to improve law enforcement response to amphetamines production/supply (May).

National Cannabis Prevention and Information Centre (NCPIC) set up to educate and train health professionals with the aim of increasing early intervention and reducing cannabis use (Jun).

Ninth national household survey on drugs conducted: "National Drug Strategy Household Survey, 2007." Results indicated that between 2004 and 2007 there was a significant reduction in the use of illicit drugs over the last 12 months (from 15% to 13%), particularly recent use of cannabis. There were significant reductions in lifetime use of tobacco and alcohol but increases in lifetime use of some illicit drugs e.g. heroin, cocaine and ecstasy (Jul-Nov).

CounsellingOnline service rolled out as a national program, endorsed by the Commonwealth Department of Health and Ageing. The service was operated by Turning Point Alcohol and Drug Centre and provided free drug and alcohol counseling for drug users, family or friends, 24 hours a day, 7 days a week, through an online service (Jul).

Andrew Johns, former captain of the National Rugby League Rugby, revealed live on the Channel Nine "Footy Show" that he had regularly taken ecstasy throughout his playing career. Johns claimed the drugs helped him in dealing with the high level of pressure associated with his career as an elite sportsman (Aug).

The House of Representatives Standing Committee on Family and Human Services chaired by the Hon Bronwyn Bishop released its report into the impact of illicit drug use on families. The report titled "the wannabe war on drugs" recommended that the Australian Government replace the current NDS focus on harm minimisation with harm prevention and treatment with the ultimate aim of achieving permanent drug-free status. Other recommendations included that funding be preferentially provided to abstinence-based programs, that takeaway methadone be disallowed for parents, and that welfare payments be linked with child protection concerns (Sep).

Evaluation on methadone maintenance by the National Centre for HIV and Social Research “Methadone maintenance treatment in New South Wales and Victoria: Takeaways, diversion and other key issues” concluded that takeaways were vitally important to all clients, facilitating family responsibilities, ease of finding work, self-esteem and ability to cease illicit drug use. They found that diversion of methadone was often a result of unmet treatment demand and the economic disadvantage of clients. Report concluded that easy fixes such as diluting methadone or limiting doses may have unintended negative consequences and may reduce retention (Sep).

Chris Mainwaring, former Australian Football League star from the West Coast Eagles, died from a cocktail of drugs including cocaine, ecstasy, cannabis, Roaccutane, anti-depressants and alcohol. One week latter fellow West Coast Eagles star, Ben Cousins was sacked by his club, following his arrest for a drug charge (the charge was subsequently dropped) (Oct).

Coalition Government released “Tough on Drugs” election policy involving compulsory welfare quarantining for people who have been convicted of criminal drug offences involving hard
2006

Restrictions introduced on sale of medications containing pseudoephedrine requiring that all medication be stored away from the public and sold by pharmacists (Jan).

The Substance Abuse Intelligence Desk was established between the Commonwealth, Northern Territory, South Australian and Western Australian governments in a joint operation designed to reduce cross-border supply of licit and illicit substances (Jan).

COAG Mental Health Package announced (Feb).

Dr John Herron appointed as Chair of the Australian National Council on Drugs (ANCD) (Feb).

Four Corners Report: “The Ice Age” heralded the beginning of media attention into methamphetamine (Mar).

National Clinical Guidelines for the Management of Drug Use During Pregnancy, Birth and the Early Development Years of the Newborn released (Mar).

Restrictions increased on sale of medications containing pseudoephedrine: Products with higher concentrations of pseudoephedrine required a doctor’s prescription (Apr).

Buprenorphine-naloxone (Suboxone®) made available on the Pharmaceutical Benefits Scheme (Apr).

Report released: “Evidence based answers to cannabis questions: a review of the literature” and accompanying booklet “Cannabis: answers to your questions” by the Australian National Council on Drugs provided a review of the evidence and answered key questions in relation to cannabis (May).

MCDS endorsed development of a National Amphetamine Type Stimulants (ATS) Strategy. Consultation paper for strategy to be developed by the National Drug Research Institute and the Australian Institute of Criminology (May).

Department of Health and Ageing released updated report “Drug testing kits: Detailed discussion paper on social, health and legal issues.” Report concluded it was unable to find evidence on the social or health consequences of providing ecstasy testing kits and whether it would increase or reduce harmful using behaviour (May).

Federal Government provided $214.1 million in new funding for drug and alcohol issues as part of the 2006-2007 Budget. Included $136.1 to increase community awareness and train drug and alcohol workers of co-morbid mental health-drug issues (May).

The Council Of Australian Governments agreed to a long-term generational commitment to overcome Indigenous disadvantage and to adopt and fund a collaborative approach to the reduction of violence and child abuse in Indigenous communities. $130 million was allocated over four years including $49.3 million to expand drug and alcohol rehabilitation and treatment services and hence reduce one of the major factors contributing to the violence and child abuse (Jul).

The Council on Australian Governments adopted a National Action Plan on Mental Health (2006-2011) and committed $1.9 billion over five years to reduce the prevalence and severity of mental illness in Australia and the prevalence of risk factors such as illicit drug use that contribute to the onset of mental illness. Key initiatives included alerting the public to the links between mental health and drug issues and integrating mental health and drug and alcohol services (Jul).

Launch of Headspace, a national program designed to provide information, support and services to young people and their families across Australia for mental health and related substance use problems (Jul).

Launch of the report “Situational analysis of illicit drug issues and responses in the Asia Pacific region” by the Australian National Council on Drugs summarised for 14 nations including China, Hong Kong, Laos, Thailand and Timor-Leste the national prevalence of illicit drug use, country responses to illicit drug issues, and Australian and international involvement in relation to illicit drugs (Sep).

National Leadership Forum on Ice held in Sydney (Dec).

The Drug Use Monitoring in Australia (DUMA) program expanded to include Footscray in Victoria and Darwin and Alice Springs in the Northern Territory.

2005

Report released: “Mapping national drug treatment capacity” by the Australian National Council on Drugs included a broad overview of approaches to service planning and resource allocation (Feb).

Trial of retractable needles and syringes cancelled after evaluation showed they could increase public health risks (May).

Federal Government provided $21.8 million in new funding for drug and alcohol issues as part of the 2005-2006 Budget. Included $0.85 million for the National Illicit Drugs Campaign, $8.0 million for Capacity Building in Indigenous Communities & $12.0 million for the Non-Government Organisation Treatment Grants Program (May).

MCDS agreed not to endorse the development or use of drug testing kits for personal use at the point of consumption (May).

Ketamine was rescheduled on the National Drugs and Poisons Schedule from a Schedule 4 to Schedule 8 drug (May).

Buprenorphine-naloxone (Suboxone®) registered by the Therapeutic Goods Administration (Jul).
2003

Establishment of the Asia Pacific Drug Issues Committee by the Australian National Council on Drugs to focus on drug issues in the Asia Pacific region (Mar).

Federal Government provided $316 million in new funding (over four years) for the National Illicit Drug Strategy as part of the 2003-04 Budget. It included $215 million for IDDI, $86 million to continue existing efforts e.g. $36 million for Needle Syringe Programs and $28 million for a range of new priorities e.g. $12 million to develop new supply reduction initiatives and funding for a new initiative. These included $2 million for the National Psychostimulants Initiative to identify good practice models for treatment and provide training and support for GPs and health workers, $4.4 million for the National Comorbidity Initiative to improve coordination and responses to individuals who had both mental health and drug use issues, and $4 million for a National Rural and Regional Initiative to improve access to treatment for rural illicit drug users and $5.4 million for a National Strategy to Prevent the Diversion of Precursor Chemicals into Illicit Drug Manufacture (2003-04 to 2007-08) (May).

Reports from MSIC that use of and harms associated with temazepam gel capsules had increased in previous 12 months despite the rescheduling of temazepam capsules. Led to

2004

Soft gelatin Temazepam capsules removed from the Australian market following evidence of harms from injecting Temazepam (Feb and Mar).

Prime Minister John Howard announced funding of almost $18 million to 63 organisations as part of stage 2 funding through the Non-Government Organisation Treatment Grants Program (NGOTGP) (funding from 2003-2006) (Apr).

Report called for barriers to treatment to be removed: “Barriers and Incentives to treatment for illicit drug users.” Report concluded that lack of access to treatment, long waiting lists and lack of support by health professionals. Report recommended improving national coverage of treatment services, monitoring the gap between demand and supply, and diversifying responses to meet different needs and comorbidity issues (Apr).

Report released: “Indigenous drug and alcohol projects: elements of best practice” by the Australian National Council on Drugs identified projects which could serve as examples to other organisations providing alcohol and other drug intervention services (May).

Report on Australia’s correctional response to drug use released: “Supply, demand and harm reduction strategies in Australian prisons: implementation, cost and evaluation” by the Australian National Council on Drugs. Report concluded that supply reduction strategies e.g. drug detection dogs were widely used but were very costly and had not been evaluated. In contrast demand and harm reduction strategies e.g., detoxification and condom provision were less expensive and had proven positive impacts, but were less likely to be implemented in Australian prisons. Report recommended expanding use of demand and harm reduction strategies (Jul).

Report on clinical trials of pharmacotherapies for opioid dependence released: “National Evaluation of Pharmacotherapies for Opioid Dependence (NEPOD).” Comparisons of treatment categories of methadone maintenance, buprenorphine maintenance, LAAM maintenance, naltrexone treatment, rapid opioid detoxification with anaesthesia or sedation, outpatient detoxification using buprenorphine, conventional inpatient detoxification and conventional outpatient detoxification led to the conclusion that all heroin users experienced reductions in criminal activity and heroin use after entering treatment but that the agonist maintenance treatments of LAAM, methadone and buprenorphine retained significantly more heroin users than naltrexone treatment. Overall LAAM was the most cost-effective treatment, but Methadone maintenance was the most cost-effective treatment available in Australia (Oct).

MCDS endorsed development of a National Cannabis Strategy (Nov).

Eighth national household survey on drugs conducted: “National Drug Strategy Household Survey, 2004.” Results indicated that between 2001 and 2004 there had been a decline in the proportion of the population, from 16.9% to 15.3%, who had used an illicit drug in the past 12 months.

Australian National Council on Drugs and Alcohol (NIDAC) established as the principal advisory group to the Commonwealth government on Indigenous drug and alcohol issues (Dec).

ANEX – Association for the Prevention and Harm Reduction Programs Australia was endorsed by the Australian Needle Syringe Program sector as the national voice and advocate for Needle Syringe Programs and harm reduction.

Abolition of the National Drug Strategy National Expert Advisory Committees.

New national guidelines produced by the Commonwealth Department of Health and Ageing “Psychostimulants - management of acute behavioural disturbances” to assist Australian police services to effectively and safely manage individuals who present with psychostimulant toxicity, and pose a significant risk to themselves or others.

The Drug and Alcohol Nurses Association (DANA), established in 1984 as the peak professional body for nurses and midwives in the ATOD field, was re-launched as Drug and Alcohol Nurses of Australasia.
submission by MSIC and Kirketon Road Centre to the NSW Health Department and the Australian Pharmaceutical Advisory Council to remove capsules from the market (Jun).

Report released: “Diversion of Aboriginal and Torres Strait Islander youth from juvenile justice” from the Australian National Council on Drugs recommends the development of a greater number and range of culturally appropriate diversion options that specifically target Aboriginal and Torres Strait Islander youth (Jul).

Report released from the House of Representatives, Standing Committee on Family and Community Affairs, chaired by Kay Hull MP: “Road to recovery: Report on the inquiry into substance abuse in Australian Communities.” Report made 128 recommendations including that the Commonwealth, state and territory governments replace the current focus on harm minimisation with a focus on harm prevention and treatment. Report also called for more effort in preventing the uptake of alcohol, tobacco and illicit drugs through education campaigns and regulation and increased early intervention (Aug).

Fourth evaluation of the National Drug Strategic Framework by Success Works. Report titled “Evaluation of the National Drug Strategic Framework 1998-99 -2003-04” concluded that the NDSF had been a success but recommended renewed focus on partnerships between IGCD and ANCD, increased involvement of the education sector, increased attention to the dissemination of research, replacement of the national expert advisory structures and improved coordination of the NDSF with other related strategies (Sep).

Prime Minister John Howard announced funding of more than $41.5 million to 98 organisations as part of stage 1 funding through the Non-Government Organisation Treatment Grants Program (NGOTGP) (Oct).

First report from the Drug Use Careers of Offenders study released: ‘Drugs and Crime: a study of incarcerated male offenders.’ Study found that 62% of their sample of incarcerated male offenders reported current regular use of illicit drugs, and that of those who reported use of illicit drugs 51% attributed all or most of their offending to drug use. The authors estimated that 18% of serious offending could be causally attributed to either illicit drug intoxication or dependence and an additional 12% to illicit drug and alcohol intoxication or dependence. But the study also showed that contrary to expectations drug-using offenders tended to commence offending prior to illicit drug use and offenders who were more active in the criminal market, who had greater contact with the criminal justice system (especially property and regular multiple offenders), and who reported more frequent use of illegal drugs were those more likely to have commenced offending prior to illegal drug use (Nov).

Report released: “Dealing with risk: a multidisciplinary study of injecting drug use, hepatitis C and other blood borne viruses in Australia” by the Australian National Council on Drugs identified that risky injecting is as much a social practice as an individual behavior and that risks of BBV transmission were increased by multiple social factors including the stashing of syringes for re-use. The report concluded that for interventions to be effective they need to fit the imperatives of the daily lives of injecting drug users (Nov).

Australian National Council on AIDS, Hepatitis C and Related Diseases (ANCAHRD) replaced by the Ministerial Advisory Committee on AIDS, Sexual Health and Hepatitis (MACASHH).

NDARC Report showed that restriction of temazepam capsules had led to a decrease in temazepam gel capsule prescriptions at a population level, but no reduction in the proportions of injecting of temazepam gel capsule preparations by IDUs. IDUs continued to obtain the capsules from doctors and on the ‘street.’ A survey of users of temazepan gel capsules found most had suffered complications including abscesses, cellulitis, skin ulcers, nerve damage and distal limb amputation.

The Australian National Council on Drugs commenced publishing of a free magazine “Of Substance” (funded by the Australian Government Department of Health and Ageing) that addressed alcohol, tobacco and other drug issues and problems in Australia. The primary audience was frontline workers in the drug and alcohol field; however, it was also relevant to health professionals, social workers, educators, researchers, law enforcers and policy-makers.

2002

Australian police agencies (commencing with NSW Police) started to deploy drug detection dogs as a mainstream strategy for drug law enforcement (Feb).

Position paper was launched by the Australian National Council on Drugs: “Needle and Syringe Programs” which called for trials of needle and syringe programs in prisons (Mar).

Federal Government 2002-03 Budget increased funding for National Illicit Drug Strategy through an additional $14 million for community partnership initiatives, $65 million for non-government organisations treatment programs and $27.5 million to support the development of retractable needle and syringes (May).

Australian Health Ministers’ Conference recommended to the Australian Pharmaceutical Advisory Council that Temazepam capsules be restricted as a Pharmaceutical Benefits Scheme item. 10-mg temazepam capsules was then shifted from an unrestricted to a restricted access (May).

National Illicit Drug Indicators Project rolled out for all states and territories, following success of ACT Drug Indicators Project pilot. Project linked data from state and national sources concerning drug use prevalence, treatment, overdoses, morbidity, seizures, purity and drug-related crime so as to increase knowledge of trends in drug use and drug-related harm (Jun).

Interim evaluation of the National Hepatitis C Strategy: “The Road Not Taken: Review of the National Hepatitis C Strategy” (Jul).

Proceeds of Crime Act 2002 adopted with the aim of confiscating the proceeds of crime including current and future benefits that could be derived such as through commercial exploitation of offending (Oct).

Report on the Return on Investment in Needle and Syringe Programs in Australia concluded that between 1991 and 2000 NSPs had cost Australia $141 million but saved 25,000 HIV infections, 21,000 HCV infections and $2.4 to $7.7 billion (Oct).

Prime Minister John Howard announced that the Illicit Drug Diversion Initiative had been a success and that an additional $215 million would be committed to the second stage of the IDDI (from July 2003-July 2007) (Dec).

A National Working Group on the Diversion of Precursor Chemicals was established to stop over-the-counter medicines being diverted into illicit drug manufacture (Dec).

Report released: “Drug policy: the Australian approach” by the Australian National Council on Drugs used consultations with stakeholders to document core values underpinning the Australian approach to policy making; independence; a diversity of voices; the good sense of bureaucracy; frank and fearless advice; checks and balances; and leading the community (Dec).

National Heroin Signature Program was replaced by the Australian Illicit Drug Intelligence Program which physically and chemically profiled border seizures of heroin, plus cocaine and...
ampheta mine type substances such as MDMA and methylamphetamine.

The Drug Use Monitoring in Australia (DUMA) pilot program extended, enabling continued monitoring of drug use amongst police detainees at the pilot sites, plus the introduction of three new sites in Brisbane Qld and Adelaide and Elizabeth in SA.

2001
Heroin shortage reported in Sydney. Both injecting drug users and key informants noted that heroin availability had reduced, purity decreased and price increased (Jan).

National Drugs Campaign 2001 – “Lost Dreams” and “Ad within an Ad” (Mar).

Australia’s first Medically Supervised Injecting Centre commenced as a pilot in Kings Cross, NSW (Mar).

Report released: “Heroin overdose: prevalence, correlates, consequences and interventions” from the Australian National Council on Drugs. This estimated that deaths among adults aged 15-44 years attributed to opioid overdose had increased 110 fold between 1964 and 1998 and that the rate of overdose could be reduced by expanding access to treatment, education of heroin users, distribution of naloxone or introduction of medically supervised injecting centres (Sep).

Report released: “Structural determinants of youth drug use” from the Australian National Council on Drugs concluded that there is a need to acknowledge that youth drug use is affected by a range of macro-environmental factors, including socio-economic gaps, urban planning, social capital & values and beliefs, and that failure to address these factors will limit capacity to reduce drug use (Sep).

Report released: “Evidence supporting treatment: the effectiveness of interventions for illicit drug use” from the Australian National Council on Drugs reviewed research evidence of outcomes that could be attributed to various treatment approaches for users of opioid drugs, psychostimulants and cannabis (Oct).

Prime Minister John Howard promised that if re-elected he would expand tough on drugs and support the development of retractable needle and syringes (Nov).

The 2001 report from the Illicit Drug Reporting System confirmed there that there had been a dramatic reduction in heroin availability across Australia, particularly between January and March 2001. Price increased and purity decreased in most jurisdictions e.g. price of heroin increased in NSW from $220 to $320 per gram, price per cap doubled from $25 to $50 and purity of street heroin fell from 62% to 51%. This coincided with reductions in use, particularly daily use of heroin (Dec).

Seven national household surveys on drugs conducted: “National Drug Strategy Household Survey, 2001.” Results indicated that 37.7% Australians had used an illicit drug at some time in their lives and 16.9% had used illicit drugs in the previous 12 months.

Report by the National Drug Research Strategy Committee presented to the Inter-Governmental Committee on Drugs (IGCD) recommending the establishment of a National Drug Research Strategy as foreshadowed in the National Drug Strategic Framework 1998-99 to 2002-03.

IGCD Review of Advisory Structures Committee commissioned Professor Jim Rankin to review the advisory structures supporting the National Drug Strategic Framework 1998-99 to 2002-03.

First National Drug and Poisons Scheduling Committee (NDPSC) conditions placed upon pharmacy Pseudoephedrine. The regulations applied to single active products (i.e. pseudo only) and meant pseudo packs of 60s & 90s were restricted to schedule 4 and pack sizes of 30s were restricted to Schedule 3 or S3R.

2000
Illicit Drug Reporting System (IDRS) funded by the Commonwealth Department of Health and Ageing to enable national data collection on drug market trends and provide an early warning system on illicit drugs. This followed the success of pilots which commenced in NSW, Victoria and SA in 1996, 1997 and 1998 respectively.

National Minimum Data Set on Alcohol and other drugs treatment services established (Jul).

The Australian Standard Classification of Drugs of Concern (ASCDC), first edition, was released by the Australian Bureau of Statistics. The ASCDC aimed to ensure the compatibility and comparability of data on problem drugs derived from a range of different statistical and administrative systems and thereby assist government planners, policy analysts and social researchers by providing a consistent framework for the classification of drug related data. Seven core groups were specified: analgesics (e.g. heroin); sedatives and hypnotics (e.g. GHB and ketamine); stimulants and hallucinogens (e.g. amphetamine, MDMA, cocaine and cannabinoids – including cannabis); anabolic agents and selected hormones; antidepressants and antipsychotics; volatile solvents; and miscellaneous (Jul).

Buprenorphine (as Subutex®) was registered by the Therapeutic Goods Administration (Oct).

The number of opioid related deaths in Australia exceeded 1000 for the first time. The Australian Bureau of Statistics showed a total of 1116 deaths occurred in 1999, a rate of 101.2 per 100,000 population aged 15-54.

Drug Use Careers of Offenders (DUCO) study commenced. Funded by the Australian Government Attorney General’s Department under the National Illicit Drugs Strategy and managed by the Australian Institute of Criminology, the first study examined the link between drugs and crime amongst adult sentenced male inmates (Dec).

1999
Naltrexone registered by the Therapeutic Goods Administration for use as part of a comprehensive treatment program for alcohol dependence (Jan).

Australian National Council on AIDS and Related Diseases (ANCARD) replaced by the Australian National Council on AIDS, Hepatitis C and Related Diseases (ANCAHRD) (Sep).
National Drug Law Enforcement Research Fund (NDLERF) established to support evidence-based research into drug law enforcement (Oct).

Council of Australian Government-Ilicit Drug Diversion Initiative signed off including an agreement for a nationally consistent approach to the diversion of minor drug offenders to drug education and treatment. Prime Minister John Howard allocated $110 million to first stage of the IDDI (and $110 million for support measures – school and community initiatives) (Nov).

The Australian Drug Foundation established Somazone a website designed for and run by youth aged 12-25 (Nov).

Data showed that the number of fatal heroin overdoses climbed to 737 fatal heroin overdoses in 1998, a 23% increase since 1997. This sparked increased public concern and warnings of a national disaster (Dec).

Australian Treatment Outcome Study (ATOS) funded to conduct first large-scale prospective study of treatment outcome for heroin dependence to be conducted in Australia. Compared treatments of detoxification, methadone, and residential treatment (including TCs): (Month/Year???)

Drug Use Monitoring in Australia (DUMA) 3 year pilot study commenced to provide measures of drug consumption amongst police detainees and information on current and prior criminal behaviour and treatment utilisation. Pilot sites included Bankstown and Parramatta in NSW, Southport in Qld and East Perth in WA.

First Australasian Drug Strategy Conference (ADSC) held in response to recognition by the Australian and New Zealand Police Commissioners that drugs were a major policing challenge & that shared knowledge would facilitate best practice strategies.

**1998**

MCDS approved National Heroin Supply Reduction Strategy and National Supply Reduction Strategy for Drugs Other than Heroin which aimed to enhance interdiction at the international border, improve coordination, technology and best practice.

Launch of the Australian National Council on Drugs (ANCND) by the then Prime Minister to provide independent policy advice to the Prime Minister and Australian Government - Chaired by Major Brian Watters (Mar).

Rohypnol - more commonly known as the "date rape pill" – was reclassified as a Schedule 8 drug on the National Drugs and Poisons Schedule. This placed it in the same category as heroin, LSD and marijuana (Jun).

National Evaluation of Pharmacotherapies for Opioid Dependence (NEPOD) commenced as a three year project. Evaluation aimed to develop and implement a range of effective, evidence-based, best practice pharmacotherapy treatment options for people who were opioid dependent (Jul).

Australian National Council on AIDS and Related Diseases Hepatitis C Virus Projections Working Group published report: Estimates and Prevalence of the Hepatitis C Virus Epidemic in Australia. This estimated that in 1997 there were 190,000 people infected with HCV, but prevalence was much higher (50-70%) amongst injecting drug users (Aug).

Evidence released that heroin overdoses had increased from 70 to 550 between 1979 and 1995, a 6 fold increase in the standardized rate of overdose (Sep 1998) “Tough on Drugs” extended (Nov).

Sixth national household survey on drugs conducted: “National Drug Strategy Household Survey, 1998.” Results illustrated that between 1995 and 1998 lifetime and recent use increased across all illicit drugs. Recent use of cannabis increased from 13.2% to 17.9%.

**1997**

Family Drug Support was formed after its founder Tony Trimmingham's son died of a heroin overdose. Aimed to support families struggling with drug use issues.

National Health and Medical Research Council launched report: "A strategy for the detection and management of Hepatitis C in Australia" (Mar).

"Treatment Works" week established by the Alcohol and other Drug Council of Australia (Jun).

Ministerial Council on Drug Strategy meeting held to discuss ACT heroin trial. Trial supported by Commonwealth health minister and health ministers from ACT, NSW, SA, Tas and Vic. Opposed by health ministers from NT, Qld and WA. i.e. meeting concluded 6-3 in favour of the trial (Jul).

The Australian Women’s Weekly and Channel Seven’s Today Tonight introduced the Australian public to naltrexone with the story subtitled “I woke up cured of heroin.” The story told of a middle class heroin addict who was miraculously cured from addiction after the magazine had flown her for naltrexone treatment in Israel (Jul).

Prime Minister John Howard blocked ACT heroin trial (19 Aug).

Diversions was placed on Ministerial Council of Drug Strategy agenda (Aug).

Prime Minister's “Tough on Drugs” strategy commenced (Nov).

Non-Government Organisation Treatment Grants Program (NGOTGP) commenced as part of the Tough on Drugs strategy. NGOTGP aimed to fund the establishment, expansion, upgrading and operation of non-government alcohol and other drug treatment services (Nov).

Community Partnerships Initiative (CPI), a community grants program commenced as part of the Tough on Drugs strategy. The CPI aimed to prevent and reduce drug related harm through projects that promoted and supported the establishment of community driven drug illicit prevention and early intervention initiatives (Nov).

National Heroin Signature Program commenced to physically and chemically profile border seizures of heroin and their packing materials to generate strategic and tactical forensic drug
1996 Commonwealth Department of Health and Ageing released second report by Collins and Lapsley titled “The social costs of drug abuse in Australia in 1988 and 1992.” Report concluded that the social cost of drug abuse in Australia in 1992 was at a minimum more than $18, 845 million. Tobacco was the most costly drug, incurring 67 per cent of total costs, while alcohol accounted for 24 per cent and illicit drugs 9 per cent of total costs (Feb).

ADCA Diversion workshop held involving fifty stakeholders from law enforcement, health and attorney generals departments and representatives from drug diversion programs. Workshop led to the identification of best-practice principles of diversion and called for an expansion of diversion programs in Australia (Oct).

Australian National Council on AIDS and Related Diseases (ANCARD) replaced the Australian National Council on AIDS and was established as the peak advisory body to the federal government on HIV and AIDS.

First Annual Remembrance Ceremony held in Canberra "for those who lose their lives to illicit drugs”. This ceremony has been held annually since that time and has triggered many other ceremonies in Australia and throughout the world (Dec).

National review of the provision of methadone in Australia.

Families and Friends for Drug Law Reform was formed following a high number of heroin overdose deaths between Christmas and Easter of that year (Apr).

1994 National Cannabis Task Force recommended that possession, unsanctioned cultivation, sale and non-therapeutic use of cannabis in any quantity should remain illegal but that all Australian jurisdictions consider removing criminal penalties for personal use/possession of cannabis.

Launch of the Australian Drug Law Reform Foundation (Apr).

Launch of Drug Free Australia as an unfunded national network promoting a drug free Australia.

First National Hepatitis C Action Plan developed and endorsed by the Australian Health Ministers’ Advisory Council. Strategy aimed to minimise transmission and the social and personal impact of Hepatitis C (Oct).

First voluntary Code of Conduct developed between industry and law enforcement regarding diversion of chemicals into illicit drug manufacture. Code was adopted by members of the Plastics and Chemicals Industries Association (PACIA) and Science Industry Australia (SIA) and sought to cooperate with government and law enforcement agencies and prevent diversion of chemicals and equipment into illicit production of drugs.

1993 Re-launch of NCADA as the National Drug Strategy (NDS).

First National Policy on Methadone adopted.

Commonwealth funding for implementation of the NDS provided to law enforcement for the first time. Proportion of Commonwealth funds (matched with equal state funds) scheduled to increase to 3% in 1993-94, 7% in 1994-95 and 10% in 1995-96.

Australian Medical and Professional Society on Alcohol and Other Drugs (AMPSAD) renamed as the Australian Professional Society on Alcohol and other Drugs (APSAD) (Nov).

The Australian Parliamentary Group for Drug Law Reform launched the “Charter for Drug Law Reform” which called for an end to prohibition (Nov).

The final Australian jurisdiction implemented Needle Syringe Programs making it a national policy.

National drug education campaign on amphetamines: “Speed catches up with you.”

1992 Manly meeting: Decision was made to assign greater role to law enforcement in administration of the National Drug Strategy.

The National Drug Strategy Committee convened a National Task Force on Cannabis to produce papers summarising the current state of knowledge about cannabis (Apr).

National Centre for Education and Training on Addiction (NCETA) established in Adelaide.

1991 Second evaluation of NCADA: Prof Ian Webster (Chair). Report titled “No Quick Fix: An evaluation of NCADA 1992” concluded there was “no quick fix” to the drug problem and NCADA needed greater strategic direction e.g. introduction of a national drug strategic unit to oversee implementation.

Commonwealth Department of Health and Ageing released a report by Collins and Lapsley, "Estimating the economic costs of drug abuse in Australia.” This estimated that in 1988 drug abuse cost the Australian community more than $14.3 billion, equivalent to 4.6% of gross domestic product for that year. Tobacco cost $9.7 billion, alcohol cost $3.9 billion and illicit drugs cost $1.2 billion.

1990 National Centre for HIV Social Research established.

First national census of clients of treatment service agencies (COTSA) conducted (Mar).

</table>
| 1989 | National Health and Medical Research Council released first formal statement on Hepatitis C.  
Commonwealth Government funded first injecting drug user organisations.  
First Australian Hepatitis C antibody studies initiated. Showed a high prevalence of Hepatitis C amongst injecting drug users.  
Release of the Parliamentary Joint Committee on the National Criminal Authority report: “Drugs, Crime and Society.” Report examined the efficacy and social costs of drug law enforcement and concluded that prohibition had not worked and was associated with considerable costs to users and society. Committee outlined a number of possible alternatives to the current policy, including harsher penalties, decriminalisation and regulation, but did not come to a consensus as to which alternative was best (May). |
Australian IV League (AIVL) began as unfunded national network representing drug users and drug user organizations.  
Australian National Council on AIDS established. |
| 1987 | National Centre for HIV Epidemiology and Research began first Australian clinical trial of AZT, a promising anti-retroviral (Feb).  
Commonwealth government launched a $2.9m National AIDS Education Campaign, including the Grim Reaper television advertisement. AZT approved as a treatment, agreement between Commonwealth and States to share costs |
| 1986 | National “Drug Offensive” media campaign launched (Apr).  
Two research centres established: National Drug and Alcohol Research Centre (NDARC) in Sydney and National Drug Research Institute (NDRI) (then called the National Centre for Research into Prevention of Drug Abuse) in Perth.  
Federal government provided funding and national recognition to newly formed Australian Federation of AIDS Organisations.  
First Needle Syringe Program (NSP) opened - Darlinghurst (Nov). |
| 1985 | NCADA – National Campaign Against Drug Abuse adopted at Special Premiers Conference. Campaign heralded a partnerships approach to illicit and licit drugs between federal and state and territory governments with the aim of minimizing harms caused by alcohol and others drugs.  
National Drug Strategy Committee (NDSC) established to lead policy development in conjunction with the Ministerial Council on Drug Strategy (MCDS).  
Methadone endorsed as an appropriate treatment intervention and first guidelines approved by the Australian Health Ministers’ Conference.  
First national household survey on drugs conducted: “Social issues in Australia, 1985.” |
## The Australian (illicit) drug policy timeline: 1985-2016: ACT, NSW, NT and Qld

| 2016 | Minister for Health Simon Corbell announced the ACT Government would provide $6m in additional funding over four years to strengthen drug treatment capacity. Key areas included:  
- $690,000 annually for additional treatment capacity through Directions ACT, Toora Women Inc, Karralika Programs Inc, Ted Noffs Foundation, The Salvation Army and Gugan Gulwan Youth Aboriginal Corporation;  
- $375,000 annually to increase the capacity of drug rehabilitation programs; and  
- $115,000 annually to roll-out the naloxone program (May).  
Justice and Community Safety Legislation Amendment Act 2016 adopted which decriminalised peer distribution of sterile injecting equipment in the Australian Capital Territory. The Act added an exemption to the offence of supplying sterile injecting equipment in section 74 of the Poisons and Therapeutic Goods Act 2008 (MPTG Act). The exemption is intended to support the implementation of a peer distribution program of sterile injecting equipment for the purpose of preventing the spread of blood-borne disease (Jun).  
ACT government announced that it would establish a medical cannabis scheme as a “priority” and “as soon as practicable” (Aug). | NSW Police Minister Troy Grant said that music festivals could be shut down if organisers failed to improve safety after recent drug overdoses (Jan).  
President of the Australian Drug Law Reform Foundation, Alex Wodak and emergency medical specialist David Caldicott pledged to start a privately funded pill testing trial at music festivals in NSW. They said the trial would start with or without the blessing of the government (Feb).  
Minister for Justice Troy Grant joined Minister for Mental Health Pru Goward hosted a round-table about drug courts (Feb).  
NSW Police and NSW Premier Mike Baird slammed proposed pill testing trials in NSW as “ridiculous” and “illegal”: “We are not going to be condoning in any way what illegal drug dealers are doing.” (Feb).  
NSW Greens MP Jenny Leong reintroduced the Law Enforcement (Powers and Responsibilities) Amendment (Sniffer Dogs—Repeal of Powers) Bill 2016, arguing that "the evidence is in and it is clear that this program, first introduced under the former Labor Government and continued and expanded under this Liberal Coalition Government, is a failure", and that the continued use of drug detection dogs is an infringement of basic civil liberties. (Bill lapsed in Aug 2016) (Mar).  
The Premier announced that the Terminal Illness Cannabis Scheme would be renamed the Medicinal Cannabis Compassionate Use Scheme, and that the scheme was being reviewed to consider whether it should be extended to non-terminal patients (May).  
BOCSAR data shows considerable regional variation in the detection of drug driving offences occur in NSW, with areas with highest detections being: Richmond-Tweed, Tamworth, Wagga Wagga, Orange, Newcastle and parts of western Sydney (Jun).  
First medical cannabis treatments were provided to NSW children with severe treatment-resistant epilepsy: using medicinal cannabis: doctors to be authorised to prescribe medicinal cannabis products to be prescribed and dispensed to patients in Queensland. Specifically it provides 2 pathways for doctors to be authorised to prescribe medicinal cannabis:  
- Patient-class prescribers: specialists who have an “as-of-right authority” to prescribe to groups of patients for a specified condition or symptom with specified medicinal cannabis products  
- Single-patient prescribers: specialists or general practitioners who can apply for approval to prescribe for a particular patient  
Medicinal cannabis will only be approved if:  
- the patient has tried all of the conventional treatments available and these have failed OR  
- the conventional treatment causes intolerable side effects; AND  
- the doctor provides clinical evidence that a specific type of medicinal cannabis product is effective for the particular condition or symptoms (Oct). | Roadside drug-driving testing commenced in the Northern Territory. Under the new testing, people who record a positive reading for driving under the influence of a drug on a first offence will receive a maximum penalty of 3 months imprisonment and/or a fine of $400 which will escalate for subsequent offences (Feb).  
NT Government response to Breaking the Ice report released: “Tackling Ice in the Northern Territory.” Key actions included reduce supply via:  
- Strengthening the Misuse of Drugs Act to enhance search and seizure powers on drug trafficking routes  
- Monitor sales of chemicals and equipment to make it harder for people to manufacture ice  
- Taskforce NEMESIS – screening of major passenger flights and all drug routes into the NT – targeting of known drug suppliers/ importers into the NT Reduce harm via:  
- Trial the HOPE (Hawaii’s Opportunity Probation with Enforcement) strategy, which applies swift sanctions for unlawful drug use, to increase offenders’ ability and motivation to participate in behavioural change processes  
- Investigate a trial of needle and syringe vending machines  
- Develop an online toolkit to support families and communities to better understand and address the problems caused by ice  
Improve the evidence base  
- By June 2016, implement an NT Alcohol and Other Drug research and evaluation strategy (Feb).  
Justice Legislation Amendment (Drug Offences) Act 2016 adopted. Key changes:  
- New offences added of displaying or supplying a cocaine kit, water pipe or ice pipe  
- Created an aggravated penalty for the manufacture or cultivation of a dangerous drug in the presence of... | Queensland Health released a discussion paper: “Medicinal cannabis in Queensland: Draft Public Health (Medicinal Cannabis) Bill 2016 - Discussion paper.” This noted that the Qld proposed laws on medical cannabis had taken these into consideration medical cannabis developments in other jurisdictions (Cth, NSW and Vic) in drafting the Bill (Mar).  
The Public Health (Medicinal Cannabis) Act 2016 adopted. The act will commence on 1 March 2017. The act creates a new regulatory framework to allow medicinal cannabis products to be prescribed and dispensed to patients in Queensland. Specifically it provides 2 pathways for doctors to be authorised to prescribe medicinal cannabis:  
- Patient-class prescribers: specialists who have an “as-of-right authority” to prescribe to groups of patients for a specified condition or symptom with specified medicinal cannabis products  
- Single-patient prescribers: specialists or general practitioners who can apply for approval to prescribe for a particular patient  
Medicinal cannabis will only be approved if:  
- the patient has tried all of the conventional treatments available and these have failed OR  
- the conventional treatment causes intolerable side effects; AND  
- the doctor provides clinical evidence that a specific type of medicinal cannabis product is effective for the particular condition or symptoms (Oct). |

<td>Crimes Legislation Amendment Bill 2014, Part 6.4A passed to prohibit the display for sale (but not the sale) of ‘drug pipes’ in the ACT (Feb). Minister for Justice, Shane Rattenbury announced the Government had signed a Deed of Agreement with the Community and Public Sector Union (CPSU) regarding a proposed Needle and Syringe Program (NSP) for the Alexander Maconochie Centre (AMC). It set out a process for engaging</td>
<td>MSIC Director Marianne Jauncey hit back at NSW Deputy Premier Troy Grant calling his comments about ‘toutng for business’ offensive and noting that calls to expand access to pregnant women and youth were broadly supported by medical and AOD specialists including the Royal Australasian College of Physician and National Drug and Alcohol Research Centre (Aug). NSW Cross-Party Harm Minimisation Roundtable held, co-hosted by Mehreen Faruqi (Greens), Alex Greenwich (Independent), Jo Haylen (Labor) and Shayne Mallard (Liberal). The roundtable brought together politicians, health professionals, academics, police and drug users, in the aim of renewing the debate about harm minimization in NSW. Key issues discussed included drug checking services, expanded access to the Kings Cross supervised injecting facility, and the decriminalisation of drug possession and use. The group signed a letter to Premier Mike Baird and opposition leader Luke Foley calling for a state wide parliamentary summit on illicit drug use (Aug 11). Regulatory changes in NSW allowed doctors to apply to prescribe a broad range of cannabis-based medicines for people who have exhausted standard treatment options. Applications will be assessed by the Commonwealth TGA &amp; by a committee of medical experts on behalf of NSW Health (Aug). BOCSAR report, “trends in conditional discharges”, shows that between 2004 and 2015 there was a large increase in the use of section 10s (bond without a conviction) by NSW local courts, for offences including drug use and possession and drug manufacture/cultivate (Sep).</td>
<td>NT Ice Select Committee established. Terms of reference included examining:  - The reliability of government data on Ice use;  - A comprehensive survey of the various government responses to the abuse of Ice in the Northern Territory;  - Government and community responses to Ice use in other states and some assessment of the effectiveness of these responses in terms of prevention,</td>
<td>Two men died after reportedly smoking synthetic cannabis in Mackay. The Mackay emergency department reported this followed a rise in ED admissions: an average of one admission per day for synthetic drugs in the last six months (Jan). Qld Crime and Corruption Commission released a new report: “New Synthetic Drugs - Deceptive and Dangerous.” Report warned of the expansion of the synthetic drug market in regional communities in Qld</td>

<td>hospitalised at Sydney Festival 'A State of Trance' (Feb). Medical cannabis campaigner Dan Haslam passed away (Feb). Assistant Minister for Health Pru Goward announced a series of community education forums 'breaking the ice in our communities' delivered by the Australian Drug Foundation to support local communities dealing with methamphetamine (Feb). NSW Greens MP Jenny Leong introduced the Amendment (Sniffer Dogs—Repeal of Powers) Bill 2015 that sought to end the use of drug detection dogs without a warrant in NSW. (This lapsed in Nov 2015) (May). Mr Barry and Mrs Joy Lambert made a donation of $33.7 million to the University of Sydney to establish the Lambert Initiative, to explore the potential of the cannabis plant in treating a range of diseases (Jun). NSW Centre for Medicinal Cannabis Research and Innovation (the Centre) was launched, funded with $12 million by the NSW Government: to develop understanding of the benefits and treatment options for medicinal cannabis. Inaugural director: NSW Chief Scientist &amp; Engineer, Professor Mary O’Kane (Jun). NSW children with severe treatment-resistant epilepsy will be provided with compassionate access to a cannabis-based medicine (Jul). Regulatory changes in NSW allow doctors to apply for prescriptions of a broader range of cannabis-based medicines. Applications from prescribing doctors will be assessed by the Commonwealth Therapeutic Gooda Administration, and by a committee of medical experts on behalf of NSW Health (Aug). NSW Government signed a Memorandum of Understanding with GW Pharmaceuticals to facilitate access to Epidiolex® (a pharmaceutical preparation of CBD) for a trial with children with paediatric epilepsy (Oct). Sylvia Choi (aged 25) died at the Stereosonic music festival in Olympic Park after taking what police claimed mixed ecstasy with another substance, possibly MDMA in water. Another 120 people were reported being staggered at the numbers of overdoses. The overdoses followed two fatal overdoses at Stereosonic in Sydney and Adelaide (Dec).</td>
<td>education, family and individual support and treatment modalities; &amp; The sources of Ice including cross border trafficking, local manufacture and derivation from legal pharmaceuticals and other legal precursors (Apr). Ice Select Committee, Breaking the Ice report released. Key conclusions: That while 'ice' is an emerging issue of concern, reports of an 'ice' epidemic sweeping across the Northern Territory are misleading. While prevalent in the urban and regional centres of the Territory, there is no evidence of widespread 'ice' use in remote communities. That the abuse of alcohol remains a far greater problem in the Territory, and that strategies to address 'ice' should not be implemented at the expense of alcohol-related harm initiatives. 13 recommendations were issued including that the NT Government should: • Ban the display and sale of drug paraphernalia; • Mandate real-time online recording of pseudoephedrine sales at pharmacies to aid data collection; • Put more money into residential and non-residential detox services, with an emphasis on services for people aged under 18, and access to prisoners; • Undertake a trial of waste water analysis to more accurately assess prevalence and distribution of ice use. • Undertake and publish a comprehensive review and evaluation of drug diversionary programs in the NT, and develop a strategy to enhance access to in the Northern Territory (Nov). Traffic and other Legislation Amendment Act 2015 adopted enabling powers to conduct random drug testing to drivers on Northern Territory roads: for cannabis, ecstasy and methamphetamines. On introducing the bill it was noted that &quot;this amendment will bring the Northern Territory up to date with other jurisdictions. All other jurisdictions... have successfully implemented random roadside drug testing regimes similar to that which is (likely due to the shortage of traditional illicit drugs), and the increased involvement of organised crime groups in distributing them (Jan). Change of government with Qld Labor Government elected under Premier Annastacia Palaszczuk with the assistance of an Independent. Key platforms included: • To reinstate the operation of drug courts for dealing with drug misuse and minor related offences • To establish a separately funded state-wide Health Promotion Service to promote health and wellbeing, expanding the range of early detection and early intervention services; • To commence a Commission of Inquiry into organised crime • To re-establish the Queensland Sentencing Advisory Council (Feb). 20 people non-fatally overdosed at the Brisbane leg of the Stereosonic music festival, and were taken to Brisbane emergency departments. Queensland police reported being staggered at the numbers of overdoses. The overdoses followed two fatal overdoses at Stereosonic in Sydney and Adelaide (Dec).</td>

</table>
Interim evaluation of the ACT’s naloxone program showed that the program had been a success. For example, it found participants were able to be trained to administer take-home naloxone in appropriate circumstances and that there had been 23 successful overdose reversals (Feb).

ACT Chief Minister Katy Gallagher praised the ACT naloxone program (Feb). Attorney-General Simon Corbell announced key changes to the ACT drug trafficking laws via the Criminal Code (Controlled Drugs) Legislation Amendment Regulation 2014. Included first evidence-informed reforms to ACT drug trafficking thresholds:

- changing the trafficable quantities of four common drugs that trigger ‘deemed supply’ provisions;
- switching from a pure based to a mixed based regime for assessing drug weight; and
- adopting a uniform multiplier between trafﬁcable, commercial & large commercial quantities.

The reforms followed advice from the Drug Policy Modelling Program and were heralded as better ensuring thresholds target drug traffickers, rather than drug users, as "consistent with a harm minimisation approach." The regulation also added 44 new psychoactive substances to schedule 1, making possession of each subject to serious criminal offences. New laws commenced 17 April 2014 (Mar).

ACT Greens MP, Mr Shane Rattenbury, released a medical cannabis discussion paper and exposure draft law for community feedback: "Drugs of Dependence (Cannabis Use for Medical Purposes) Amendment Bill 2014". The bill seeks to enable a person to apply in writing to the Chief Health Officer for approval to possess, use and cultivate cannabis for medical purposes. The community consultation ran from July until October 2014.

The New South Wales Government supported all of the General Purpose Standing Committee No.2's Inquiry into Drug and Alcohol Treatment recommendation. In particular noted the government would:

- closely observe the results of the naloxone trials in NSW (due for completion in July 2014) and the ACT to determine if naloxone should be expanded in Sydney;

- encourage NHMRC to prioritise funding research into naltrexone implants, and

- if necessary seek private funds for a limited local trial (Feb).

BoCSAR report release: "Why is the NSW prison population growing?" Examined the cause of a large increase in imprisonment from late 2012 to early 2014 and concluded that the key causes were firstly, an increase in the rate of arrest for crimes involving aggravated sexual assault, serious assault resulting in injury, aggravated robbery, drive while licence disqualified or suspended and deal/traffic in non-commercial quantities, and secondly an increase in the proportion of offenders sentenced to prison, particularly for offences involving importation of illicit drugs and aggravated sexual assault. It noted that this was likely to reflect a change in policing and/or sentencing, rather than any change in the rate of actual offending (Apr).

The Haslam family from Tamworth launched an online petition to the NSW Premier and NSW Health Minister calling for the decriminalization of medicinal cannabis in NSW. The campaign was motivated to help their terminally ill son, Daniel Haslam, who was diagnosed with bowel cancer and found benefits from using cannabis (Apr).

NSW Nationals MP Kevin Anderson, member for Tamworth, announced his intention to introduce a Private Members Bill to approve the use of cannabis by terminally ill treated for drug-related symptoms (Nov). NSW Health launched an interactive map of every public NSP outlet across NSW, type of facility e.g. staffed NSPs, vending machines (free or coin operated), disposal bins and hours of operation and range of equipment available (Dec).

Northern Territory

NT Corrections Officers report that a ban on smoking in NT prisons has led to a shift to smuggling tobacco into the prisons, rather than cannabis or methamphetamine (Jan). The Northern Territory Government passed the Misuse of Drugs Amendment Act 2014 on 20 March 2014. This Act allows for police to charge a person not only with "supply to a person" but for the aggravated circumstance of "supplying to a place that was at the time of the offending an 'indigenous community'" when it involves a schedule 2 drug e.g. cannabis or amphetamine. An averment attesting that a place is an 'indigenous community' at the relevant time is deemed to be evidence of that matter stated. The Act increases the maximum penalty for such actions, from 5 to 9 years imprisonment (Mar).

Queensland

Queensland Police launch a "New Synthetic Drugs: Real Damage" campaign, asking Queensland residents to anonymously report dealers or people in possession of new synthetic drugs (Feb).

Police Powers and Responsibilities and Other Legislation Amendment Act 2014 adopted. Introduced new laws against "out of control" events, defined as an event involving 12 or more persons are gathered together at a place and 3 or more persons associated with the event engage in out-of-control conduct at or near the event. Maximum penalties for organising or causing an out of control event include 1 year imprisonment and/or 110 penalty units (Feb).

Queensland Police concluded the Gold Coast's biggest drug operation in history: Operation Kilo Fraction, a 19 month operation. Led to arrest of 152 people, including 37 alleged members of outlaw motorcycle gangs (Apr).

Queensland Department of Health conducts a "Request for Offer" (RFO) for the provision of NGO out-client AOD services for July 2014 to June 2017 including NGO provided Queensland Illicit Drug Diversion Initiative sessions, the coordination of booking arrangements for these sessions, NGO Youth AOD out-client counselling and NGO Community AOD out-client counselling. This RFO did not include any currently Government operated services and there was no increase or decrease in funds allocated. Current providers of residential rehabilitation services funded by Queensland Department of Health were excluded from the RFO and have been directly procured (Apr).

Qld Gov released Safe Night Out Strategy. Included actions to:

- Introduce tougher penalties for those who are affected by alcohol or drugs and engage in anti-social and violent

Caitlin Hughes, Drug Policy Modelling Program – Last updated 15 December 2016. For comments email: caitlin.hughes@unsw.edu.au
September (Jul).
A medical marijuana supplier, providing medical marijuana to a 2.5 year old girl with a genetic disorder, was raided after a tip off from Chief Minister Katy Gallagher. The Chief Minister stated: “As the law stands at the moment marijuana is a prohibited substance and I have responsibilities on me as Chief Minister under child protection laws, if nothing else, that that information had to be passed on” (Jul).

The ACT Legislative Assembly referred the Greens Exposure Draft of the Drugs of Dependence (Cannabis Use for Medical Purposes) Amendment Bill 2014 and related discussion paper to the Standing Committee on Health, Ageing, Community and Social Services for its consideration. The Committee is required to report back to the Assembly by the last sitting day in June 2015 (7 Aug).

Chief Minister Katy Gallagher wrote to federal Health Minister Peter Dutton, proposing the National Health and Medical Research Council support an Australia-wide clinical trial and the Therapeutic Goods Administration consider how medical cannabis could be licensed for use (Aug).

Attorney-General Simon Corbell launched a new report: “Evaluation of the ACT drug diversion programs” led by the Drug Policy Modelling Program and announced a series of reforms to the ACT police and court diversion system, including broadening the methods for payment of SCONs, prioritising space for AOD assessments of offenders in the courts and the development of a new ACT Police and Court Drug Diversion Strategy. The Attorney General Simon Corbell and ACT Chief Police Officer Rudi Lammers both also reinforced the importance of drug diversion programs and ensuring they were effectively targeted (Oct).

Chief Minister Katy Gallagher made a request for the ACT to be involved in the NSW clinical trial of medical cannabis (Oct).

<td>2013</td>
<td>Second phase of ACT naloxone program commenced. Included provision of naloxone to at-risk detainees on release by Justice Health (Feb). Drug Policies and Services Framework for the Alexander Maconochie Centre 2013 – 2015 adopted. Employed demand, harm and supply reduction strategies and performance measures including number of detainees accessing of ATOD services, number of overdoses and needle-stick injuries, inmate satisfaction with ATOD services and proportion of detainees receiving a Justice Health discharge plan on release (Aug). ACT Chief Minister Katy Gallagher released final status report on the Government’s response to the Burnet Report. Noted that 46 recommendations from Burnet report had been fully or partially completed at the Alexander Maconochie Centre, but that: • a trial needle and syringe program could not occur until union agreement was reached; &amp; • the merit and feasibility of providing a regulated tattooing program was still being considered (Oct). Final Strategic Framework for the Management of Blood-Borne viruses in the Alexander Maconochie Centre adopted. Included provision of regulated access to sterile injecting equipment subject to union agreement (Oct).</td>
<td>New South Wales State Attorney-General Greg Smith opened the state’s third drug court, in central Sydney (Feb). Nineteen individuals, including the national president of the Hells Angels, the vice president of the Rebels and other high-ranking members of the Comancheros motorcycle gang were arrested following a 21 month investigation into the supply of drugs, guns and explosives to organised crime groups within NSW. The operation, known as Strike Force Alistair, was led by the NSW Police Force Organised Crime Squad and the NSW Crime Commission, with assistance from the Gangs Squad and is one of the biggest operations in the state’s history. Also seized were pistols, rifles, ammunition, counterfeit cash, 2 clandestine laboratories and an estimated $6 million worth of drugs (Mar). Intoxicated Persons (Sobering Up Centres Trial) Act 2013 No 15 adopted. Introduced a trial of sobering up centres for people intoxicated due to alcohol or drugs. Included 1) a compulsory model run by NSW police that detains people for 4-8 hours at costs; and 2) a voluntary model run by NGOs (Apr 3). NSW Parliament General Purpose Standing Committee No. 4 released report on their inquiry into the use of cannabis for medical purposes. Key recommendations: • That the Minister for Health write to the Commonwealth Minister for Health and Ageing, expressing in principal support for the expansion of access to approved cannabis pharmacotherapies • That the NSW Government introduce an</td>
<td>The Northern Territory Government announced that it was getting hard on drugs in response to research that there has been significant increase in the manufacture and distribution of methamphetamine across the nation. The Misuse of Drugs Amendment (Methamphetamine) Act 2013 was introduced and received assent on 19 October 2013. The Act subsequently commenced to have effect from 11 November 2013. This amendment removed methamphetamine from schedule 2 of the Act and placed it in schedule 1. This increased penalties for the possession or supply of trafficable and commercial quantities of the drug. For example the maximum penalty for trafficable quantities (2.0g or more) increased from 5 years imprisonment to 14 years or more (dependent on the nature of the offence) (Oct).</td>
<td>The Newman Government released their six month action plan. Actions included: • Establishment of the Queensland Mental Health Commission; • Reform Queensland Health’s grants and service delivery contracts; • Commence a review to streamline contracts with nongovernment organisations (NGOs) reducing the number of individual contracts; • Release the government’s youth strategy (Jan). Newman Government released Blueprint for better healthcare in Queensland (Feb). Qld Police closed their most extensive drug investigation in recent years. Operations Juliet Cheshire and Juliet Cheshire 2 spanned a total of 18 months and sought to disrupt trafficking of methylamphetamine, MDMA (ecstasy), cocaine, and cannabis into the Fortitude Valley entertainment precinct. A total of 76 people were charged with 283 offences including 32 offences of trafficking dangerous drugs, 105 charges of supply dangerous drugs and 16 charges of major possession. Approximately $2.5 million worth of drugs and several firearms were also seized (Feb). Drugs Misuse Amendment Regulation (No 1) 2013 adopted. Added 35 new synthetic drugs, including NBOMe, MDPV, 4-MEC, MDAI &amp; 2-DMP, to Schedule 2 of the Drug Misuse Act (Apr). Criminal Proceeds Confiscation (Unexplained Wealth and Serious Drug Offender Confiscation Order) Amendment Act 2013 adopted. This: • introduced a scheme for recovering</td>

<td></td>
<td>'unexplained wealth'; <em>[•]</em> provide a reverse onus of proof, so any person who accumulated wealth that does not seem commensurate with his/her lifestyle and livelihood would bear the onus of proving that the wealth was legitimately acquired; and <em>[•]</em> introduced serious drug offender confiscation orders, enabling forfeiture of all property whether obtained legally or illegally unless deemed as 'protected property' (May). Newman Government review released of Youth Justice Strategy (Jun). Announcement of the inaugural QLD Mental Health Commissioner Dr Lesley van Schoubroeck to commence 1 July 2013. A whole-of-government strategic plan for Mental Health and AOD is to be developed within 12 months (Jul). Queensland police recruit real estate agents to help them find and dismantle clandestine drug laboratories: using a training program that teaches property managers how to spot laboratories and collect evidence during inspections. Qld Government released: &quot;The Queensland Plan: a 30-year vision for Queensland&quot;, outlining draft strategic vision for Qld. Included key objective of reducing rates of lifestyle diseases caused by lack of exercise, poor diet, alcohol, smoking and drug abuse (Dec). Queensland Needle and Syringe Program (QNSP) data indicate a continual increase (approx. 28% per year) in the number of people who reported obtaining needles and syringes to inject 'ice': from 7,921 in 2009 to 10,132 in 2011 13,028 in 2012 (Jul). Consultation occurred on the Queensland Mental Health and Drug Strategic Plan: including an AOD specific forum organised by QNADA (Sep). <em>[•]</em> Criminal Law and Other Legislation Amendment Act 2013 adopted. Introduced new requirement that all drug traffickers serve at least 80% of their term of imprisonment before being eligible for parole and increased maximum penalty for aggravated supply e.g. drug trafficking to anyone aged 16 or under (from 25 years to</td>

<td>all psychoactive substances (subject to appropriate exemptions) – maximum penalty of $2,200 or two years imprisonment. This supplemented existing provisions to ban use and trafficking of specific named ‘prohibited drugs’ through Schedule 1 of the Drug Misuse and Trafficking Act and their analogues. The Act also removed requirement for analogues of prohibited drugs to have psychotropic properties (Sep 24). Drug Misuse and Trafficking Amendment (Prohibited Substances) Regulation 2013 added 45 new psychoactive substances (including synthetic cannabinoids, 2C-X and NBOMe) to the list of prohibited drugs in the Drug Misuse and Trafficking Act; along with threshold quantities for trafficable, commercial and large commercial trafficking offences (Sep). New NDARC research released: “Engagement with criminal justice system among opioid-dependent people.” Examined all entrants to opioid substitution therapy (OST) for opioid dependence in NSW between 1985 and 2010 and their criminal justice contact and showed that a minority of opioid-dependent people are responsible for most CJS contact: 67.4% of CJS charges due to 20.8% cohort (Sep) NSW cannabis clinic expanded to include synthetic cannabinoid users (Oct). NSW Government released response to the inquiry on the use of cannabis for medical purposes. They supported recommendation one; that they write to the Commonwealth Minister for Health and Ageing, expressing in principal support for the expansion of access to approved cannabis pharmacotherapies, but rejected all other recommendations, including considering lawful supply of crude cannabis products for medical purposes. The government argued that it “does not support the use of unregulated crude cannabis products for medical purposes as the potency and safety cannot be guaranteed” and that this decision would not prevent access to appropriate medical treatment for any patient in NSW” (Nov). NSW health authorities introduce first Australian pop-up rapid testing site to</td>

**Drug Treatment Program (IDATP) in NSW prisons opened, with space for 62 male inmates (Feb).**

**Former NSW Health Minister, John Della Bosca, said the ‘war on drugs’ has failed, & called for another drug summit to reassess Australia’s approach to drug policy (Apr).**

**The NSW Youth Drug and Alcohol Court was axed. NSW Attorney General, Greg Smith SC, said the program was too expensive.**

**The closure occurred without consultation (Jul 1).**

**The NSW Attorney General, Greg Smith SC, tabled the NSW Law Reform Commission’s report on the Bail Act. Of note, the report outlined there had been many reversals of the presumption of bail for drug trafficking offences. Recommendations of the report:**

- A new Bail Act should be drafted in plain English language, so as to be readily understandable, and with a clear and logical structure;
- The scheme of presumptions, exceptions and exceptional circumstances in the current legislation should be replaced with a uniform presumption in favour of release applicable to all cases except those covered by an entitlement to release & appeal;
- The authority must consider: (a) The entitlement of every person in a free and understandable, and with a clear and English language, so as to be readily understandable, and with a clear and logical structure;
- The scheme of presumptions, exceptions and exceptional circumstances in the current legislation should be replaced with a uniform presumption in favour of release applicable to all cases except those covered by an entitlement to release & appeal;
- The authority must consider: (a) The entitlement of every person in a free society to liberty and (b) The presumption of innocence.
- In decisions on bail, a person must not be detained unless a custodial sentence is likely (Jun).

**NSW Legislative Assembly Legal Affairs Committee launched: “Inquiry into law reform issues regarding synthetic drugs.” The inquiry sought to examine law reform issues regarding the prohibition of synthetic drugs and to consider the adequacy of current NSW legislation. Submissions were received from Feb-Apr (Feb 16).**

**First phase of the Intensive Drug and Alcohol Treatment Program (IDATP) in NSW prisons opened, with space for 62 male inmates (Feb).**

**Former NSW Health Minister, John Della Bosca, said the ‘war on drugs’ has failed, & called for another drug summit to reassess Australia’s approach to drug policy (Apr).**

**The NSW Youth Drug and Alcohol Court was axed. NSW Attorney General, Greg Smith SC, said the program was too expensive.**

**The closure occurred without consultation (Jul 1).**

|      | Government announced the establishment of a Throughcare Unit to better support prison detainees returning to the community and coordinate their service delivery and case management. A total of $1.12 million has been provided over two years (Jun). The ACT Labor Party and the ACT Greens (Mr Shane Rattenbury MLA) signed a parliamentary agreement that they would “establish a needle and syringe exchange program at the AMC medical centre.” This was one of the conditions made in order to form a minority government, following the 2012 ACT Election (Nov 2). The Human Rights Amendment Bill 2012 was adopted, adding section 27A Right to education to the act. This entered into force on 1 Jan 2013 (Aug). Ms Katy Gallagher MLA, ACT Chief Minister and Minister for Health tabled the report “The Review of the Need to Expand Drug and Alcohol Rehabilitation Services in the ACT, 2012” and the Health Directorate response to the report in the ACT Legislative Assembly. Key conclusions from the report:  
- There is no strong evidence of a need to increase the number of residential rehabilitation beds in the ACT;  
- There is evidence of barriers for many people to accessing treatment and support services, including residential rehabilitation programs, which need to be removed. Recommendations included:  
  - Providing referrers, prospective clients and family members / friends of those with alcohol, tobacco and other drug (ATOD) problems, with more detailed information about the eligibility criteria, structure and content of programs and expectations of those who participate in programs  
  - Improve intake, transition and aftercare support (Aug).  | including through the new Intensive Drug and Alcohol Treatment program (Jun). The NSW Liberals & Nationals Government announced that the Grafton Correctional Centre, a minimum and medium security prison on the far north coast of NSW, will be downsized (from 243 to 64 inmates) to become a transient and remand centre (Jun). Over-dose Prevention Education and Naloxone (OPEN) project commenced in Sydney: Kirketon Road Centre. The goal was to reduce mortality and morbidity amongst PWID, particularly by educating PWID and their carers about opioid overdose prevention and management and prescribing take-home naloxone (Jun). Mental Health Act Review Discussion Paper released with submissions invited until Dec 2012 (Sep). Law Enforcement (Powers and Responsibilities) Amendment (Kings Cross and Railways Drug Detection) Bill 2012 adopted. This authorised the use by police officers of dogs for general drug detection (without warrant) at any public place in the Kings Cross precinct & extended powers to use dogs across the entire railway network (Oct 29). Inquiry commenced by a Legislative Council General Purpose Standing Committee into “Drug and alcohol treatment”: evaluating current polices with a particular focus on deterrence, treatment and rehabilitation (Nov). Inquiry commenced by a Legislative Council General Purpose Standing Committee into “The use of cannabis for medical purposes”. Key issues include the efficacy and safety of using cannabis for medical purposes; if and how cannabis should be supplied for medical use; the legal implications and issues and any other related matters. A total of 122 submissions were received. The inquiry is due to report in May 2013 (Nov). NSW HIV Strategy 2012-2015 adopted. As part of this the NSW Coalition Government committed to expand Needle and Syringe Program (NSP) access. Key strategies:  
  - more outlets for NSP distribution  
  - more automatic dispensing machines  | a Darwin hotel room. The PMMA tablets were being marketed as ‘ecstasy’ (Dec). The Northern Territory announced their Alcohol and other drug Court Tribunal would be cut (Dec).  | worth an estimated $216,195 (Aug). Queensland State Budget 2012-2013 released. Outlined a number of areas of major cuts, including:  
- Loss of 14,000 FTE positions from the public service.  
- Queensland Health’s Grant program cuts of $120 million over four years.  
- Court Diversion and Referrals program cuts of $5.015 million in 2012 – 2013 and $10.226 million in 2013 – 2014. Of particular note Premier Newman announced that post ten years of operation the Queensland drug courts would no longer be funded (the Murri and special circumstances courts were also de-funded) (Sep). QNADA released a new Policy Position – “The role of AOD in the Qld Mental Health Commission.” This supported the Newman Government’s proposed establishment of a Queensland Mental Health Commission (QMHC). But, while arguing inclusion of AOD within QMHC would be beneficial, it advocated for specialist AOD input:  
- Due to the specialist nature of AOD treatment services and its’ unique policy framework, ongoing reform of the sector from within the QMHC will be best achieved by the assigning of responsibility and leadership to a designated position, such as a Deputy Commissioner for AOD (Sep). Queensland Health contracted Siggins Miller to conduct “Queensland Alcohol and Other Drugs Residential Service Sector Mapping and Review Project.”  
QNADA released a position paper on “recovery and harm minimisation.” This argues that in the Australian context the primary goal of treatment and prevention should remain harm minimisation (Sep). Queensland Government released the discussion paper: “Establishment of the Queensland Mental Health Commission.” This outlined the proposed model for the QMHC (with one month for feedback) (Oct). A new Mental Health Alcohol and Other Drugs Branch located within the Health Services and Clinical Innovation Division came into existence. Responsibility for the |

- Lead responsibility for ongoing AOD policy and AODS treatment is delivered by the Partnerships and Programs Team (Planning and Partnerships Unit, Mental Health Alcohol and Other Drugs Branch)
- AOD Prevention is delivered by the Intergovernmental Partnership Team (Preventive Health Unit, Chief Health Officer Branch)
- Opioid treatment and monitoring is delivered by the Medicines, Regulation and Quality Team (Health Protection Unit, Chief Health Officer Branch)
- Needle Syringe Programs are delivered by the Blood Borne Virus and Sexually Transmitted Infection team (Communicable Diseases Unit, Chief Health Officer Branch)(Oct).

Criminal Law Amendment Bill (No. 2) 2012 introduced outlining:

- Introduction of a new ‘aggravated supply’ offence in the Drugs Misuse Act 1986 for drug traffickers who target children. Offenders are liable to a max penalty of life imprisonment for a schedule 1 drug and 25 yrs for a schedule 2 drug and
- The conditions for the cessation of the Queensland’s Drug Court by 30 June 2013 and transitional arrangements. A gradual approach to the termination of the Drug Court has been adopted to allow offenders, currently subject to an intensive drug rehabilitation order under the Drug Court Act 2000, time to complete their order (Nov).

Queensland Mental Health Commission Bill 2012 tabled, to establish:

- a Mental Health Commission and
- a Mental Health Alcohol and Other Drugs Advisory Council (Nov).

Youth Justice (Boot Camp Orders) and Other

| 2011 | The Minister for Community Services released a discussion paper "Towards a diversionary framework for the ACT". This acknowledged the need for a much more whole of government approach to diversion (Feb). Knowledge Consulting report released: "Report of the Independent Review of Operations at the Alexander Maconochie Centre." Report examined the first 12 months of operation and noted concerns about a lack of coordination of some drug policies and procedures (Mar). New report released: "Health Status of Young People in the ACT". Report showed the use of illicit substances by young people decreased. For example, lifetime use amongst those aged 12-17 decreased from 20.3% in 2005 to 14.8% in 2008, continuing the downward trend since 1996 (37.5%). Use of at least one substance in the last week also declined: from 4.8% in 2005 to 3.7% in 2008 (Apr). Burnet report (2010-2011) tabled in the ACT Legislative Assembly: "External component of the evaluation of drug policies and services and their subsequent effects on prisoners and staff within the Alexander Maconochie Centre." Key findings were: • High prevalence of lifetime and current illicit drug use at the AMC and evidence of trafficking of drugs into the prison. • Reports of at least one case of in-prison transmission of HCV within the new AMC. • Several positive program activities at the AMC went some way to fulfilling drug policy objectives. However, these constituted 'pockets of effectiveness.' Report made 69 recommendations inc: • Development of a specific drug policy | NSW Premier Kristina Keneally opened the state's second Drug Court in Toronto, citing the success of the Paramatta drug court. A third drug court was promised if Labor won re-election (Mar). New Liberal Premier Barry O Farrell elected (28 Mar). New report released by the NSW Auditor-General: "Effectiveness of cautioning for Minor Cannabis Offences". Key conclusions: • 39,099 people cautioned. • Cautioned people reoffended less than those charged. Yet: • Youth were less likely to be cautioned in 2009-10 than 2000-01 • Huge variation in caution rates between police commands e.g. 74% in Eastern suburbs vs. 26% in Parramatta. Recommended reviewing barriers to cautioning, particularly for young offenders (Apr). New crime squad will be established on Sydney Harbour to target drug trafficking and organized criminal through NSW ports. A key motivator was declining levels of inspections by Australian Customs and Border Control: just 3.6% of shipping containers over the last 12 months. Operation Polaris, led by Detective Superintendent Peter McErlain will comprise 25 NSW Police officers, 15 AFP agents, and operatives from the NSW and Australian Crime Commissions (May). Mental Health Minister Kevin Humphries made headlines when he was photographed with a synthetic cannabinoid, Kronic, on Oxford Street: "Why is this MP buying a bag of weed?" The Minister highlighted concerns the product could have a potency up to 100 times greater than marijuana and cause | The Northern Territory Council of Social Services (NTCSS) initiated moves to establish a formal AOD Peak for the Northern Territory: the Alcohol and Other Drugs Association of the Northern Territory (AADANT). NT Drug Summit: "Forging the Future - Practical Responses to Contemporary Issues" (Apr 13). A large two day police operation in the aim of deterring drug and alcohol distribution to the Northern Territory resulted in the seizure of $2385 in cash and 367 grams of cannabis. Operation revolved around 48 hr road blocks on both Larapinta Drive and the Tanami Highway and was undertaken by the Alice Springs Substance Abuse Intelligence Desk, Drug Intelligence Unit and Dog Operations Unit, members of the Darwin Remote Community Drug Desk and Hermannsburg Police and Southern Traffic operations (May). Regulations amending the Misuse of Drugs Act banned a total of 18 substances used to manufacture synthetic cannabis (including Kronic) (12 Aug) A further five substances were added to the banned list of synthetic cannabis (31 Aug). NT Attorney General released the "Review of the Northern Territory Youth Justice System." Key findings: • NT youth offending is trending upwards in a number of areas • The no. of young people involved in the justice system is small but is increasing. • Young people in detention are more likely to be on remand than serving sentences Key recommendations included: | Eight years post freezing the assets of Charles Edward Cannon, a convicted methamphetamine trafficker, the Qld Supreme Court made a landmark proceeds of crime ruling: State of Qld v Cannon [2011] QSC 075 (03/1166) Brisip Applegarth J 8/04/2011. The ruling marked the end of the state's longest and largest proceeds of crime battle and meant that Cannon, who it was alleged had earned $27 million through his methamphetamine business, was ordered to pay back $4.2 million in crime proceeds to the Qld government (Apr). Qld Government announced intention to put forward a new bill: 'Criminal Law Amendment Bill 2011' to ban 15 synthetic cannabinoids and to amend the Drugs Misuse Act 1986 to revise the definition of banned 'analogues'. The new law proposes to address the rise of new 'legal' substances that mimic known illicit substances, and eliminate the current requirement that an analogue is only banned when there is proof that the new substance has a similar chemical structure and effect to scheduled dangerous drugs. Under the proposal any substance that is 'intended' to have a substantially similar pharmacological effect as known illicit drugs will be banned. The proposed bill will be subject to consultation by stakeholders including the Sentencing Advisory Committee (Jun). Queensland Drug Action Plan 2011-2012 released. Plan seeks to reduce cannabis use and heavy drinking by 11% by 2012 (Jun). Crime and Misconduct Commission issue a 'schools alert' about GHB, due to recent peaks in supply and use (Sep). QNADA released a new report: "Building Capacity in Alcohol and Drug Services – The Queensland Experience – A Tough but

<tr>
<td>2010</td>
<td>Government released for public comment its proposed bill for roadside drug testing. The Road Transport (Drug Driving) Bill 2010 was argued to be a comprehensive bill that would fit within existing policies on human rights and harm minimisation (27 May). Former ACT Supreme Court judge Ken Crispin published a book, “The Quest for Justice,” which questioned the war on drugs. In it he states that treating illicit drug use as a criminal justice problem has not and will never work (May). The Alcohol Tobacco and Other Drug Association Australian Capital Territory Inc (ATODA), was launched as the new independent peak body for the ACT ATOD sector. It provides for members from both the non-government and government sectors (18 Jun). ACT Human Rights Commissioner provided her opinion that the opposition bill for roadside drug testing was non-compliant with the ACT Human Rights Act since it failed the proportionality test: it would impinge on human rights but did not guarantee doing so would lead to justifiable community benefit. She also argued that there was conflict with the ACT drug legislation, as the ACT had decriminalised possession of personal supply of cannabis yet random roadside drug testing would impose serious criminal sanctions on the use of cannabis and amphetamine trafficking on major routes and highways entering and exiting the Northern Territory.</td>
<td>NSW Health funded KPMG to conduct a new and independent evaluation into the effectiveness and efficiency of the Medically Supervised Injecting Centre. Media reports increasing use of an ecstasy like stimulant – mephedrone or miaow miaow – following increased border seizures and accounts of use in dance scenes including Newcastle where it was reported to have been sold for $2 a hit (Mar). Arrests for possession and use of cocaine in NSW increased 55% from 486 in 2008 to 753 in 2009 prompting calls by the NSW Bureau of Crime Research and Statistics that more cocaine was getting into the country (Apr). An integrated mental health, drug and alcohol and community health facility – the O’Brien Centre – was opened at St Vincent’s Hospital. The centre aimed to provide a more coordinated one-stop approach to meeting needs e.g. detox, opioid treatment, anxiety disorder units and mental health workers (May). NSW attorney general announced that eleven years following the establishment of the 1st NSW drug court in Parramatta a 2nd drug court would be established in Toronto, NSW. The cited reason was recent evidence of effectiveness (17 Jun). Opposition leader Barry O’Farrell said he remained “concerned” that the Medically Supervised Injecting Centre.</td>
<td>Substance Abuse Intelligence Desk targeted cannabis and amphetamine trafficking on major routes and highways entering and exiting the Northern Territory. Review of the Alcohol and Other Drug Service Components of the Northern Territory Emergency Response - Final Report released. This noted that while the Northern Territory Intervention (introduced 21 June 2007) expanded some AOD services due to fears that it would lead to more demand for AOD detoxification/services, there were a number of problems with the process. Key problems included: The absence of involvement of the NGO sector in the discussions. For example, while the AOD Working Group (established in Nov 2007) was consulted this did not include representation from this sector. Swift timelines led to some poor decision making which was not in the best interest of the NT AOD services e.g. emphasis upon expansion rather than capacity of organisations. Recommended: The operation of an independent peak body be funded for all AOD programs in the NT regardless of the nature of the organisation in which they operate.</td>
<td>Crime and Misconduct Commission enquiry into claims Gold Coast police officers have been involved with organised crime gangs, including outlaw bikies, importing drugs and dealing them through big Gold Coast nightclubs (Feb). Crime and Misconduct Commission Report released “Illicit drug markets in Queensland: A strategic assessment.” Report identified that methyl-amphetamine continued to pose the highest risk to the Qld community, but was likely to pose a decreasing risk in the future due to law enforcement activities. But, the risk of two drugs was deemed to be increasing: cocaine due to increased supply/use and ecstasy due to changes in patterns of use namely use of multiple tablets in a session (Feb). Queensland’s chief health officer, Dr Jeannette Young, announced that doctors had to be more careful when prescribing drugs containing pseudoephedrine (PSE), which could be used in the production of illicit amphetamines. Data from pharmacy audits, data from the Pharmacy Guild of Australia and information from the Queensland Police Service State Drug Investigation Unit had indicated increased repeat and bulk prescriptions (Apr). Criminal Organisation Act 2009 commenced. Act seeks to increase Qld police powers to disrupt &amp; restrict the activities of organisations involved in serious criminal activities</td>

<td>2000 to 27% in 2010 (Sep 14).</td>
<td>Supervised Injecting Centre had &quot;not met its goal of providing a pathway for users to access services to end their addiction&quot; and he wanted proof that the centre was helping to end addiction before he would consider calls for the centre to be made permanent (16 Jun). The Greens candidate for the federal seat of Wentworth, Matthew Robertson called on the NSW Government and Opposition to end the trial period for the Kings Cross Medically Supervised Injecting Centre (MSIC) and make it permanent (27 Jun). BOCSAR released new report: &quot;Trends in property and illicit drug crime around the Medically Supervised Injecting Centre in Kings Cross: An update.&quot; Report concluded there was no evidence that the MSIC had caused a negative impact on robbery, property crime or drug offences in Kings Cross (Sep). KPMG evaluation of the Medically Supervised Injecting Centre (MSIC) from 2007-2010 released. Core findings were that since introduction MSIC had received approximately 70,000 visits per year and: • managed 3,426 overdose events with no deaths onsite; • provided a gateway to drug treatment and other services, with 8,508 referrals (3,871 to drug treatment) since commencement; &amp; • reduced problems with public injecting, as evidenced by a decrease in reported sightings of public injecting from 55% in 2000 to 27% in 2010 (Sep 14). Drug Misuse and Trafficking Amendment (Medically Supervised Injecting Centre) Bill 2010 adopted. This removed the trial status of the Kings Cross Medically Supervised Injecting Centre, thereby enabling the centre that had been operating since May 2001, to become a permanent fixture. The bill was adopted with 22 votes of support and 15 against (4 Nov). NSW Director of Public Prosecutions Nick Cowdery QC, who is set to retire in March 2011, released his own legislative agenda that included decriminalising drug use, possession and small-scale trafficking. He said that the current approach to illicit drugs activity. The Act enables the Police Commissioner to apply to the Supreme Court to declare an organisation a 'criminal organisation' for a 5 year period; to enact control orders against individual members, such as preventing association with any member of a 'criminal organisation'; to provide for public safety and fortification removal orders; and to create a new offence of contravening a control order, which carries a maximum penalty of 3 years’ jail for the first offence &amp; 5 years' jail for subsequent offences (15 Apr). Operation Warrior, the largest organised crime investigation in the Crime and Misconduct Commission’s history detected a national poly-drug syndicate (methamphetamine, ecstasy and cannabis) linked to outlaw motorcycle gangs that crossed south-east Queensland, North Queensland, Sydney and Melbourne. Large quantities of drugs were also seized including 3544 ecstasy tablets and 25 litres of precursor GBL (capable of producing 60 litres of GHB) (May). Inquiry into addressing cannabis-related harm in Queensland received public submissions and held public inquiries. Chief Justice of Queensland, Paul de Jersey, addressed the 12th International Criminal Law Congress in Brisbane spoke of the benefits of considering creative solutions to illicit drugs. He commended the Swiss response to the heroin problem, through heroin prescription and provision of supervised injecting rooms, and the Portuguese decriminalisation of illicit drug use (Oct).</td>

<td>NT Government adopted roadside drug testing for cannabis, amphetamines and ecstasy (Feb).</td>
<td>Northern Territory Government announced a “new era in corrections”. Key to this was the development of a new Darwin Correctional Precinct that would include: • an 800 bed Correctional Centre with additional capacity for a further 200 beds; • a 30 bed Secure Mental Health and Behavioural Management Facility (MHBMF); and • a 48 bed Supported Accommodation and Program Centre for community based offenders (Feb). Following an internal departmental review the Opioid Pharmacotherapy Program and withdrawal treatment services introduced a new time effective treatment approach to case management. Under the new approach clients attend an eight-session relapse prevention program followed by a four-session coping skills program. Completion of $4M capital redevelopment of Banyan House. This enabled the centre that was first established in 1978 to be converted into a modern residential rehabilitation centre. New arrangements to support withdrawal service options introduced in Alice Springs. These arrangements were based on a partnership between Drug and Alcohol Services Association (DASA) and Alcohol and Other Drugs Services Central Australia (ADSCA) in the aim of streamlining referral pathways, enhancing medical supervision and support and assisting clients to access services they need.</td>

<td>Operations) Act 2008 (18 Aug). ACT Medicines, Poisons and Therapeutic Goods Act 2007 was passed. The act consolidated four acts and regulations on medicines, poisons and prohibited substances. The act repealed the Poisons and Drugs Act 1978, the Poisons Act 1993, the Public Health (Prohibited Drugs) Act 1957 and amended the Drugs of Dependence Act 1989 to provide a more unified and workable scheme (Aug). ACT Government released its Draft Mental Health Services Plan 2008 – 2013 for public consultation (Sep). Alcohol and Drug Foundation ACT Inc (ADFACT) announced its intention to operate - in partnership with ACT Corrective Services and ACT Corrections Health – a therapeutic community in Canberra’s new prison Alexander Maconochie Centre (Dec). ACT Comorbidity Strategic Working Group was established with the assistance of funding provided by the Australian Government Department of Health and Ageing National Comorbidity Project’s Improved Services Initiative.</td>
<td>the trial status was a barrier to its effective practice and meant it remained a political football (Jul). NSW Police run series of forums on ice, targeting children aged 12-18. The series aimed to reduce reported use amongst teenagers, change perceptions that use was glamorous and tell parents about the signs their child was using (Aug). The Mental Health and Drug and Alcohol Office commenced discussions with stakeholders regarding the Opioid Treatment Strategic Plan 2010–2015 (Aug). 2nd BOCSAR report on trends in property and illicit drug-related crime in Kings Cross released. Report showed very little difference in the incidence of robbery and property crime in Kings Cross versus the rest of Sydney with both having declined. There were differences in regards to use/possess offences, with less heroin use/possess and deal/traffic offences but more cocaine use/possess offences in Kings Cross (cfed to Sydney). But spatial analysis was unable to conclude whether this was due to the MSIC or other factors associated with Kings Cross (Sep). First women charged in NSW with large-scale supply of Oxycodone, the prescription drug known as “hillbilly heroin” (Sep). Two children were taken into foster care after the NSW Department of Community Services (DOCS) reported concerns over their parents’ use of cannabis. This followed demands by DOCS that the parents remain “drug free” and provide random urine samples (Sep). A re-evaluation of the cost-effectiveness of the NSW Drug Court showed the cost of the Drug Court was estimated to be $32.752 million ($16.376 million per annum). The cost of conventional sanctions was $36.268 million ($18.134 million per annum) which meant the drug court gave a net saving of $1.758 million per annum (Sep). Media reports asserted NSW doctors were being pressured into wrongfully prescribing Oxycodone, a drug that was later being sold on the streets for profit (Oct). Second evaluation of the NSW Drug Court released. The study concluded that</td>

<td>2007</td>
<td>ACT Draft Adult Corrections Health Services Plan 2007-2010 released. Noted that needle syringe exchange should be considered and ACT Health planned to consider the merits of a trial in the Alexander Maconochie Centre (Jul). ACT drug user group - Canberra Alliance for Harm Minimisation and Advocacy (CAHMA) – re-opened (Jul). ACT Corrective Services Drug, Alcohol and Tobacco Strategy 2006 - 2008 adopted. Strategy aimed for harm minimisation, demand reduction and effective clinical management for substance misusers (Sep).</td>
<td>Offenders who attended the drug court were 17% less likely to be reconvicted for any offence and 30% less likely to be reconvicted for a violent offence than drug dependent offenders sentenced to imprisonment through the traditional court. The program was also proven to save $2 million a year when compared to the traditional response (Nov). Outcry over a brochure titled “A users guide to speed” was displayed to year 8 students attending a NSW sponsored community information day (Nov).</td>
<td>Substance Abuse Committee formed to provide strategic advice (Jun). Northern Territory Intervention adopted. Included widespread alcohol restrictions, increased policing, medical examinations of all Indigenous children and reforms to welfare system (Jun). Legislation for Northern Territory Intervention passed - Northern Territory National Emergency Response Bill 2007 (Aug). The NT incorporated PSYCHECK into its clinical practice to improve screening and brief intervention for high prevalence mental health disorders in alcohol and other drug services. Establishment of an AOD Working Group (Nov).</td>
<td>Queensland Police commenced random roadside drug testing for cannabis, amphetamines and ecstasy (Dec). Amendments to the Drugs Misuse Regulation 1987 the it illegal to publish or possess documents containing instructions about the manufacturing or illicit drugs (punishable with up to 25 years imprisonment) and supply any items for illicit drug use (punishable with up to 15 years imprisonment) (??). The Ice Breaker Strategy Taskforce completed its report to the Qld Government. Key recommendations included a targeted young adult illicit drug campaign, legislation banning the retail display and supply of ice pipes, a 3-year pilot study at 2 hospital emergency departments for ATS responses and expansion of Alcohol and Drug Adolescent Withdrawal Service outreach services (Jun).</td>
</tr>
</tbody>
</table>

20 year old Annabel Catt died after attending a Good Vibrations dance party and taking what she thought was ecstasy. The tablet was later proved to contain PMA (Feb). NSW Police commenced a pilot of Random Drug Driving Testing with roadside saliva testing for cannabis, amphetamines and ecstasy (Jan). Drug and Alcohol Plan 2006-2010 adopted (Mar). MSIC interim evaluation report no. 3 on client referral and health issues released (Mar). MSIC interim evaluation report no. 4 on service operation and overdose-related events released (Jun). Medically Supervised Injecting Centre trial continued 2007-2011 (Jul). Evaluation of NSW Cannabis Clinics showed that on average 31% clients experienced a reduction in their cannabis use and 42% were abstinent upon treatment completion. Key elements of effective service delivery were that cannabis clinics were marketed & promoted as separate, discrete services for problematic cannabis use and that clinics were located in generic facilities, rather than in identifiable D&A services. The report identified that access to cannabis clinic services was limited by factors such as geographical location, proximity to transport and hours of operation. Evaluators argued there was scope for alternative models of service delivery (Jul). NSW Hepatitis C Strategy 2007-2009 adopted. | |

|      | community attitudes towards the service released (Mar). MSIC reported that pharmaceutical opioids had become the most commonly injected drug category, used for 40% all injecting episodes (Apr). Amendments to the Drug Misuse and Trafficking Act 1985 (NSW) banned the sale, supply and display or water and ice pipes and made them punishable with $2200 and/or 2 years imprisonment (May). NSW Ombudsmen report released: Review of the Police Powers (Drug Detection Dogs) Act 2001. This reviewed use of the drug detection dogs over their first two years of operation. Key findings:  
- Prohibited drugs were only located in 26% of the searches following an indication.  
- Only 1.38% of all indications involved a prescribed ‘deemed supply’ quantity of a prohibited drug.  
- No evidence that the use of drug detection dogs disrupted low-level street dealing in a sustained manner.  
- No evidence of a deterrent effect on drug users. Review concluded: Despite the best efforts of police officers, the use of drug detection dogs has proven to be an ineffective tool for detecting drug dealers and that there should be a review of whether the legislation should be retained (Oct). Stimulant Treatment Program (STP) commenced in Darlinghurst and Newcastle to provide clinical interventions for people with co-morbid mental health and stimulant drug-related problems (Nov). Prisoner at the NSW Corrective Services complex in Surry Hills – Gary Kelso – died after failing to receive medical attention while in heroin withdrawal (Nov).  
1st BOCSAR report on trends in property and illicit drug-related crime in Kings Cross released. Report showed similar patterns of theft and property offences in Kings Cross and broader Sydney (both declining) and similar trends for most use/possess and dealing/trafficking offences. Report development and implementation of a Queensland Government’s Ice-Breaker Strategy to reduce uptake, use and harms associated with methamphetamine use (Dec). Queensland Corrective Services Drug Strategy adopted. Strategy enshrined “a zero-tolerance approach to drug use within a context of harm minimization” and included  
- supply reduction initiatives e.g. drug testing, staff searches, and use of drug detection dogs and ionscan devices  
- demand reduction initiatives e.g. provision of range of treatment options plus drug treatment units and a Drug Free Incentive Program (DFIP)  
- harm reduction initiatives e.g. pharmacotherapy maintenance treatment for eligible short term offenders and peer education on the harms associated with drug use, their effects and issues concerning overdose and unsafe injecting practices. |

| 1997 | ACT Government formally sought and obtained support at the MCDS meeting for a heroin trial (Jul)  
Commonwealth Government declined to authorise importation of heroin to support the trial (Aug)  
Canberra Injectors Network, CIN – established by drug users with aim of providing peer-based education. | Four Corners report on the Cabramatta outlined its decline from being a multicultural melting pot to the heroin capital of Australia, as evidenced by the highly visible street dealing and use. Four Corners argued that in spite of five years of police efforts the drug trade had flourished, bringing with it violence, death and police corruption (Apr).  
Woods Royal Commission report concluded that a war on drugs approach contributed towards police corruption. Recommended increased attention to alternate approaches – increased focus on harm minimisation strategies, increasing public education, expanding methadone availability and establishing a supervised injecting facility (May).  
Legislative Council’s Standing Committee on Social Issues was asked to inquire into Hepatitis C (HCV) and its implications for the community (May).  
NSW Police officers Rodney Podesta and Anthony Di Lorenzo shot dead a mentally disturbed man, Ron Levi. Both police officers were later found to be cocaine users, who regularly partied before work. This led to public outcry since neither officer was drug tested at the time of the shooting (Jun).  
NSW Parliamentary Joint Select Committee established to consider feasibility of a trial of a supervised injecting facility (Jul).  
Several news articles appeared citing New South Wales Health Minister Andrew Refshauge’s claim that St Vincent’s Hospital in Sydney received approximately five people a day being treated for GHB overdoses (Nov).  
A Drug Intervention Service (DISC) was established in Cabramatta to provide a needle syringe program and counseling service to resident and visiting drug users.  
Cabramatta police began saturation policing in efforts to disrupt and displace the burgeoning heroin market. | Introduction of mandatory sentencing in NT for minor offences |  |
| 1996 | Heroin Pilot Task Force recommended that a trial proceed (Jan) | Illicit Drug Reporting System (IDRS) commenced in NSW, collecting data on illicit drug market trends | Cannabis expiation scheme introduced | Party drug “Fantasy” or “GHB” hit front page news after a mass overdose at a Broadbeach venue in the Gold Coast put eight people on life-support systems (Oct). |
| 1995 | NCEPH/AIC team released report | First ecstasy-related death reported – 15 |  | Second Queensland Drug Strategy released |

<th>Western Australia</th>
</tr>
</thead>
<tbody>
<tr>
<td>2016</td>
<td>The SA Government issued a public health warning following spate of heroin-related overdose deaths: 10 deaths, 8 of which were due to heroin alone and two to heroin and fentanyl (Aug).</td>
<td>The Minister for Corrections, Dr Vanessa Goodwin, launched ‘Breaking the Cycle- A Safer Community: Strategies for Improving the Throughcare for Offenders 2016-2020’. Key goals in relation to AOD were: • to increase access to withdrawal, drug treatment and abstinence units; &amp; • to implement a Tasmanian Prison Service Drug and Alcohol Strategy (Aug).</td>
<td>Access to Medicinal Cannabis Act 2016 adopted. This included a state-based scheme to allow the lawful cultivation and manufacture of medicinal cannabis products for use by a limited cohort of patients with particular medical conditions and symptoms (to be prescribed in regulation at a later date). Children with severe intractable epilepsy will be given the first access to medicinal cannabis products in early 2017 (26 Apr).</td>
<td>WA Government announced a new 2016 “Western Australian Meth Strategy”. Key steps include: • Additional funding and support to expand the WA Police meth teams to target methamphetamine supply; • 52 extra dedicated rehabilitation spaces for methamphetamine; • A pilot specialist meth clinic to provide rapid assessment, early intervention and treatment including outpatient withdrawal within the Next Step Drug and Alcohol Service in East Perth, &amp; • Proposed legislation for involuntary drug treatment (May).</td>
</tr>
<tr>
<td></td>
<td>Criminal Assets Confiscation (Prescribed Drug Offenders) Amendment Act 2016 adopted. The act, the declared drug trafficker law, targets repeat offenders and allows for the confiscation of all assets of a declared drug trafficker’s property, whether or not established as lawfully acquired and whether or not there is any proof about the property. Assets and property can be restrained pending prosecution of matters before the court. A dealer will be declared a prescribed drug offender if found guilty of three indictable drug offences over ten years – excluding time in jail – or found guilty of one offence involving trafficking a commercial quantity e.g. 500g of amphetamine or 2.5kg of cannabis. Confiscated assets will be paid into a Rehabilitation Fund and used to fund programs and facilities for the benefit of victims, offenders and other crime-prevention initiatives (Aug).</td>
<td>Premier Will Hodgman and the Minister for Health Michael Ferguson announced that specialist medical practitioners would be able to prescribe medicinal cannabis for people with serious or chronic illnesses in Tasmania from 2017, via a Controlled Access Scheme (CAS). Key details of the scheme: • There will be no limit on diseases treatable; • The laws on cannabis use will not be changed; but the CAS will allow access to medical cannabis products grown lawfully under Commonwealth licences; • Access will be limited to specialist medical practitioners: not all general practitioners. It will thus limit access to treatment of complex medical conditions where the patient is under the care of a medical specialist; • Expert panel will assess applications from doctors; &amp; • Government will work with business to produce products locally (Aug).</td>
<td>Victorian Government announced a new funding package ($28.5 million) to support the roll out of medical cannabis including: • the establishment of an Office of Medicinal Cannabis to oversee manufacturing and all clinical aspects of the medicinal cannabis framework and an Independent Medical Advisory Committee; • a new medical cannabis cultivation trial, and further product development and the development of clinical, public and manufacturing guidance material • research grants to build the evidence base for medicinal cannabis; &amp; • the establishment of a hardship fund to help make medicinal cannabis more affordable for parents doing it tough (Apr).</td>
<td>Wastewater analysis of methamphetamine levels in Perth, Bunbury and Geraldton showed that about 1.6 kilograms of methamphetamine was being consumed in the metropolitan area each week, or 1.6 tonnes annually. It further showed levels were highest in Bunbury: with levels that were double that seen in Perth and Geraldton (Oct).</td>
</tr>
<tr>
<td></td>
<td>SA Police figures showed that 5569 drivers returned a positive drug test 2015-16 in SA – almost as many as the 5817 caught over the 0.05 blood-alcohol limit, and that since 2010-11, drug-driving detections have more than tripled from 1832, while the number of positive alcohol tests has almost halved – almost as many as the 5817 caught over the 0.05 blood-alcohol limit, and that since 2010-11, drug-driving detections have more than tripled from 1832, while the number of positive alcohol tests has almost halved during the same year (Oct).</td>
<td>SA Police figures showed that 5569 drivers returned a positive drug test 2015-16 in SA – almost as many as the 5817 caught over the 0.05 blood-alcohol limit, and that since 2010-11, drug-driving detections have more than tripled from 1832, while the number of positive alcohol tests has almost halved – almost as many as the 5817 caught over the 0.05 blood-alcohol limit, and that since 2010-11, drug-driving detections have more than tripled from 1832, while the number of positive alcohol tests has almost halved during the same year (Oct).</td>
<td>Independent Medical Advisory Committee on Medicinal Cannabis (the Committee) established, chaired by Professor James Alexander Angus AO, to advise on matters including product availability (which medicinal cannabis products should be approved medicinal cannabis products), patient eligibility and other clinical matters (Oct).</td>
<td>Misuse of Drugs Amendment (Search Powers) Act 2016 adopted, enabling new search powers to target known drug transit routes in rural/regional areas. Specifically it gives police powers to declare a designated area of up to 5 square kilometres a “a drug detection area” if there reasonable grounds to suspect that the area is being used or is likely to be used for the transportation of prohibited drugs, prohibited plants or controlled precursors and to conduct a search of trucks and vehicles in that area for a period of up to 14 days (Nov).</td>
</tr>
</tbody>
</table>
|      | SA Road Safety Minister Peter Malinauskas announced tough new laws will be introduced for drug driving: including for a first offence a automatic driver’s licence suspension of three or six months (instead of the current penalty excludes license suspension for a first offence), a minimum of 12 months suspension for a second offence and a minimum of 24 months suspension for a third offence (Dec). | Tasmanian Police argued that the popularity of ‘ice’ / methamphetamine has fuelled an explosion in demand for the drug in Tasmania. This is driven by the absence of local manufacture of the drug (Sep). | 2016-17 Victorian State Budget provided a $57.6 million in new funds to respond to ice and other drugs included: • $5.5 million for further training and support for frontline workers; & • $6 million for a new alcohol and other drugs residential rehabilitation service in the year (Oct). | The WA Government announced that from 1 November 2016 it will be legal for medical cannabis to be grown in WA and for a doctor to prescribe, and a pharmacist to dispense, medicinal cannabis. This is in line with new Cth laws enabling access to medical cannabis, via the Narcotic Drugs

<td>2015</td>
<td>19-year-old Stefan Woodward fatally overdosed, following collapsing at the Stereosonic music festival in Adelaide, and 22 others were hospitalised for AOD issues (Nov). Senator Nick Xenophon called for an inquest into deaths at Stereosonic music festival (including that in NSW and that in SA): including the responsibility of the organisers, the role of police and health professionals and also any warnings that should have been given (Dec). SA Health Minister Jack Snelling announced new measures may be introduced at music festivals in a bid to prevent further drug-related deaths: including mandatory warnings over public address systems about the dangers of illicit drugs at such festivals on days of extreme heat, and better drug education campaigns. But he ruled out pill testing as this could send the wrong message (Dec).</td>

<td>2014</td>
<td>South Australian police detect largest known drug lab in state. The lab detected in Walker Flats included an industrial pill press, 60L chemicals and over 100,000 ecstasy pills worth approximately $30m (Feb). SA Labor party re-elected with support of Independent MP Geoff Brock (Mar).</td>
<td>Tasmania elected a Liberal majority Government, following Labor Party rule for a period of 16 years. Key policy platforms: • To abolish suspended sentences, including for serious drug offences; • To break the cycle of youth crime; • To establish a serious and organised crime squad in the Tasmania Police (Mar). Legislative Council Sessional Committee Government Administration commenced a parliamentary inquiry into “Legalized medicinal cannabis”. Terms of reference included focus on: 1) efficacy and safety of natural botanical medicinal cannabis flower and extracted cannabinoids for medical purposes; 2) legal implications and barriers to growing and commercialisation of cannabis flower and extracted cannabinoids in Tasmania; and 3) the potential impact on agricultural or other sectors within Tasmania (Jul). Interim report released on parliamentary inquiry into legalisation of medical cannabis in Tasmania. Key conclusions: • Current legislation does not reflect the reality that a lot of people use cannabis for medical purposes. • The unregulated environment means there is no quality control • Tasmania has the capacity and expertise to extract pure cannabinoids to produce a high quality pharmaceutical product Key recommendations: • The government immediately introduce legislation to protect individuals who use medicinal</td>
<td>Yarra City Council proposed trial of first needle and syringe vending machines in Victoria (Jan). The Victorian Minister for Mental Health, Mary Wooldridge, backed needle syringe vending machine trial in Victoria: saying too many people were sharing syringes &amp; the Government was committed to stopping the spread of blood-borne viruses (Jan). Herald Sun campaigned against vending machines in Victoria: e.g. “Taking a jab in the dark” (Feb). Drugs, Poisons and Controlled Substances Amendment Act 2014 adopted. This extended the meaning of drug of dependence to include analogues of certain drugs, and added to Schedule 11 five classes of synthetic cannabinoids, as well as five specific synthetic cannabinoids and 21 other synthetic substances such as NBOMe, 2-CB and DMAA (Feb). Attorney-General Robert Clark introduced Sentencing Amendment (Baseline Sentences) Bill 2014, to increase baseline/median sentences for a range of indictable offences, including a new median sentence for trafficking in a large commercial quantity of 14 years imprisonment (up from 7 years imprisonment) (Apr). Penington Institute established, led by Professor David Penington (Apr). Turning Point and Ambulance Victoria report showed methamphetamine related ambulance call-outs increased in metropolitan Melbourne from 107 in 2008-09 to 1112 in 2011-12 (May).</td>
<td>WA Police Organised Crime Squad arrested 17 people and seized $20 million worth of drugs and assets following a 10 month investigation into a drug ring operating across WA, SA and NSW. It is alleged the network used a WA based trucking company to transport and distribute cannabis and methylenedioxymethamphetamine into WA (Jan). New prevention guidelines adopted: Alcohol and other Drug Prevention Guidelines 2014 - a guide to support professionals leading in the area of AOD prevention (Feb). Sector peak bodies launched a new ‘Green Book’ directory listing alcohol and other drug, as well as community mental health services (Feb). Alcohol and Drug Authority Amendment Bill 2014 introduced. Aim: amalgamation of the Mental Health Commission and the Western Australian Drug and Alcohol Office, under the new name “Mental Health Commission” (May). An Organised Crime Squad operation led to seizure of more than $8M worth of methamphetamine in a series of raids at Kewdale, Munster and Bibra Lake and arrest of 6 people (May). 33 additional new psychoactive substances were listed in Schedule 9 of the Poisons Act 1964. Included NBOMe &amp; 4-MEC (Jun). A joint operation between the Australian Federal Police, Western Australia Police, the Australian Crime Commission and Australian Customs and Border Protection led to the largest seizure of methamphetamine in WA: 90kg. Six men were also arrested (Oct).</td>

Caitlin Hughes, Drug Policy Modelling Program – Last updated 15 December 2016. For comments email: caitlin.hughes@unsw.edu.au
methamphetamine use had remained stable, but there was a significant rise in the use of potent crystal methamphetamine forms, particularly by youth aged 20-29; Issued 52 recommendations, including:
- a methamphetamine action plan;
- a Ministerial Council on Methamphetamine;
- that any government funded awareness or education campaigns be targeted at current or potential high-risk users;
- development of non-tertiary treatment options to respond to users who are not dependent but are experiencing significant amphetamine-related harm; &
- expanding the Victorian drug court to Melbourne, Geelong, Sunshine and Gippsland (Sep).

Victorian Government launched a range of methamphetamine responses including:
- a multi-media campaign targeting youth "What are you doing on ice?"
- 11 new Passive Alert Detection (PAD) dogs to help detect clandestine laboratories and dealers in regional and metro Vic
- $2.7 million over four years for community skills building forums for families affected by ice
- $1.85 million in funding for harm reduction initiatives (Sep).

New Penington Institute report released, “Impacts of methamphetamine in Victoria: a community assessment”. The report was commissioned by the Victorian Department of Health to analyse trends, undertake key information interviews and collaborate with the University of South Australia to undertake the state’s first waste water analysis of the levels of methamphetamine. The wastewater analysis showed methamphetamine levels were substantially higher in Melbourne than in regional Victoria: something which was counter to some key informant perceptions. Report concluded that the perceived methamphetamine problem may be slightly inflated in regional Victoria, but that the methamphetamine issue was genuinely alarming many people and that response

<td>2013</td>
<td>AIDS Council of South Australia (ACSA) closed following withdrawal of funding from the SA Government. This also led to closure of the SA injecting drug users group – SAVIVE (the South Australian Voice for IV Education) as it was run through ACSA (Jul). South Australian Injectors Network (SAIN) commenced as a new independent unfunded group; commenced with a facebook page but no offices (Jul). OCSAR report shows a 75% increase in recorded drug offences in SA between 2007 and 2011: predominantly supply/production. Contrary to declining trend in offences in rest of state (Sep). Following a two-year investigation into outlaw motorcycle gangs, the South Australian Police has confiscated more than Advocacy Tasmania Inc (ATI) released their Consumer Engagement Program Service Development Plan 2013. The priority areas were: Consumer capacity building – including developing and managing a consumer register detailing consumer contacts and topics of interest; Service provider consultancy – such as developing tools to formally measure effectiveness of the consumer engagement program; Sharing the vision across the sector – such as by providing regular updates of consumer engagement activity across the sector on the ATDC e-news; Support systems-level consumer engagement – including supporting the development of a Tasmanian consumer system, on the whole, were not yet able to cope with the scale of the problem (Sep). Victorian government announced it would roll out waste-water drug-testing statewide (Sep). Syringe vending machines commenced (Oct). Research led by the Burnet Institute showed that crystal methamphetamine in Victoria was becoming increasingly bi-modal: with purity either very high (&gt;70%) or very low (&lt;20%). It also showed decreases in methamphetamine purity-adjusted price. It was conjectured that such changes, and not a perceived increase in the number of users, were contributing to the observed rise in methamphetamine-related harms (Oct). Victorian Labor Government elected under Premier Daniel Andrews (Nov). Premier Daniel Andrews launched an ‘ice taskforce’ with 100 days to develop an action plan to respond to methamphetamine in Victoria and intent to introduce four new offences to tackle methamphetamine production and traffick (Dec). Premier Daniel Andrews announced that the Victorian Law Reform Commission had been asked to submit a report in August 2015 to determine not if, but when and how the laws should change to allow terminally and chronically ill people access to medicinal marijuana (Dec).</td>
<td>New Victorian drug strategy released: “Reducing the alcohol and drug toll. Victoria’s plan 2013 – 2017.” The strategy contained a 15 point plan, including: Better referral of drug users to education and treatment, through expanding existing court-diversion initiatives and building a more systemic approach to diversion provision: by drug, age and population groups Improved harm-reduction services and targeted prevention, through increasing the use and availability of naloxone as an emergency response to opioid overdose Plan also outlined new advisory and decision making arrangements: A ministerial committee An executive group (comprising key stakeholders)</td>
<td>WA Health Promotion Strategic Framework 2012–2016 released (Jan). Amendments to the Misuse of Drugs Act 1981 came into force to introduce a comprehensive definition of drug paraphernalia and new offences concerning the sale and display for sale of drug paraphernalia. This extended the definition of ice pipes or cannabis-smoking paraphernalia to include “anything made or modified to be used in smoking cannabis” and any “device capable of being used for the administration of a prohibited drug by means of the inhaling of the smoke or fumes resulting from the heating or burning of the drug in a crystal, powder, oil or base form.” It also introduced a separate penalty scheme for adults and youth, with more severe penalties where a person sells drug</td>

|      | $150 worth of drugs connected with the Descendants motorcycle gang. Included: 21 kg methamphetamine and 21,000 ecstasy tablets and $120,000 cash (Nov). Liberal opposition substance abuse spokesman Duncan McFetridge announced that if elected they would reduce the amount of cannabis for which a person received only a fine - and is not charged - from 100g to less than 25g (Nov). The Controlled Substances (Offences) Amendment Act 2013 adopted. Made it an offence for a person to manufacture, promote, sell or supply "controlled drug alternatives": substances intended to have pharmacological effects similar to a controlled drug or to be a legal alternative to a controlled drug. Maximum penalties included: $15,000 and/or 4 years imprisonment for manufacturing; $10 000 or imprisonment for 2 years for promoting. Law commenced Feb 2014 (Dec). | Minister for Health released the first specific prevention strategy: "Everybody's Business: A Strategic Framework for Implementing Promotion, Prevention and Early Intervention (PPEI) Approaches in Averting Alcohol, Tobacco and Other Drugs Use." Key rationales included: The neglect of prevention, and of the raft of prevention strategies that could be employed; and The potential cost-effectiveness of prevention (Mar). New Tasmanian drug strategy released: Tasmanian Drug Strategy 2013-2018. Key priorities included: Support preventative and developmental health approaches to alcohol, tobacco & other drugs use; Increase the range and availability of, and access to, appropriate services for individuals experiencing problematic drugs use including for individuals with diverse, complex and high needs; Strengthen evidence-based awareness-raising, education initiatives and early interventions in a range of targeted settings, population groups and developmental transition points (Apr). Department of Health and Human Services released a consultation paper entitled A Continuum of Care to Prevent Youth Offending and Re-Offending (Apr). Report on the Inquiry into alternatives to youth detention released by Commissioner for Children Tasmania. Key recommendations for government: Consider the adoption of a Justice Reinvestment Framework for the youth justice system in Tasmania; & Establish a youth drug and alcohol residential rehabilitation service; Establish the equivalent of Court Mandated Diversion (CMD) options, focused on and applicable to young offenders with illicit drug and/or alcohol problems (Jul). The Tasmanian Parliamentary Inquiry into the hemp industry report and recommendations were released (Oct). | Victorian Government executives from Departments of Health, Justice, Human Services, Education and Victoria Police) An alcohol and drug advisory board (comprising ≤ 12 non-government leaders, experts and stakeholders) Also outlined was a plan to establish an alcohol and drug research and innovation fund with a focus on applied research (Jan). Minister Wooldridge released a new Adult Alcohol and Drug (AOD) Screening and Assessment Tool designed to minimise duplication of screening and assessment, streamline intake, improve clients' experience, and inform treatment planning, referral and pathways. The tool had been successfully piloted at 8 AOD agencies and comprised three steps: (1) a self-complete initial screen by the client, (2) comprehensive assessment, (3) review. The tool will be mandated from 2014 for all Department of Health funded agencies (Feb). Victorian Police Minister Peter Ryan announced new road laws ('cocktail' laws) would be introduced for drivers under the influence of both alcohol and illicit drugs. The minimum penalty for a first offence will be higher than the penalty for either drug or drink driving alone: 20 penalty units ($2800) and a 12 months license suspension (Mar). Victoria Police Assistant Commissioner Andrew Crisp argues there has been too much emphasis upon drugs as a law and order issue and that the Victorian Government should treat drugs as a health issue (Jul). Victorian Government released a report: New directions for alcohol and drug treatment services: A framework for reform. This outlined why the Victorian AOD treatment system is reforming, the vision for the new system and process for reform (Aug). Victorian Coalition Government launches two year naloxone provision and training program: called the Community Overdose Prevention and Education (COPE) program. The program is run by ANEX with key goals to: provide at-risk drug users, family, | First take-home naloxone program established in WA by the Drug and Alcohol Office of WA Health and the WA Substance Users Association (Apr). Social Inclusion Action Research Group (SIARG) launched first position paper: "Reducing stigma and discrimination relating to alcohol and other drugs in Western Australia". The SIARG was formed through a partnership between the WA Drug and Alcohol Office and WANADA with the purpose of planning, implementing and evaluating initiatives aimed at promoting the social inclusion of, and reducing the stigma and discrimination experienced by people with AOD use problems or those affected by someone else's use(Jun). First convictions obtained in WA in connection with Silk Road: two brothers who bought cocaine, ecstasy and cannabis from Silk Road were convicted of possessing drugs (6.8g of cannabis, 0.7g of cocaine and seven ecstasy pills) with intent to sell and supply (Sep). | parapthalamia to a person under 18 years (30 Jan). Preston Bridge, aged 16, died after he fell from a hotel balcony having taken NBOMe (Feb). WA Government announced the Drug and Alcohol Office (DAO) and the Mental Health Commission (MHC) would be joined (Apr).

<td>2012</td>
<td>SA Police commenced raids in Murray Bridge for MDPV and arrested four people (Jan 24). SA Police investigation targeted at MDPV led to seizures of manufacturing equipment and drugs: two encapsulating machines, 10,000 empty capsules, 1250 grams of MDPV, 320g of DMMC, and 300g of Ephedrine (Feb 2). New report released by the Office of Crime and Statistics Research: &quot;The South Australian drug court: A recidivism study&quot;. The incidence, frequency and severity of re-apprehension was analysed for all drug court participants over a five year period (Jan 2004-Dec 2008), and compared amongst three groups: completers, terminates and a sample of prisoners generated by the Department of Correctional Services. Completers performed better than the other samples in terms of reduced incidence of and longer time to re-apprehension, but there were no significant differences in terms of the overall frequency of apprehension (May). New report from OCSAR: &quot;Ten years of the South Australian Police Drug Diversion Initiative – Data Analysis Report.&quot; Key</td>
<td>Tasmania adopted into law the new Poisons Standard (SUSMP) under the Therapeutic Goods Act 1989, including the prohibition of MDPV: Poisons (Adoption of Uniform Standard) Order 2012 (Jun). The Alcohol and Drug Service implemented iPatient Manager (iPM), to improve the management of information for clinicians (Jul). Minister for Health, Michelle O’Byrne released &quot;A Review of Opioid Prescribing in Tasmania - A Blueprint for the Future&quot; (Jul). Minister for Health, Michelle O’Byrne released the &quot;Tasmanian Opioid Pharmacotherapy Program, Policy and Clinical Practice Standards&quot; (Aug). Discussion paper released: Review of the Tasmanian Alcohol and Drug Dependency Act (ADDA) 1968. This sought to critically evaluate the ongoing suitability of the ADDA and to identify a potential way forward, including retaining but amending ADDA or repeal and move parts of ADDA to existing legislation (Sep). The Promotion, Prevention and Early</td>
<td>Bans on cannabis bongs entered into force (Jan 1). Community Correction Order (CCO) introduced, replacing the Community Based Orders, Intensive Correction Orders and Combined Custody and Treatment Orders. The CCO is a flexible order served in the community. All those sentenced to a CCO must abide by basic conditions such as not reoffending and at least one other optional condition e.g. undertaking AOD treatment, remain free of drugs and alcohol, be supervised, abide by curfews, undertake unpaid community work (Jan 16). Minister for Youth Affairs, Ryan Smith, launched the Victorian Government’s Youth Statement, Engage, Involve, Create. This sought to increase opportunities to engage young people in education and/or employment and to build mentorship, links and partnerships between business and philanthropy with young Victorians (Apr). Victorian Police Assistant Commissioner Stephen Fontana highlighted the frustrations of policing illicit drug use at music festivals and raves. Following the arrest of 200</td>
<td>WA Police issued a warning about a new drug: MDPV (3,4 methylenedioxypyrovalerone). They noted that “the substance has been linked to an increase in drug induced casualties in hospitals in the eastern states, including reported fatal overdoses in South Australia and Victoria” (Jan 12). New ‘synthetic drug’ MDPV (3,4 methylenedioxypyrovalerone) was added to Schedule 9 (Prohibited Substances) of the Poisons Act 1964 (WA), making it illegal from Feb 10. MDPV is structurally related to cathinone or MDMA and has effects including anxiety, paranoia, acute cardiovascular and central nervous system toxicity (Feb 8). WA Night Venues and Entertainment Events Project (NVEEP) coordinated by the Drug and Alcohol Office launched a new campaign: “Stimulants can mask how drunk you really are” (Feb). Brochures on the WA AOD treatment services were translated into 13 different languages: Arabic, Dari, English, French, Indonesian, Italian, Karen, Kirundi, Somali, Vietnamese, Chinese, Swahili, and Dinka.</td>

|      | pilot program commenced: an 18 month pilot (Nov). | Consequently the review noted there remains some considerable work to be undertaken to fully implement the plan but the significant capacity improvements in the sector will be lost unless ongoing funding is secured (Dec). | reforms include:  
- Person-centred, family and culturally inclusive, recovery-oriented treatment – that involves clients in treatment planning and identifies goals, strengths and weaknesses and tailors services to fit needs;  
- Integrated pathways – that connect individuals with services to address health, social or economic needs;  
- Intervention at the earliest possible point;  
- (Multiple) bridges to treatment – from the multiple NSPs and primary health centres funded throughout Victoria and improved screening of forensic AOD clients.  
Key actions in 2012 include piloting common screening and assessment tools across 5 treatment sites; the redevelopment of the pharmacotherapy system; and expansion of access to NSPs and counselling services in growth corridors and regional areas (Jun).  
2012-13 State Budget allocated funding for a new 500-bed medium-security male prison, to be located at Ravenhall in Melbourne’s north-west, and an additional 395 permanent beds at existing prisons across Victoria (Jun).  
Victoria police charged two prison officers in connection with an alleged drug ring at the Barwon prison (Jul).  
The Victorian Opposition called for an inquiry into drug trafficking in the state’s prison system (Jul).  
The Department of Health commenced consultations across Victoria about the AOD treatment reform. Organisations including the Victorian Alcohol and Other Drug Association (VAADA) and the Association of Participating Service Users (APSU) were used to support and co-facilitate input (Jul-Aug).  
The Youth Cohort Study: Young people’s pathways through AOD treatment services. Study recruited 150 young people using AOD treatment services (aged 16-21 years) was completed (Aug).  
Roundtable on fentanyl convened by ANEX in Wodonga after a surge in overdoses amongst drug users injecting the opiate | long term recovery outcomes for people exiting alcohol and other drug residential treatment programs and their families.  
- $1.04 million in 2013/14 to continue funding the Australian Medical Procedures Research Foundation’s Fresh Start Recovery Program, while work is progressed to achieve registration of the naltrexone implant with the Therapeutic Goods Administration (May).  
The Department continued to expand its prison capacity to meet the growing demand in 2011-12. Recently completed and current construction forms part of the largest building program to be undertaken in WA corrections history, including a prison specifically designed for Indigenous prisoners.  
The Illicit Drug Support Plan 2012 – 2015, a supporting document to the Drug and Alcohol Interagency Strategic Framework for Western Australia 2011-2015, was released.  
This outlines the priority areas and strategies for the coming years. The priority areas:  
- Cannabis and synthetic cannabinoids.  
- Amphetamines and ATS (inc ecstasy).  
- Heroin and other opioids.  
Other focus areas include:  
- Poly drug use.  
- Other prescription drugs.  
- Emerging drugs.  
- Transmission of blood-borne viruses (Sep).  
Two brothers were charged with possession with intent to sell after being caught with multiple packages of cannabis and ecstasy purchased through the online marketplace Silk Road (Sep).  
The West Kimberley Regional Prison was opened by Corrective Services Minister Murray Cowper. Informed and overseen by Indigenous people this was specifically designed to be culturally sensitive to Indigenous offenders, using for example self-care units to enable grouping on the basis of family ties or language (Nov).  
The Mental Health Bill 2012 was tabled in Parliament (Nov).

</tr>
</tbody>
</table>

Victorian Alcohol and Other Drug Treatment Principles Consultation paper released (Sep).

The Australian Medical Association and the Australian Greens call for a safe injecting facility in Melbourne (Oct).

Amendments to Schedule 11 of the Drugs, Poisons and Controlled Substances Act 1981 added eight synthetic cannabinoids and five synthetic stimulants (including MDPV, 4-MMC/mephedrone and BZP) permanently to the list of prohibited substances. The 8 synthetic cannabinoids were previously subject to a temporary 12 month ban (Nov 8).

Victoria Police undertook a two month operation (Operation TAXA) focused on short term disruption of commercial scale cannabis cultivation. Led to the execution of 48 search warrants, 20 arrests and the seizure of almost 7,000 cannabis plants as well as associated equipment. The operation received significant media attention in Victoria (Aug-Oct).

Report from the Victorian Auditor General released: "Prison Capacity Planning". Key findings:
- A 38% increase in prisoner numbers over the past decade (2002-2012) and a heavy reliance on temporary beds has resulted in the existing prison infrastructure nearing its capacity limits.
- Male prisoners are more affected: since May 2011, the male prison system has been operating close to or above 95% utilisation.
- Overcrowding is leading to adverse effects on other parts of the CJS e.g. increasing prisoners are held in police cells.
- Prisoner support programs and health services have not kept pace with the growth in prisoner numbers (due largely to a lack of funds).
- The rate of serious incidents per prisoner e.g. assaults and self-

| 2011 | Announcement that from 1 July SA pharmacies would switch from voluntary to mandatory real-time online reporting of pseudoephedrine sales. Switch followed concern over pharmaceutical shopping & recognition only 60% pharmacies reported sales (Mar). New wastewater study released: “Population drug use in Australia: A wastewater analysis” A study of 15 sewage treatment plants showed temporal and regional differences in illicit drug use in South Australia: MDMA was much more commonly detected in regional centres such as Port Lincoln & Port Augusta, than the city (Apr). SA announced a ban on the possession, sale or intent to supply of seventeen synthetic cannabinoids including Kronic, Spice, Kaos Voodoo, Mango and Northern Lights. Ban was introduced by Government Gazette (Controlled Substances (Prohibition of Synthetic Cannabis) Notice 2011), pending evaluation of their harmful properties by the Controlled Substances Advisory Council and consideration of whether the substances be added to the Controlled Substances Act (Jun 17). The Controlled Substances Advisory Council evaluated the harmful properties of synthetic cannabinoids. The council ruled that the harmful effects were similar to those of cannabis and hence supported their inclusion in the Controlled Substances (General) Regulations 2000 (using the same threshold quantities as for cannabis). This came into effect 23 Jun (Jun 21). The Controlled Substances Advisory Council also made three other rulings: To ban the ‘synthetic MDMA-like substances’ 3,4 New discussion paper released: "Everybody’s business – A discussion paper for the development of the Alcohol, Tobacco and Other Drugs (ATODs) Promotion, Prevention and Early Intervention (PPEI) Strategic Framework" with 6 weeks for public input. Key messages: Substance use must be understood within the context of many factors – cultural, socioeconomic and political – that can be influenced by government decisions. Government policy responses in relation to alcohol, tobacco and other drugs have traditionally focused upon individual factors. This needs to be broadened. Socially inclusive communities and resilient individuals and families are less likely to engage in harmful substance use. Potential strategies identified: Develop a model/s for cross-sector collaboration to support social inclusion. Support and advance the actions identified in the National Health Preventative Strategy. Develop a mechanism to ensure that all government policy with an impact upon substance use and misuse – e.g. social inclusion, housing,– is informed by an understanding of their potential influence on the substance use (i.e. some form of alcohol, tobacco and other drug impact assessment) (May). Launch of statewide Drug Education Network's resource centre and website. Website sought to fill need for internet and 24 hour information provision (Jun). The Minister for Health approved an Severe Substance Dependence Treatment Act came into effect, thereby enabling involuntary drug treatment and detention for up to 14 days, where this is necessary as a matter of urgency to save the person's life or prevent serious damage to the person's health (Mar). New report released by the Victorian Auditor-General: "Managing Drug and Alcohol Prevention and Treatment Services", Report noted that the state allocated $135.7 million for AOD prevention and treatment activities in 2010–11 (81% for treatment & 19% for prevention activities). Key findings: The department has no assurance that objectives are being achieved. Treatment services remain difficult for clients to access and navigate. 31 internal reviews have been conducted since 1999. But few have been acted on. The poor track record has resulted in scepticism among service providers. Key recommendations: Implement a whole-of-government AOD prevention strategy Address the fragmentation and inconsistency of service provision. Revise the treatment service mix so that services funded align with need (Mar). Sentencing Further Amendment Act 2011 adopted. This extended the abolition of suspended sentences to a range of ‘significant offences’ including trafficking in a large commercial quantity of a drug of dependence and trafficking in a commercial quantity of a drug of dependence (Apr). GHB overdose victim videoed by Herald Sun at 11am on a Sunday morning, drawing new Mental Health Minister Helen Morton announced that an additional $1.5 million would be provided to support the work of Dr George O’Neill’s Fresh Start Recovery Programme until June 30 2012. They also announced that independent researchers have been contracted by the State Government through DAO to assess steps needed to process the application for registration of naltrexone implant treatment with the TGA (Mar). Explosion of a clandestine drug laboratory at a public housing unit, that injured five adults sparked public concern (Mar). Police Minister Rob Johnson announced the government would crack down on drug manufacturers who expose children at risk (Mar). WA Police Serious Organised Crime Strategy 2011-2014 adopted (Apr). WA Police announced they had cracked a major drug syndicate that had been using the interstate road freight transport industry to traffic cannabis from South Australian to Western Australia. The operation conducted with SA Police, Kalgoorlie police and Australian Customs and Border Protection led to the seizure of 29 kg of cannabis, $25,000 and arrest of three truckies and a Gypsy Jokers bikie gang associate (Apr). Increased media attention to synthetic cannabinoids, such as Kronic, following revelations in The Western Australian of widespread use, especially at mining sites: “One in ten miners uses legal high”. Key evidence put forward was the finding by the WA government drug testing centre, ChemCentre, that of 80 recent tests of WA...

2011-2016 | methylenedioxyxypyrvalerone (MDPV) and methcathinone;  
• To make prescribed thresholds quantities for all new MDMA-like substances consistent with the existing MDMA (prescribed amounts e.g. trafficable quantity = 2g MDPV;  
• To ban MMDMG - a new precursor for manufacturing MDMA. These came into effect 23 Jun (Jun 21). | extension to the Tasmanian Drug Strategy (TDS) 2005-2009 to the end of 2012 (15 Jun). | attention to GHB use in Melbourne. Paramedics confirmed that Melbourne was the GHB capital, with rates of use increasing in Melbourne but declining elsewhere and that ‘drug’ overdoses are at their highest levels since the heroin epidemic of 1999-2000 (Apr). | mineworkers an average of 10% across all mine sites and up to 30% across some sites tested positive to Kronic. Assertions were made this was in large part because the drugs were seen as safe and were not commonly detectable (May). |
2011 | | | | Attorney General announced the provision of $3.9 million through the Criminal Confiscation Assets Program to local governments and non-profit community groups to re-direct confiscated assets to 28 programs directed at drug use, drug related crime and crime victims (May).
2011 | | | | Drug and Alcohol Interagency Strategic Framework for WA 2011-15 adopted. Five strategic areas were specified:  
• focusing on prevention;  
• intervening before problems become entrenched;  
• effective law enforcement approaches;  
• effective treatment and support services;  
• strengthening coordination and capacity building (May).
2011 | | | | Young man admitted to Royal Perth Hospital post Kronic ingestion with paroxysmal supraventricular tachycardia, an extremely fast heartbeat (Jun). | | | | WA Government became first state to announce ban on the possession, sale or intent to supply of seven synthetic cannabinoids including Kronic, Spice, Kaos Voodoo, Mango and Northern Lights. People were given four days to dispose of any supplies, before the substances were added to the Poisons Act 1964 on Friday, June 17. Ban followed a review of harms of synthetic cannabinoids by the Drug and Alcohol Office, WA Police, Department of Health and the ChemCentre (Jun 13).
2011 | | | | First charge a possession of a synthetic cannabinoid. Man was found in possession of 6 gms of Kronic (21 Jun). | | | | WA Legislative Assembly Education and Health Standing Committee completed their Inquiry into the Adequacy and Appropriateness of Prevention and Treatment Services for Alcohol and Illicit Drug Problems in Western Australia. One of three reports released was titled: “Changing patterns in illicit drug use in Western Australia” (Jun).
not support the proposal by Yarra Council for a medically supervised injecting room in Richmond, saying it would send the wrong message and that improved law enforcement and education were needed instead (May 18).

New measures introduced in efforts to address drug trafficking and use at the Richmond housing estate: four new CCTV cameras were installed and a police command post established (May).

Bill introduced – ‘Drugs, Poisons and Controlled Substances Amendment (Drugs of Dependence) Bill 2011’ – to increase government responsivity to new and emerging ‘legal’ substances such as synthetic cannabinoids. Under the proposal the Governor would have regulation-making power to ban substances that are deemed to pose a significant risk to the health of consumers or public safety, for a 12 month period, until the substances can be proscribed into legislation and Commonwealth regulations (28 Jun).

Development of a whole of government Victorian Alcohol and Drug Strategy commenced. The objectives were to:

• Decrease the current rates of alcohol and other drug abuse in Victoria.
• Reduce the amount of harm that alcohol and other drug abuse causes in the community.
• Increase access to treatment options so that people with an alcohol or drug problem can get help when they need it.

To enable input into the development, a community consultation document was released: ‘Victorian Alcohol and Drug Strategy: Community Consultation’ which led to over 120 written submissions (Aug).

Victorian Government established an independent advisory group to provide expert advice on AOD issues and to inform the development of the new Victorian Alcohol and Drug Strategy. Advisory group included representatives from: Victoria Police, Australian Hotels Association, Master Grocers Australia, The Pharmacy Guild of Australia (Victoria), Victorian Indigenous Youth Advisory Council, Australian Drug Foundation, VAADA, and City of Greater

<td>2010</td>
<td>SA Police Corporate Business plan 2010-2011 adopted. Included the strategy of focussing on possession and use of illicit drugs (Jun). Independent MLC Ann Bressington tabled a new bill. The Controlled Substances (Simple Cannabis Offences) Bill 2010 proposed to reduce the expiable amount under the current Cannabis Expiation Notice Scheme from 100g to 25grams cannabis, in an effort to reduce the potential for dealers to avoid criminal prosecution (Sep).</td>
<td>Amendments to the Road Safety (Alcohol and Drugs) Act 1970 were introduced to increase the penalties for drug driving in Tasmania, in-line with penalties imposed for drink driving offences. Additionally, a person who commits any alcohol or drug driving related offence will be deemed to have committed a subsequent offence, if that person has previously been convicted for either offence (Jan). Southern District Drug Investigation Services (DIS) concluded a major investigation concerning the sale and distribution of amphetamines and cannabis. The investigation resulted in 14 people being charged with trafficking offences, and 13 people being charged with the sale of controlled drugs (Feb). Review of Opioid Prescribing practices in Tasmania commenced. The project seeks to reduce the harm caused through the misuse of pharmaceutical opioids in Tasmania (Aug). New report released: “Tasmanian Drug Strategy (TDS) 2005-2009: Report of actions and achievement,” based on stakeholder consultations with government, local council and community sector</td>
<td>Opposition leader Ted Baillieu said if elected he would ‘ban the bong’ to send a clear message to young people about the harmful effects of cannabis (Jan). Push by a doctor from the Royal Melbourne Hospital's neurology department to trial Sativex - a liquid marijuana-based mouth spray- to ease the symptoms and pain of MS sufferers. Push followed evidence that Sativex could alleviate loss of movement control &amp; pain &amp; imminent regulatory approval in the UK &amp; Spain (Jan). Evidence from the 2008 Drug Use Monitoring in Australian survey of police detainees reported 48% detainees in Footscray tested positive to heroin (compared to a national rate of 11%) (Feb). Supreme Court of Appeal: R v MOMCILOVIC [2010] VSCA 50 found that s 5 of the Drugs, Poisons and Controlled Substances Act 1981 (“the Drugs Act”), was inconsistent with Victoria’s Charter of Human Rights and Responsibilities Act 2006. The court declared that section 5 of the Drugs Act, which declares that an occupier of premises in which drugs are found is deemed to be in possession of those drugs unless he/she ‘satisfies the court to the contrary’, cannot</td>
<td>Reports by the 2008-09 Illicit Drug Data Report that ecstasy pills in Western Australia had become the cheapest in the country – at as little as $17 per pill and that there had been 78 clan lab seizures in WA in 2008-09 - a 160% increase from 2007-08 (Jun). The WA Government announced it was establishing a Mental Health Commission (Feb). WA Police commenced use of passive drug detection dogs at entertainment precincts and train stations. Policy aimed to clamp down on substance abuse in entertainment precincts (Jul). WA Drug and Alcohol Office along with the Road Safety Council and Western Australian Network of Alcohol and Other Drug Agencies launched a new drug driving campaign. This campaign will attempt to combat the high proportion (1 in 3) of those, either driver or rider, who have died in a car accident and tested positive for illicit drugs (Sep). WA Drug and Alcohol Office launched a new advertising campaign as part of the latest phase in the Alcohol Think Again campaign. It targets the belief that getting drunk is acceptable and comes at a time where the</td>

--- | --- | --- | --- | ---
 |  | organisations. Key findings were: | be interpreted consistently with “the presumption of innocence under s 25(1) of the Charter”. In so doing, the Court rejected arguments advanced on behalf of the Attorney-General that the infringement of the presumption of innocence by s 5 of the Drugs Act was a ‘reasonable limit [which] can be demonstrably justified in a free and democratic society.’ But the court upheld the conviction against Momcilovic and concluded that the declaration of inconsistent interpretation under the Charter did not affect the validity of s 5 (Mar).
 |  | • The TDS was deemed an important overarching strategic framework that coordinates Tasmanian activity to alcohol, tobacco & other drugs; | Reports by the 2008-09 Illicit Drug Data Report that the price of cocaine in Victoria had dropped to $20 (May).
 |  | • The aims and priorities of the TDS were considered still relevant; | Victorian Drug & Alcohol Prevention Council released the report, “2009 Victorian Youth Alcohol and Drug Survey” which measured use of and attitudes towards alcohol and drugs among 16-24 year old Victorians. Between 2004 and 2009 self-reported lifetime use of any illicit drug decreased from 51.7% to 41.3% and recent use decreased from 31.4% to 25.6% (May).
 |  | Yet, concerns were raised about: | A public sentencing survey was conducted in response to a Coalition election promise that they would provide Victorians with the opportunity to have direct input into future sentencing. The survey was conducted for one month and used 17 hypothetical case studies including on murder, manslaughter, rape and two categories of drug trafficking. The survey generated a total of 18,562 responses and indicated the harshest sentences were reserved for murder and drug trafficking in a large commercial quantity (Jul-Aug).
 |  | • Limited awareness of the TDS, its significance & relationship to other strategies (especially the NDS & actions emanating from the TDS); | The new bill also makes sale of paraphernalia to a young person subject to a fine of $24,000 and/or 2 years imprisonment and sale of cannabis smoking paraphernalia to adults subject to a fine of up to $10,000 (Oct 14).
 |  | • That the review was being conducted during a very volatile time of national reform; and | Project STOP mandated in Western Australia, requiring all pharmacists to use electronic real time recording of pseudoephedrine products prior to making decisions about the legitimacy of sales of pseudoephedrine-based products. This made Western Australia the second state, following Queensland to mandate real time monitoring (Nov).
 |  | • The lack of data available to enable a more comprehensive evaluation of the TDS to be conducted; | Victoria is seeing a 17% rise in hospitalisations for alcohol-related issues between 2006/07 to 2008/09 (Sep).
 |  | Recommendations were: | Cannabis Law Reform Bill 2009 assented to. The bill will repeal the Cannabis Control Act 2003 and the Cannabis Control Regulations 2004, effectively replacing the Cannabis Infringement Notice scheme (CIN) with a Cannabis Intervention Requirement (CIR) scheme. Under the new law offenders detected for use or possession of cannabis and/or smoking implements can avoid criminal prosecution only if:
 |  | • The IAWGD should consider reviewing its communication strategy and procedures; | • They possess up to 10 grams of cannabis; and
 |  | • The new TDS should align with the new NDS, even if this means delaying the release of the TDS; | • They complete a Cannabis Intervention Session (CIS) (usually within 28 days).
 |  | • The new TDS should identify key performance data, to enable evaluation of effectiveness (Aug). | Key rules include that:
 |  | The IAWGD sought approval of the Minister for Health to extend the Tasmanian Drug Strategy 2005-2009 to the end of 2012. Key reasons were that this would enable time for the IAWGD to progress some matters raised in the review of the TDS while national health reforms were clarified and relevant Tasmanian initiatives finalised (Nov).
 |  | The comprehensive review of the Tasmanian Psychostimulants Action Plan 2007-2009 was completed and report released: “Report on the 2010 review of the Tasmania Psychostimulants Action Plan 2007-2008.” The review was conducted in two-stages by the Department of Police and Emergency Management on behalf of the Inter Agency Working Group on Drugs (IAWGD). Key conclusions were:
 |  | • The aims of the Plan had been met, and had helped lead agencies to implement & coordinate action to psychostimulants; | • Those under 18 receive up to 2 opportunities to receive a CIS;
 |  | • The Plan had contributed towards declines in psychostimulant use; | • Those over 18 receive up to 1 opportunity.
 |  | • Lead agencies generally supported the state is seeing a 17% rise in hospitalisations for alcohol-related issues between 2006/07 to 2008/09 (Sep).

<td></td>
<td>continuation of the Plan, but there was also a push to develop a much broader illicit drug plan, to account for the changing drug use trends in Tasmania (particularly reductions in psychostimulant use and increasing harms from other illicit and licit drugs) (Dec). The IAWGD sought approval of the Minister for Health for an extension of the Tasmanian Psychostimulants Action Plan 2007-2009 to the end of 2013 (Dec). Cross Sector Bus Tour commenced by the Alcohol, Tobacco and other Drug Council (ATDC) to improve the capacity and knowledge of workers in the area of ATOD and mental health and other community sector and government services, through exposure to different services and opportunities to network.</td>
<td>support and investigation of the viability of integrating a SIF within existing Victorian harm reduction and treatment services (Jun). Yarra Drug and Health Forum commenced advocacy for a mobile supervised injecting van for Melbourne. They argued this would best meet residential concern about public injection, particularly surrounding the housing commissions in Fitzroy and Collingwood (Jun). Statewide expansion of the Court Integrated Services Program was announced. This followed evaluations of the pilot program (introduced in July 2006) which showed reductions in reoffending and estimates of $5 million in savings (up to $5.9 for every dollar invested) (Jun). Victoria Police developed a proactive strategy to address illicit drug use at dance events by conducting a training trial to enable Passive Alert Dogs to detect unlawful use/possession of 1, 4 Butanediol and GBL. Both precursor chemicals were sold and consumed as GHB and had contributed to a recent increase in overdoses in Victorian dance festivals. Victoria Police expanded the provision of Crime And Traffic Connecting on Highways (CATCH) training to law enforcement agencies from other states and territories. Victorian Alcohol and Drugs Association released a report, Review of the cost of Counselling Consultancy and Continuing Care (CCCC) drug and alcohol services, which provides evidence for significant structural underfunding across the Victorian Alcohol and Other drug sector. They recommended a number of measures to address this problem with one being the Department of Health funding the full cost of CCCC (Aug). Inquiry into the Impact of Drug-Related Offending On Female Prisoner Numbers – Interim Report released by the Drugs and Crime Prevention Committee. Report showed female prisoners had increased by 27% from 2008 to 2009 (compared to only 3% for males). Concluded this reflected a shift towards increased use of imprisonment as a first resort for females on remand and</td>

<td>2009</td>
<td>Statutes Amendment (Transport Portfolio-Alcohol and Drugs) Act 2009 adopted. Legislation increased penalties for individuals convicted of drug driving offences. Under the new law any driver who has expiated or been convicted of 2 or more drug driving offences in the 5 years immediately preceding the date of application for a new license will be referred to a Driver Assessment Clinic. License provision will be refused to any driver found to be drug dependent until such time as they can prove they are no longer dependent on drugs (Mar).</td>
<td>Tasmanian Corrections Minister introduced a perimeter fence and additional sniffer dogs in efforts to keep illicit drugs out of Risdon prison (May). The Inter Agency Working Group on Drugs (IAWGD) noted that the Tasmania Drug Strategy (TDS) 2005-2009 had come to an end, and therefore needed some form of review or evaluation, but that the NDS 2010-2014 which would also have future implications for the new TDS remained under development. It was decided that while awaiting the outcome of the new NDS an initial report of actions and achievements would be prepared for Government, based on stakeholder consultation about levels of awareness and perceived relevance and achievements of the TDS (Jun).</td>
<td>Victorian Mental Health Reform Strategy 2009 – 2019 adopted which recognised the link between mental health and harmful D and A use, and need for early identification of and response to co-morbid problems in an integrated networked system (Feb). The Victorian Department of Human Services released a “Discussion Paper on the Forensic Drug Treatment System” in the aim of improving treatment outcomes for forensic clients (Feb). Newly appointed Victoria Police Commissioner Simon Overland said police could not win a drug war and he would support the decriminalisation of some drugs “if there was evidence that was the best way to go” (Mar).</td>
<td>WA Premier Mr Barnett revealed tackling WA’s drug problem would be at the forefront of his government’s agenda, declaring that ‘Labor had a tolerance of drug-taking’ … ‘we are going to change that’ (Jan). Death of Gemma Thoms, a 17 year teenager, after she took 3 ecstasy tablets before entering the Perth Big Day Out music festival. Friends said she had panicked at the sight of police searching festival goers (Feb 1). Media surrounding the death of Gemma Thoms criticised the heavy-handedness of police at music events and reignited debate on the risks of particular methods of drug law enforcement, especially the use of sniffer dogs (Feb).</td>

</table>
applied to the Finks Motorcycle club, for reasons including that members had 173 convictions for drug offences (14 May). Control orders against two Finks Motorcycle club members (Donald Hudson and Sandro Tortani) requested under s14(1) of the Serious and Organised Crime (Control) Act 2008. Magistrates Court issued court order against Mr Hudson prohibiting him from associating with other persons who are members of declared organisations. Order against Mr Tortani adjourned after he initiated proceedings in the SA Supreme Court that s14(1) of the Act was invalid (May-Jun).

Adoption of the Controlled Substances (Controlled Drugs, Precursors and Cannabis) Amendment Act 2008 resulted in a number of regulatory changes. Legislative changes to the Schedules of the Controlled Substances (Poisons) Regulations 1996 Act to the banning of an additional 60 chemicals that could be used in illicit drug manufacturing. Legislative changes to the Controlled Substances Act 1984 also created new offences in relation to possession of a controlled precursor or any prescribed equipment intending to use it to manufacture a controlled drug (Section 33) and possession of prescribed equipment and/or prescribed quantities of controlled precursors without reasonable excuse (Section 33LB). Both offences became punishable with up to $15,000 and/or 5 years imprisonment (Sep).

New legislation on sale of equipment for hydroponic dealers will be required to 100 points of ID at the point of sale and all hydroponic dealers will be required to be licensed to sell hydroponics equipment. Hydroponics Industry Control Act 2009 in the aim of “preventing criminal infiltration of the hydroponics industry.” Under the new legislation all individuals who buy prescribed hydroponic equipment will have to submit 100 points of ID at the point of sale and all hydroponic dealers will be required to ensure all buyers pass appropriate tests regarding their criminal histories. They are also required to maintain records for every transaction involving prescribed equipment, and forward all information to the Commissioner of police by way of an online transaction monitoring system. Legislation enacted March 2010 (Oct).

New strategy released: “Building the Foundations for Mental Health and Wellbeing: A Strategic Framework and Action Plan for Implementing Promotion, Prevention and Early Intervention (PPEI) Approaches in Tasmania” (Jun). The Tasmanian Institute of Law Enforcement Studies released the Review of the Road Safety (Alcohol and Drugs) Amendment Act 2005 (the review). A key finding was that the penalties for drug driving (section 6A) were lenient in comparison to those for drink driving (section 6) (Jun).

New governance structure amalgamated the Alzheimer and Drug Service, Mental Health Services, Heroin Services, Forensic Services, Forensic Mental Health Service and Correctional Primary Health Service into the Statewide and Mental Health Services Unit (Jul).

Transfer of Part 3 of the Alcohol and Drug Dependency Act (ADDA) 1968 to the Poisons Act 1971 passed both houses of Parliament. The transfer of provisions relates to the prescribing and supply of certain substances, in particular Schedule 8 substances and their prescribing by all health professionals able to prescribe these substances. Also included in the transfer was the requirement for notification of drug dependency persons and the conditions under which such persons may be prescribed Schedule 8 substances under an authority of the Secretary of DHHS. The consolidation of all prescribing aspects of such substances in one piece of legislation was intended to assist practitioners in understanding their requirements and to ensure consistency in practice (Sep).

An interim review of the actions against the Tasmanian Psychostimulants Action Plan was conducted at the end of 2009. The review indicated a commitment to the aims of the Action Plan by Lead Agencies and those Agencies reported significant activity against the objectives of the Plan. The IAWGD extended the Action Plan until October 2010, in line with the development of the next phase of both the National Drug Strategy and the Tasmanian Drug Strategy. A more comprehensive review of the Action Plan was expected to be undertaken in the first Victorian Amphetamine-Type Stimulants and Related Drugs Strategy 2009-2012 adopted. The strategy has five priorities: prevention and early intervention; treatment; workforce development; justice and law enforcement; and new knowledge collection and dissemination (Apr). Twenty-six people were taken to hospital after reportedly overdosing at a Melbourne rave on GHB. This followed 30 overdoses at a Festival Hall event and 10 at a Summadayze music festival (Apr).

Dutch music festival promoters cancelled their upcoming Melbourne rave saying there were too many people who took GHB at Melbourne music events and it was tarnishing the reputation of festival organisers (Apr).

Victoria Police commenced a pilot program aimed at improving the detection of contraband on roads. The program Crime And Traffic Connecting on Highways (CATCH) brought in an additional $317,000 worth of illicit goods and other contraband over the 6 month trial (July-Dec 2009).

More than 100 Melbourne-based drug couriers were identified smuggling heroin from Vietnam for seven major crime syndicates. The couriers identified by a taskforce involving Victoria Police, Australian Customs and Australian Federal Police were recruited from the Western suburbs to pay off gambling and business debts. Most were Vietnamese (Jul).

Report from the Youth Drug Reporting System (YDRS) released: “Social contexts of substance use for vulnerable 13 –15 year olds in Melbourne”. Report sought to enhance understanding of the patterns and meanings of illicit drug use among hard-to-reach youth populations. This identified that substance use played a central role in the lives of young people but that few young people viewed their drug use as problematic and most wanted to be seen as competent, not vulnerable (Oct).

Victorian Police expand drug driving testing with provision of extra 25,500 drug testing kits and 25 secondary testing machines (Nov).

Victorian Premier John Brumby promised to In an Australian first, WA Police trialed use of drug amnesty bins at music concerts. After 3 mths trial was deemed a failure. WA Police found amnesty bins tied up a lot of resources and were rarely used (Mar-Jun).

Media reports of brown Afghan heroin on the streets in Perth (Mar).

The “Review of Western Australian Drug Driving Laws” by the Centre for Automotive Safety Research identified problems with the drug testing kits (the Cozart Drug Detection System). The kits were giving false negatives, particularly for THC. Given such problems the reviewers recommended delaying the general roll out of drug driving testing in WA and that a further 12 month trial be undertaken with new drug testing kits (Apr).

Radio announcements used to spread knowledge particularly amongst Indigenous communities about drug diversion programs in Western Australia. This was designed to increase uptake of diversion programs (Apr). Parliament by inquiry by the Education and Health Committee established into the Adequacy and Appropriateness of Prevention and Treatment Services for Alcohol and Illicit Drug Problems in Western Australia. Terms of reference included establishing the impact and social costs of AOD problems to the WA community, the adequacy of current training for medical and other health professionals in AOD issues and the adequacy, accessibility and appropriateness of services for school-aged students, treatment and prevention services (May). Submissions occurred June 2009-June 2010. Inaugural conference held “Making it Happen: responding to Alcohol and Other Drug (AOD) issues across the sectors” which brought together more than 500 delegates from government and non-government alcohol and drug agencies. Conference was hosted by the Western Australian Drug and Alcohol Office, Palmerston Association, Department for Child Protection, Department of Corrective Services, Department of the Attorney General and the Mental Health Division (Dep of Health) (11-13 May).

<td></td>
<td>Adelaide Advertiser conducted an investigation into drug consumption patterns in Adelaide clubs and concluded that “cash-strapped clubbers were shunning high-priced alcohol” at bars in favour of cheaper illicit drugs such as ecstasy (Oct). SA Supreme Court decision: Totani &amp; Anor v The State of SA [2009] SASC 301. Declared s 14(1) of Serious and Organised Crime (Control) Act 2008 invalid (Nov). Trial of 24 hour needle syringe vending machines commenced at two existing needle syringe program sites in Murray Bridge and Noorluna. The 12 month trial involving the provision of with 8 x 1ml syringes for $2.00 was initiated by Drug and Alcohol Services South Australia (30 Nov). Serious and Organised Crime (Unexplained Wealth) Act 2009 adopted which allowed for the creation and enforcement of ‘unexplained wealth orders’ and amendments to the Criminal Assets Confiscation Act 2005. Under the new law the state no longer had to prove that the defendant had committed a serious offence in order to confiscate wealth. Instead an order of unexplained wealth can be applied (when current and/or past assets exceed lawfully obtained wealth) and confiscated (Nov). Adoption of legislation that included measures to prevent the trafficking of drugs and alcohol into the APY Lands (Dec). second half of 2010 (Sep).</td>
<td>launch an investigation into claims of increased drug use at the Dame Phyllis Frost Centre amid concern about the amount of contraband smuggled into Victoria’s largest women’s jail and increasing overdoses (Nov). Launch of a new interactive website “Bluebelly” that seeks to reduce harm for users of ecstasy, meth/amphetamines and cocaine. Harm reduction information including stories and tips is updated and added to collaboratively by hosts and registered users (Nov). Victoria Police detectives seized 260 litres of a liquid industrial solvent being masked as a “harmless” party drug by crime syndicates. A drought of gamma hydroxybutyrate (commonly known as GHB, GBH, grievous bodily harm, fantasy or liquid ecstasy) had prompted syndicates to turn to gamma butyrolactone (GBL) and similar chemicals (Dec). Severe Substance Dependence Treatment Bill 2009 introduced for debate. Bill proposed to repeal the Alcoholics and Drug-dependent Persons Act 1968 and enable the detention and treatment of persons with a severe substance dependence for up to 14 days under the following conditions: • The person has a severe substance dependence; • Immediate treatment is necessary and urgent to save the person’s life or prevent serious damage to the person’s health; • The treatment can only be provided by admitting them to a treatment centre; and • There is no less restrictive means reasonably available to ensure treatment is provided (Dec).</td>
<td>WA Liberal party provided $500,000 funding for Dr George O’Neil’s struggling Naltrexone clinic on the condition that he appoint an independent researcher to determine the steps needed to attain registration of the Naltrexone implants with the Therapeutic Goods Administration (May). Education and Health Standing Committee Inquiry into the Adequacy and Appropriateness of Prevention and Treatment Services for Alcohol and Illicit Drug Problems in Western Australia (May). As part of the 2009-10 budget the WA Liberals announced a new Custodial Infrastructure Program: the most significant custodial expansion in WA history. The program is estimated to cost $655 million and will provide an additional 1,657 prisoner beds across the Western Australian prison system by the end of 2014. As part of this two new prisons will be constructed: the West Kimberley Regional Prison (150 beds) and the Eastern Goldfields Regional Prison (350 beds) (May). WA police commenced use of sniffer dogs (Jun). Discussion paper released by WA Law Reform Commission into Court intervention programs. Paper recommended and has asked for comment on the idea of expanding eligibility criteria for drug diversion through mainstream courts and drug courts (Jun). Unlicensed Driving Vehicle Sanctions introduced. Sanctions range from 28 day roadside impoundment to court imposed sanctions for repeat offenders including impoundment for up to 3 or 6 months duration. Law has potential to impact upon individuals who have their license suspended under the cannabis infringement notice scheme. Enacted 1 July. WA Drug and Alcohol Office introduced a bi-annual newsletter summarizing drug and alcohol trends in WA: Pulsecheck (Aug). Northbridge entertainment precinct was declared a “designated public area” within which police could stop and search any person without provision of reasonable suspicion, subject to the adoption of the Prohibited Behaviours Bill. The new ruling was designed to reduce anti-social behavior</td>

<td>Evaluation of the Police Drug Diversion Initiative (PDDI) was completed. Report showed there had been a total of 4,689</td>
<td>An independent Review of Alcohol, Tobacco and Other Drug Services in Tasmania was completed. The review identified numerous</td>
<td>Legislation on compulsory drug testing within Victoria Police extended to include all members in “selected units” e.g. drug</td>
<td>in the precinct (Oct). New bill introduced (Prohibited Behaviours Bill) to empower police to fight anti-social behaviour and drug offences in WA. The new legislation would mean police could stop and search a person or a vehicle in specifically declared public areas without the requirement that they have to prove reasonable suspicion. It would also mean that the court could enforce two year orders on offenders (anyone aged over 14) who have been deemed to repeatedly engage in anti-social behaviour including alcohol-fuelled violence, graffiti or inappropriate behaviour in public spaces and publish if deemed necessary the names, photos or description of any offender (Dec). Cannabis Law Reform Bill 2009 tabled. Proposed changes to the law include: • the introduction of a new limit for possession of 10 grams of cannabis or less – down from the existing 30 grams; • a requirement for all first time cannabis offenders (adult and juvenile) found in possession of 10grams of cannabis or less and/or a smoking implement with traces of cannabis to attend a mandatory cannabis intervention session; and • that cannabis cultivation be a criminal offence (Dec). A viral video, called Camel Girl was released onto YouTube as part of the Drug and Alcohol Office’s 2009/10 night venues and entertainment events campaign. It was designed as a ‘cult’ viral video to raise awareness of the importance of drinking water and rehydrating at festivals and received over 45,000 unique views by March 2010 (24 Dec). WA Collaboration for Substance Use and Mental Health (WACSUMH) established to bring together partners in the mental health, AOD, health and other related sectors to progress work around workforce development, the creation of a care pathway and the progression of promotion and prevention initiatives.</td>

--- | --- | --- | --- | ---
youth and adults diverted during the first 4 years. On average 67% offenders complied, but compliance was higher amongst youth and offenders diverted for the first time. Key impacts included short and long term reductions in drug use and offending and improvements in social functioning. But impacts were not homogenous and in some offenders use and offending increased. Evaluators concluded the program appeared successful but also recommended changes including providing feedback to police and modifying the referral system (Mar).

Amendments to the Summary Offences Act 1953 banned the sale of equipment used to consume illegal drugs, e.g. bongs, ice pipes and cocaine kits, and made such offences punishable by up to $10,000 or two years' imprisonment for an individual and $50,000 for a body corporate (Jun).

Controlled Substances (Drug Detection Dogs) Amendment Bill 2008 adopted, increasing police powers to screen for illicit drugs using drug detection dogs. The amendments allowed deployment of passive drug detection dogs for general duties: screening potential users and dealers inside and outside nightclubs, pubs, concerts, festivals and major sporting events, on board public transport and at train and bus stations. The amendments also allowed police to establish and conduct specific drug-detection screening operations on identified drug-transit routes and to use drug detection dogs, electronic drug detection systems or emerging technology, e.g. odour-detecting devices & swabbing wands to detect for the presence of controlled drugs, precursors or plants. This entered into force Oct 2008 (Jul).

Amendments to the Controlled Substances Act 1981 increased penalties against the cultivation of hydroponic cannabis. Maximum penalties for cultivation of hydroponic cannabis plants increased from $500 to $1000 and/or 6 months imprisonment and sale or possession of lamps and reflectors used to produce crops were made illegal (penalty of up to $10,000 or two years' imprisonment) (Jul).

New treatment facility opened – the Amata Substance Abuse Facility – for Indigenous problems in service provision including unmet demand, inadequate systems of referrals, high rates of take away pharmacotherapy doses and poor patient management. The report also identified that the AOD sector in Tasmania had a poor profile and inadequate systems of data collection. Key causes were workforce shortages, insufficient funds, poor training and systems of governance and the lack of a statewide client information system. They recommend establishing a separate AOD unit within the DHHS organisational structure, creating a new governance system to include NGOs and user input, significant investment to expand service provision and training ($10-15 million per year) and the adoption of a statewide client information system (Jan).

Tasmania Police commenced use of drug detection dogs (Feb).

The First Annual ATDC Conference: ATOD Practice, Integration & Development held. Conference brought together policy makers and service providers from ATOD and related fields with aim of strengthening relationships, identify priority areas and building skills and knowledge (Apr).

$17.1 million allocated in the 2008-09 Tasmanian Budget towards implementation of the recommendations of the alcohol, tobacco and other drug services review (Jul).

Media reports that Tasmania’s drug rehabilitation system was in crisis with new clients being unable to receive treatment (Jul).

First Needle Syringe Vending Machine trialed in Devonport (Jul).

The Pharmaceutical Services Branch of the Department of Health and Human Services received funding from the Commonwealth’s Health Connect program to develop and introduce a real time reporting system (RTR). This project enabled the real time secure monitoring of the Schedule 8 medications (such as morphine and oxyccodone) that had been dispensed in Tasmanian pharmacies participating in RTR. The move from the previously required monthly retrospective reporting to real time squad. New laws were set to commence in August (Apr).

Victorian Alcohol and Other Drug Quality Framework released. Six core standards were specified for AOD treatment in Victoria:
• Consumer Focus
• Evidence-based Practice
• Continuous Quality Improvement
• Corporate and Clinical Governance
• Workforce development and Partnerships (Apr).

Victorian Department of Human Services commenced implementation of the Victorian Dual Diagnosis Action Plan 2007-2010 (May).

Victorian Government issued a discussion paper proposing amendments to the Drugs, Poisons and Controlled Substances Act 1981 to mandate a sales, storage and record-keeping regime for nominated precursor chemicals and equipment to prevent their diversion to the manufacture of illicit drugs in clandestine laboratories (Jun).

New research confirmed that ambulance attendances involving gamma-hydroxybutyrate (GHB) in Melbourne had increased at a much higher rate than paramedic callouts for heroin. The research published in the Medical Journal of Australia revealed clear resource implications: 90% of GHB OD patients were transported to hospital vs. 21% heroin (Jun).

The Victorian Ombudsman recommended strengthening preventative and detection processes in Victorian prisons to lessen the risks associated with contraband, including illicit drugs (Jun).

Trial of 24 hour Needle Syringe provision in St Kilda extended until 2010 (Sep).

Access Point Stimulant Treatment Centres established in St Kilda and Fitzroy on one year trial to provide information, advice and treatment for stimulant users (Sep).

A New Blueprint for Alcohol and Other Drug Treatment Services 2009-2013 -Client-centred, Service-focused was released. The blueprint set out the vision to “prevent and reduce the harms to individuals, families and communities” by becoming more client dedicated Aboriginal specific rehabilitation and counseling options for Indigenous participants (Jan).

Largest domestic seizure of MDMA recorded in Western Australia. The 45kg of MDMA powder was shipped from the Netherlands (Apr).

Joint agency taskforce involving Australian Federal Police (AFP), Western Australia Police (WAPol), Australian Crime Commission (ACC) and Customs seized the largest recorded pill-making press in WA and arrested members of an emerging ecstasy syndicate, thereby dismantling the intended establishment of a large MDMA lab in Perth (May).

Needle and Syringe Program Review 2007 released. Report identified that there had been a 16.5% increase in the number of needles and syringes distributed between 2001 and 2006 and that while Needle Syringe Exchange Programs accounted for only 2% NSW outlets they distributed 55% of all needles and syringes. This reflected changing consumer preferences. Evaluators identified the need for ongoing training (particularly for pharmacies where only 52% staff were trained) and recommended integrating NSPs in rural/remote areas into primary health care services and expanding the use of vending machines (Jul).

Needle Syringe Vending Machines introduced in Geraldton Regional Hospital and Nickol Bay Hospital (Aug).

WA Liberals elected in coalition with the Nationals and Independents on a mandate to repeal the Cannabis Infringement Notice Scheme and provide a tougher response to cannabis (Sep).

**2008** | **people who live or come from the Anangu Pitjantjatjara Yankunytjatjara Region.** The service provides residential rehabilitation and a mobile outreach for people who misuse petrol, alcohol, cannabis and other substances (Aug). | **Serious and Organised Crime (Control) Act 2008** adopted. Legislation introduced new provisions that gave the government, acting though the attorney general and state police commissioner, powers to declare 'criminal enterprises': any organisation which represents a risk to public safety and order of the State and where members associate for the purpose of organising, planning, facilitating, supporting or engaging in serious criminal activity. The legislation also allowed for the introduction of control orders on individuals to prohibit offenders from associating or communicating with other members of organized crime groups, prohibit possession of dangerous weapons and/or prevent access to specified venues and introduced offences of criminal association (Sep). | **Amendments to the Controlled Substances Act 1984** made possession of 30 different pieces of equipment involved in amphetamine or cannabis manufacturing or cultivation e.g. high intensity lamps, carbon filters, tablet presses and distilling devices and possession of documents containing instructions for the manufacture or cultivation of illicit substances punishable with $10,000 and/or 2 years imprisonment (Oct). | **reporting increased the capacity to monitor the prescribing of these medications (as required by legislation) and to provide more accurate advice to patients (Jul).** Alcohol, Tobacco and Other Drug Services, Future Service Directions – a five year plan, 2008/09 – 2012/13 adopted. Key initiatives include: • Developing a whole of government alcohol & drug harm reduction strategy • Establishing a consumer participation framework to ensure that consumers have input into the planning, development & delivery of services and • Undertaking a review of the Alcohol and Drug Dependency Act, 1968, to establish a legislative framework that reflects contemporary models of service provision (Dec). | **centred and service focused by making links into, through and out of treatment clearer and more integrated, and prioritising prevention and earlier intervention, removing barriers to services and improving the quality, consistency and responsiveness of services and interventions. Specified strategies included:** • Ensuring routine dual diagnosis screening for all young people entering treatment • Stronger support and training resources for GPs to intervene earlier and • Redeveloping funding and reporting systems to promote service flexibility and innovation (Dec).**

| 2007 | SA Government requested an assessment of the threat posed by organised crime to the South Australian community that included the identification of legislative barriers that facilitate organised crime. SA Premier Rann unveiled his intention to introduce a comprehensive set of laws designed to make a major dent into organised crime in South Australia. The proposed set of laws covered more coercive powers of investigation, confiscating unexplained wealth, laws against association with criminal members and toughened controls on precursor chemicals and equipment for drug manufacturing (Jul). | Review of Alcohol, Tobacco and Other Drug Treatment Services in Tasmania commenced. Court mandated drug diversion program introduced (Aug). Tasmanian Psychostimulants Action Plan 2007-2009 adopted to reduce supply & demand of psychostimulants and develop guidelines for safer environments of use (Nov). The Tasmanian Sexually Transmissible Infections and Blood Borne Viruses Action Plan 2007 – 2008 was endorsed by the Minister for Health and Human Services, with the goal of minimising the transmission of HIV, Hepatitis C, and Hepatitis B and other drug related harms to injecting drug users and to the wider community. A number of initiatives commenced at Needle and Syringe Program (NSP) contact points to improve the provision of education, brief intervention and referral for people who inject drugs. These include increased education and training of NSP workers, the implementation of operational guidelines and practice standards throughout NSP primary outlets, and improved permit training and accreditation for NSP workers. Under the plan DHHS also provided hepatitis C blood awareness and drug safety education in prisons, youth detention facilities, schools, and to people from culturally and linguistically diverse (CALD) backgrounds. DHHS continued to support the Needle and Syringe Program (NSP) with an addition to the program on Hobart’s Eastern Shore and a trial of needle and syringe dispensing machines in Devonport and Invermay rolled out in 2008-09. | New Mental Health and Drugs Division commenced operation and the Minister for Mental Health convened Victoria’s first drug taskforce on ‘ice’ and amphetamines to guide the State Government’s strategy (Mar). Discussion paper released titled "Towards a New Blueprint for Alcohol And Other Drug (AOD) Treatment Services" (Mar). Earlier identification of drug harms project (EIDHP) commenced by the Turning Point Alcohol and Drug Centre. The project sought to provide an early warning system to Victorian policy makers through an information collection system that on a bi-monthly basis draws together insights from interviews with key stakeholders and surveillance data including ambulance attendances, treatment data and the pattern of needle and syringe distribution (Mar). Victorian Government released report on "Dual diagnosis: Key directions and priorities for service development" (Jun). Victoria Police adopted an Illicit Drug Strategy 2007-2011 involving three approaches: disruption; targeting repeat offenders; and reducing re-offending through the use of treatment and diversion programs. The strategy outlined the need for new tools to facilitate planning and performance monitoring. These included a drug attribution model (to collect and analyse information on the drug problem) and a drug harm index (to quantify the amount of harm being caused by drugs) that were proposed to be developed in the first year of the strategy (Jul). Discussion paper released on the "Victorian amphetamine-type stimulants (ATS) and related drugs strategy 2007–2010" (Sep). After six years of negotiation on drug testing, the Police Regulation Amendment Bill 2007 was adopted. Bill gave Victoria Police Commissioner the restricted power to drug and alcohol test Victoria Police members, but only following critical incidents e.g. police shootings (Oct). A review titled "Ecstasy, ketamine & GHB: A | WA Police commenced random roadside drug testing for cannabis, amphetamines and ecstasy (May). WA Illicit Amphetamine Drug Summit held to identify and develop strategies to respond to amphetamines (3 July). WA Illicit Amphetamine Summit – Government Action Plan adopted. Included 49 initiatives arising from Drug Summit. Review of Cannabis Infringement Notice (CIN) scheme tabled in WA Parliament. Review recommended continuing with the CIN scheme, but expanding the scheme to juveniles (with compulsory cannabis education), reducing the quantity of cannabis to which the scheme applied (from 30 to 15 grams), removing eligibility for cultivation of any plants, and increasing fines for non-compliance (Nov). Criminal Code Amendment (Drink and Food Spiking) Bill 2007 adopted. Bill created a new offence of spiking a person’s drink or food with an intoxicating substance with intent to harm the person (maximum penalty 3 years imprisonment or 12 months and a $12,000 fine for summary offence) (Nov).

| 2002 | SA Labor Party elected (Feb)  
SA Premier announced the Social Inclusion Initiative and established a Social Inclusion Unit (located in the Department of Premier and Cabinet) to adopt a more integrated and effective response to complex issues. One of first target areas was drugs (Mar).  
SA Police launched the 'SAPOL Illicit Drug Strategy – Preventing drug use – reducing crime.' This was the first drug strategy adopted and recognized the strong links between drugs and crime and need for coordinated action (May).  
SA Drug Summit held. Summit was preceded by 24 community consultations across the State with 917 people participating. Summit identified new directions for SA, particularly regarding responses to amphetamines and processes of reintegrating drug users. Gave rise to 51 recommendations (24 – 28 June).  
SA Justice Portfolio Drug Indicators Project initiated to identify potential performance indicators to measure success in “protecting the community from the consequences of drug trafficking and abuse” (Jul).  
CEN scheme amended through Controlled Substances (Expiation of Simple Cannabis Offences) Regulations 2002 (No. 170 of 2002) which maintained a limit on one plant for personal use but banned cultivation of hydroponic plants (Sep).  
Initial response of SA Government was devised by the Social Inclusion Board. It was outlined in the “Tackling Drugs – Government and Communities Working Together” report and included 7 priority areas e.g. building resilience in young people and increased support for Aboriginal people, 21 initiatives and provision of $12 million for first four years. Also established an Inter-Ministerial Committee led by Hon Led Stevens to implement initiatives. Response was devised by the Social Alcohol, Tobacco and other Drugs Council, Tasmania (ATDC) established (12 Sep). | Drug Court introduced (May)  
2000 (Dec) - The Criminal Property Confiscation Act 2000 (CPCA) - permits the State to apply to have all assets of a convicted drug trafficker seized. |

<td>2001</td>
<td>COAG-IDDI agreement signed and SA Police Drug Diversion Initiative (PDDI) introduced (Jun) Cannabis Expiation Notice Scheme amended (Controlled Substances (Expiation of Simple Cannabis Offences) Regulations 1987): Number of cannabis plants attracting a fine reduced from three to one (Nov)</td>
<td>Tasmanian Drug Strategic Plan (TDSP) 2001–2004 adopted. Hobart City Council adopted its inaugural AOD strategy: &quot;Drug and Alcohol Strategy 2001&quot;. This coincided with a period of heightened concern over youth illicit drug use.</td>
<td>Safe Needle Disposal Strategy launched including a syringe help-line (Jan) Cautious with Cannabis education session developed at Moreland Hall for Cannabis Cautioning referrals (and other referrals) Victoria Government allocated $2 million to develop a Koori drug and alcohol strategy and established a Koori Drug Strategy Advisory Committee (KDSAC) to undertake the development (Sep). Two reference groups were established into Temazepan Injecting (with Victorian Drugs Policy and Services Branch). Kit on problem and dangers of Temazepan Injecting mailed out to each Victorian doctor and pharmacy. Kit urged them to stop prescribing and supplying temazepam gel capsules because of health risks if injected (Nov). Victorian Dual Diagnosis Initiative (VDDI) established to support the development of better treatment practices and collaborative relationships between drug treatment and mental health services. The initiative commenced with four small Dual Diagnosis teams covering the state.</td>
<td>Trial of needle and syringe vending machine in Kalgoorlie Regional Hospital (Mar) WA Community Drug Summit. Recommended new governance structure, increased early intervention, more treatment, particularly detoxification and to look at ways of introducing a new prohibition with civil penalties scheme for cannabis use/possession (13-17 Aug). WA Government established Working Party on Drug Law Reform chaired by John Prior to examine how to set up prohibition with civil penalties scheme. Evaluation of the Needle Syringe Vending Machine at Kalgoorlie Regional Hospital reported an increase in the number of fitpacks dispensed, no change in the numbers discarded and a decrease in the number of people entering the hospital at night. New Drug Aware website, funded by the Drug and Alcohol Office, piloted for young people wanting credible online information on drugs (2001).</td>
